**Ongoing issues:**

- Request for support for evaluation of campaign as agreed with Global Fund.
- WHO was going to do it but now not possible so looking for AMP to support process evaluation as long as it's not the same consultants in place that supported the campaign planning
- Looking for AMP to support and putting out a call for consultants
- Please find the link to access to the TOR for the recruitment of the international consultant for mass campaign evaluation. Please share it anyone who might be interested.

**Ongoing issues:**

- Received request from GF to review the budget after the meetings with LFA in Brazzaville, especially the items concerning the supply chain, as GF considered cost per net to be too low
- Review allowed AMP to recommend that they work at looking at charges on moving bales in and out of warehouses at the three levels. Also had to recalculate storage costs.
- Review has been sent back to the GF.
- Getting requests for feedback after AMP missions from the GF to check on whether recommendations are being followed: need to figure out a mechanism with UNOPS to ensure that requests for distance support are taken into account at the TA contracting level
- Signing of final grant underway
- TA support is obligatory within their grant

**Update on March 28<sup>th</sup> AMP conference call:**

- AMP mission to support process evaluation
- Sitrep attached to the minutes of this week's call
- Ethiopia completed a mass campaign distribution of 5.3 million PMI financed LLINs at the end of November 2017.
- Since early January the NMCP has been implementing a mass distribution campaign of 6 million (PMI financed) LLINs to 105 Woredas (Districts) in the 4 regions of Afar, Amara, Oromia, and Tigray. Further mass distribution campaigns are planned for 2019 and 2020
- The aim of the process evaluation is to gain insights into the roll out of the campaign in the selected areas to ensure the quality of the activities related to activity implementation against the developed timeline. The process evaluation also seeks to understand what phases of activity could be reinforced and/or improved upon to ensure high coverage and utilization of LLINs in all households targeted.
- The process evaluation will look at the different aspects of the campaign planning and implementation including:
  - Planning, coordination, orientation/training, microplanning
  - Political mobilisation, campaign communication, and BCC
  - Household registration and data management
  - LLIN pipeline tracking, warehousing, storage at distribution point level, and use of tracking tools
  - Positioning and oversight of LLIN movement, storage and management to / at distribution points
  - LLIN distribution, data management, supervision, monitoring and evaluation
  - Progress, follow up, and reporting
- The process evaluation will include three main components:
  1. Desk review of documents used during planning and implementation of the campaign
  2. Field visit to observe LLIN campaign implementation and interview key actors involved
  3. Development of a report with clear recommendations for next steps. The report will be shared with the NMCP for initial review and feedback prior to finalization
- The USAID Global Health Supply Chain Program (GHSC-PSM) is providing support to this 2018 mass distribution campaign of 6 million LLINs.
- In Ethiopia purchasing of products for malaria interventions is managed primarily by the Pharmaceutical Fund and Supply Agency (PFSA).
- GHSC-PSM has contracted PFSA to manage LLINs in country reception and positioning to Woreda level.
- Amhara region is finalising the distribution the 24 Woredas planned for the present campaign phase
- Tigray region has finalized both rounds of LLIN distribution and held a post-campaign LLIN distribution review meeting on March 26, to evaluate the overall performance of each Woreda and share lessons learned and best practices from the campaign.

- Oromia region has yet to finish their campaign due to security difficulties in certain Woredas
- The Afar region has finished the distribution to the population and will hold a post-campaign LLIN distribution review meeting in the next few weeks.

**Update on March 28<sup>th</sup> AMP conference call:**

- Sitrep attached to the minutes of this week's call
- Nomination of the new MOH Minister was confirmed on March 23, 2018.
- Participation in the Liberia PMI – NMCP quarterly partners meeting.
- 2,615,371 LLINs were procured and will be distributed with the objective of achieving universal coverage.
- Priorities of the TA mission: oversight of implementation of key activities during this period:
  - Implementation of the Household Assessment (HHA) & Vouchers distribution
  - HHA data processing, consolidation and analysis, and
  - LLINs movement from Counties to Districts and Districts to Health catchment areas.
- There is a strong indication that net distribution might be delayed to end of April, to:
  - Ensure media participation and availability of the communication materials,
  - Allow an effective SBCC component to be implemented ahead of and during distribution,
  - Advocate for and ensure participation of celebrities and high level of government at launching,
  - Merge the campaign with the World malaria day in order to leverage resources and visibility.
- Final HHA data entered in the database and results expected on Thursday March 29.
- Request for funding 373 additional DPs and distribution days (1 rural and 2 urban) is under review by the GF.

- The GF requested supplementary information about determination and location of these additional DPs and further clarifications about the human resources involved.
- The PR expect the counties & implementing partners to decide on these DPs locations by Friday March 30, 2018.
- Official net handover from MOH to Plan took place on March 20<sup>th</sup>.
- Physical Handover and transport of nets from the 15 county warehouses to 93 districts started on 21<sup>st</sup> March and expected to complete on April 4<sup>th</sup>, 2018.
- The date of campaign launch is still under discussion.
- Storage of and movement of buffer nets require a resolution involving either extension of the central warehouse contract or consider warehousing the buffer stock outside the port area.
- MOH is negotiating a security clearance with Port Authorities to allow access to the Monsterrado county. warehouse located within the restricted port perimeter.
- Distribution date change will have an impact and require review of training and net repositioning schedule.

**Update on March 28<sup>th</sup> AMP conference call:**

- For LLIN Mass Campaigns in 2018, CRS will work closely with NMEP, SFH, various state governments and malaria partners and stakeholders to coordinate and implement the distribution of over 14 million LLINs across four states: Ogun, Jigawa, Katsina and Gombe.
- The campaigns will be implemented using the Cash and Asset Transfer (CAT) Strategy, which was successfully piloted in 2017 for improving efficiency and transparency, in line with the 2017 LLIN Campaign Operational Manual.
- CRS and AMP are working on designing the scope of AMP support for 2018
- Ogun campaign has commenced and training of trainers has started.

- Country plans to distribute approx. 2.3 million nets in 2018 all this in one go i.e. before coming peak transmission season (July – October)
- Next campaign will be in 2019.
- TA Timeline: For campaign designing (i.e. micro & macro plan), immediate need for support which we are trying to deploy through CRSPC/UNOPS
- The idea is to start the mass campaign HH registration phase by early May 2018 followed by LLINs distribution in June and July 2018.
- During the LLIN distribution it is proposed for AMP to conduct a process evaluation to observe/evaluate and propose changes for 2019 campaign.
- Mission ToRs have been finalised with the country
