

# The Alliance for **Malaria Prevention**

Expanding the ownership and use of mosquito nets

## **Innovation and Evaluation Working Group (IEWG)**

**January 2020**

**Jessica Rockwood IPHA- Chair**  
**Joseph Lewinski Independent- Chair**

## About IEWG

---

In 2019 the Emerging Issues  
(Operations) + MORE (M+E)  
Working Group Combined =

**Innovational and Evaluation  
Working Group (IEWG)**

## **IEWG Objectives**

---

1. Identifying critical ITN issues to monitor, address and provide supporting implementation guidance for the AMP partnership
2. Catalyzing critical issues by raising them to the attention of the AMP others
3. Develop and disseminate resources on identified emerging issues to the AMP partnership as they become available.

## **IEWG Outcomes**

---

1. Draft implementation guidance for AMP consideration and adoption.
2. Work within the AMP and with other stakeholders to advance key issues for decisions, recommendations or policy adoption through appropriate policy channels
3. Develop methodology and help determine locations for new approaches to monitoring and evaluating selected activities during ITN distribution.
4. Review and update AMP guidance products as appropriate.

## **Workplan Activities for 2020 (1)**

---

1. Technical Recommendations to Storage of LLINs in Containers
  - a. Determining the impact of ITNs stored in containers
2. ***Macroquantification\****
3. Household Registration Quality and Allocation
4. Post Distribution Data Collection: Coverage and Efficiency
5. Understanding eHealth Technologies Used in LLIN Distribution

## **Workplan Activities for 2020 (2)**

---

6. Ensuring Access to ITNs for Refugees/Internally Displaced Populations
7. Strategies for ITN Delivery to Hard to Reach Areas
8. ***Strategies for Integration/ Campaign Effectiveness\****
9. Strengthen last mile quantification (reverse logistics)
10. Waste Management & Packaging

## **Workplan Activities for 2020 (3)**

---

11. ITN Preferences

1. ITN Misuse

12. Chapter 8. M+E Update

13. Making sense of durability monitoring results

14. Improving SBC Initiatives

15. Urban Distribution
