Emerging issues working group:

Co-chairs: Joe Lewinski – PSI jlewinski@psi.org)

- Next EIWG call scheduled the hour preceding the AMP call next week June 13th

Monitoring, Operational Research, and Evaluation (MORE) working group:

Co-chairs: (David Gittelman - CDC/PMI dmg1@cdc.gov and Elizabeth Ivanovich UNF - eivanovich@unfoundation.org ; Mame Birame – USAID/PMI Senegal mbdiouf@usaid.gov)

- No update

Net mapping project working group:

Chair: John Milliner – Milliner Global Associates jemilliner@gmail.com and Cedric Mingat PSI - cmingat@psimali.org

- Action item on the project from some time ago to hire an intern to look at the Global Fund website to compare nets distributed by the GF with the numbers from the net mapping project

- This work has been completed and John Milliner is comparing 2015, 2016 and 2017 data. There seems to be excellent compatibility between the sets of data when it comes to country totals. But the project has now received more information on numbers of GF nets rather than Others as donor category and is updating this information accordingly.
- Working to summarize information from manufacturers on the containerized delivery and storage issue to share with the EIWG.

Toolkit and Training working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

- 2 trainings in November (English and French) are being planned
- EN: November 5-9th
- FR: November 26-29th
- Prioritizing 8 countries per training
- Agenda under development trying to flesh out how to approach the regional workshops and working on country scenarios
- Invitations and hotel venue booking to be done by end of June

Resource Mobilization working group:

Jason Peat – IFRC jason.peat@ifrc.org, Drake Zimmerman – Rotarians Action Group on Malaria drakezim@gmail.com and Jessica Rockwood – IPHA jrockwood@iphadvisors.com

- Mechanism being sorted out to channel funds from US donations to AMP, similar for Canada might be possible
- Good meeting with RBM to discuss challenges to date in moving AMP TA under UNOPS mechanism. Agreed to keep process open to get the UNOPS TA roster finalized.

AMP ‘ACTIVE COUNTRIES’

Countries where AMP is currently providing technical assistance via in-country missions or distance support.

AMP ‘Active Countries’ updates provided on June 6th AMP call: Cameroun, CAR, DRC, Ethiopia, Ghana, Liberia, Madagascar, Malawi, Pakistan

Angola:

Population at risk of malaria in Angola :		19,600,000 (World Malaria Report, 2012)

Ongoing issues:

- About a month ago, there was a problem with the net distribution around coordination with the new MoH and nets moved that were supposed to be used for campaign and were moved instead to routine distribution.
- This has been a case of bad timing and poor coordination. GF, PMI and PSI are looking to rectify this situation by either bringing in additional nets or reallocating nets to different parts of the distribution
- Distribution was supposed to happen in June, will now happen in July.

Benin:

Population at risk of malaria in Benin		<i>10,328,934 (2014 population)</i>

Ongoing issues:

- Finalising GF application and working on timelines of next campaign following GF mission last week
- GF has asked the country to write up their experience on their payment system
- GF is interested in looking at other countries' payment systems to put together payment options for countries going forward – this issue will be brought forward within the AMP Country Support Working Group to gather lessons learned on behalf of the partnership

Cameroun:

Population at risk of malaria in Cameroun :				22,250,000 (World Malaria Report, 2014)

Update on June 6th AMP conference call:

- Finalised AMP mission over the week end
- Outcome was positive and made good way through the planning
- Concerns on the planning for complex operating environments within Cameroun
- Campaign phases been rearranged so complex areas are not happening first
- Want extensive support throughout the campaign planning phase and need to figure out a funding mechanism for support going forward
- The country has developed a budget for technical support going forward for resource mobilization purposes

Central African Republic (CAR):

Population at risk of malaria in CAR :				4,490,000 (World Malaria Report, 2012)

Update on June 6th AMP conference call:

- Global Fund country team in country now
- Lots of changes since their last mission - handover of PRs is ongoing
- All teams are in the field in the last 4 districts where distribution is happening
- Made modifications at last minute for areas that have become more insecure in last few weeks
- Complaints about the campaign aprons used for identification in the campaign, that are apparently being used by armed groups in the interior. Need to recuperate as much of the campaign materials as possible so they are not used for other purposes.

Chad:

Population at risk of malaria in Tchad :		<i>11,410,000 (World Malaria Report, 2012)</i>

Ongoing issues:

- Request for support for evaluation of campaign as agreed with Global Fund.
- WHO was going to do it but now not possible so looking for AMP to support process evaluation as long as it's not the same consultants in place that supported the campaign planning
- Looking for AMP to support and putting out a call for consultants
- Please find the link to access to the TOR for the recruitment of the international consultant for mass campaign evaluation. Please share it anyone who might be interested.

Update on June 6th AMP conference call:

- Global Fund mission to Ethiopia will coincide with the next AMP TA mission
- NMCP has taken into account recommendations from the process evaluation report developed by AMP
- Idea of next mission is to have inclusive consultation and start preparing campaign plan of action and guidelines to renew the one that was in place. Follows recommendation from last AMP mission
- Finalisation of the technical assistance will be a training of trainers to disseminate the new policies in place for future campaigns – mission scheduled to happen 3-4th week June.
- Good opportunity as it has capitalised the country and partners around a single strategy. Unified strategy agreed by stakeholders meeting.

Update on June 6th AMP conference call:

- 2-week mission planned next week (implementation and logistics)
- Data shows massive discrepancy between macro planning and HH registration data.
- Net gap anticipated: discussion is to change the allocation and quantify at 2.2 – no agreement yet between PMI and GF.
- Even with strategy of 2.2 we have shortage of over 700'000 nets
- Taking a decision to move nets from GF areas is dangerous
- Need to discuss this problem and decide on how to allocate
- Need to develop the micro transport plans and reverse logistics

Update on June 6th AMP conference call:

- AMP distance support ongoing
- Decisions need to be taken by country team on prepositioning or not prepositioning: country does not want to do prepositioning sites. Still discussing - we are showing them the advantages of having pre-positioning sites and not having them in context of a 4 day distribution. No decision taken yet.
- Previous campaign was 1-day distribution, this one is 4 days

Ongoing issues:

- AMF is close to finalising agreement for nets for the campaign for distribution in April 2019 before the rainy season in May
- Number of AMF nets will depend on population analysis being done at the moment. Between 2.5 to 3.5 million nets to be procured to be determined when the results come in.
- Campaign co-funded by Global Fund, PMI and AMF.
- PR is CRS
- There is joint visit taking place week of May 14th.
- Filling the net gap has been a priority so far. Now looking into possibility of providing PBO nets with means of evaluating effectiveness.
