

The Alliance for **Malaria Prevention**

Expanding the ownership and use of mosquito nets

Partnership thoughts on AMP 2020 and beyond

AMP 2017 Partners meeting February 6th & 7th 2017
Geneva, Switzerland

AMP Mission Statement (October 2012)

The Alliance for Malaria Prevention (AMP) is a partnership focused on malaria prevention with LLINs, both through mass distribution campaigns and through continuous distribution channels, to achieve and maintain universal coverage targets. AMP focuses on the development and sharing of best practices, lessons learned and recommendations for malaria prevention with LLINs, and supports implementation of LLIN distribution activities with the objective of strengthening skill sets and capacity at country level. AMP is uniquely positioned to respond to country requests and to convene organizations and individuals with common interests in scaling up and sustaining LLIN distribution.

AMP Partnership thoughts on AMP 2020 and beyond

- In August 2016 AMP Core Group held a two meeting at the UN Foundation office and reviewed our 2012 mission statement with the thinking of how best to position AMP to meet challenges to 2020 and address the question of AMP's mandate.

AMP Partnership thoughts on AMP 2020 and beyond

- August 2016 AMP Core Group provided feedback in three areas;
 - 1) **Go Deeper** - AMP's current mission statement
 - 2) **Go Wider** - AMP's current mission statement
 - 3) **Go Higher** – AMP's current mission statement

AMP Partnership thoughts on AMP 2020 and beyond

Go Deeper:

- 1) Increase quality = 10
- 2) Generate evidence = 5
- 3) Mediate between donor and country = 5
- 4) Remain focused on campaigns = 4
- 5) Expand use = 3 / Focused on evidence = 3 / Provide more decision making tools to countries to help strategic process = 3

AMP Partnership thoughts on AMP 2020 and beyond

Go Wider:

- 1) Resolve operational bottlenecks malaria = 10
- 2) Take new malaria prevention to scale quickly = 8
- 3) Ensure equitable access for all = 4
- 4) Inform implementation of LLIN scale up = 4
- 5) Integrated malaria services = 3 / Expand scope of AMP = 3

AMP Partnership thoughts on AMP 2020 and beyond

Go Higher:

- 1) Guide policy = 8
- 2) Lead global decision making = 7
- 3) Better health through universal access =3
- 4) Moral accountability =3
- 5) Build NMCP capacity =2 / Achieve NMCP self-sufficiency in malaria prevention =2

AMP's strategy to expand engagement with Global Fund

AMP recognizes critical potential of Global Fund to maintain and expand quality and responsive technical assistance for expanding LLIN distribution.

AMP now seeks a formal mechanism to help ensure consistent resources to support its critical technical assistance mandate for countries.

Our ask: seek partner endorsement of pursuing this mechanism with Global Fund.
