**Emerging issues working group:**

Co-chairs: Joe Lewinski – PSI [jlewinski@psi.org](mailto:jlewinski@psi.org))

- Organising a call early next week on container storage issue
- Have compiled returns from suppliers, and revised the initial document with the changes suggested by CDC and the work done by Tana Netting on comparing the container and Rex Hall temperatures over time.
- Keeping this moving forward in the lead up to the AMP core group meeting.

**Monitoring, Operational Research, and Evaluation (MORE) working group:**

Co-chairs: (David Gittelman - CDC/PMI [dmg1@cdc.gov](mailto:dmg1@cdc.gov) and Elizabeth Ivanovich UNF - [eivanovich@unfoundation.org](mailto:eivanovich@unfoundation.org) ; Mame Birame – USAID/PMI Senegal [mbdiouf@usaid.gov](mailto:mbdiouf@usaid.gov))

- Draft HH registration assessment guidance is under review

**Net mapping project working group:**

Chair: John Milliner – Milliner Global Associates [jemilliner@gmail.com](mailto:jemilliner@gmail.com) and Cedric Mingat PSI - [cmingat@psimali.org](mailto:cmingat@psimali.org)

- Second quarter data has been shared with the minutes of this week's call

**Toolkit and Training working group:**

Chair: Marcy Erskine IFRC – [marcy.erskine@ifrc.org](mailto:marcy.erskine@ifrc.org)

- 2 trainings in November (English and French) are being planned – Kenya will host both trainings EN Nov 5-9<sup>th</sup> and FR back to back 12-16<sup>th</sup> Nov
- Prioritizing 8 countries per training
- First draft of the agenda has been circulated
- Invitations and hotel venue booking to be done by end of June
- Global Fund has sent communication out to FPMs on the training and costs associated to participation
- 10 briefs for communications under development – 8 are finalized, waiting for feedback on 2
- M&E chapter revision is on its last turnaround
- Micro planning guidance coming back soon for review
- COE document: hit a snag on semantics. WHO does not have a definition of COE.

**Resource Mobilization working group:**

Jason Peat – IFRC [Jason.peat@ifrc.org](mailto:Jason.peat@ifrc.org), Drake Zimmerman – Rotarians Action Group on Malaria [drakezim@gmail.com](mailto:drakezim@gmail.com) and Jessica Rockwood – IPHA [jrockwood@iphadvisors.com](mailto:jrockwood@iphadvisors.com)

**Ongoing issues:**

- Wrap up lessons learned meeting planned in Angola. Going back and forth on dates right now.
- Finished phase 3 of their distribution end of May and should be writing up their report that will feed into the lessons learned meeting. Report will be shared with the AMP group
- Completing a field assessment of continuous distribution – taking place next week
- No Global Fund support next year for continuous distribution, and unclear on PMI contribution for next year at this stage.

**Update on July 18<sup>th</sup> AMP conference call:**

- Ongoing evaluation mission – sitrep attached to the minutes of this week’s call
- 2017 campaign in Benin took place in two phases, from 17 to 20 August 2017 covering four departments in the north and from 19 to 22 October 2017 for the eight remaining departments of the Center/South
- AMP has been designated to lead the evaluation of the 2017 campaign in four departments: Alibori and Donga in the north and Atlantic and Oueme in the south.
- The assessment, which is essentially qualitative in nature, aims to identify the strengths and weaknesses and challenges encountered, and to highlight and document good practices in order to improve the effectiveness of the next campaign.
- Two government representatives are accompanying and participating in the field mission which is led by two AMP consultants, Hortense Kossou as national consultant and Kamel Maina as international consultant.
- A mid-term report of the evaluation was presented to PMI in Cotonou on Monday, July 16, 2018, describing the findings, results and interviews conducted to date as part of the evaluation.
- Last week saw the continuation of meetings / interviews with the actors who participated and benefited from the 2017 campaign

**Ongoing issues:**

- Finalising GF application and working on timelines of next campaign following GF mission last week
- GF has asked the country to write up their experience on their payment system
- GF is interested in looking at other countries' payment systems to put together payment options for countries going forward – this issue will be brought forward within the AMP Country Support Working Group to gather lessons learned on behalf of the partnership

**Cameroun:**

**Ongoing issues:**

- PMI will be funding an assessment for routine services in remote parts of the country this summer from 30<sup>th</sup> July to 10<sup>th</sup> August - Going to at least 1 district in each of the north and extreme north regions. Working with PNLN and partners to come up with list of recommendations and decide on priorities.
- Plan for TA support to the mass campaign going forward needs to be developed – AMP has developed draft TA budget for country consideration
- Call was held with NMCP and Global Fund this week
- They are on track in terms of planning. Received final documents from AMP consultants mission.
- GF has encouraged strongly to submit plan by end of June but country wants more time to incorporate recommendations received into their plan. Preference for mid July, but pressure to submit by end of this week
- There is a budget gap for them to do a campaign at quality
- Government contribution of nets and timing of government to make payments was discussed.
- Probably tight to get nets on time
- Potential reorganisation of the campaign to allow for period of cooling off after the elections. This would allow the anglophone areas in north to not be covered just after the elections. Decision to be taken as soon as possible to give information to suppliers in a timely manner

**Ongoing issues:**

- Request for support for evaluation of campaign as agreed with Global Fund.
- WHO was going to do it but now not possible so looking for AMP to support process evaluation as long as it's not the same consultants in place that supported the campaign planning
- Looking for AMP to support and putting out a call for consultants
- Please find the link to access to the TOR for the recruitment of the international consultant for mass campaign evaluation. Please share it anyone who might be interested.

**Update on July 18<sup>th</sup> AMP conference call:**

- AMF mission to DRC planned in coming weeks to meet with PNLP and new PR SANRU.
- The objective of the DRC meetings is to reach agreement on which regions AMF will be supporting
- Looking at starting with 2 regions in Equateur in north west of the country
- Large net gap still to be covered

- Ministry is not looking for external support from AMP going forward, so there is no engagement there right now – Last campaign that PNLP and SANRU ran had lots of observers on ground that said campaign had gone very well.
- Previous evaluation assessment made by AMP was shared with AMF and has been very useful.
- Looking at potentially putting PBO nets in place
- Anecdotally aware that insecticide resistance is very high
- Initial commitment from AMF of about 3 million LLINs and then larger contribution later in 2019 for further 4 million LLINs.
- Rolling distributions are interesting to AMF as they can spread out the demand for nets.

**Update on July 18<sup>th</sup> AMP conference call:**

- In-country mission ongoing – sitrep attached to the minutes of this week’s call
- Ethiopia completed a mass campaign distribution of 5.3 million LLINs at the end of November 2017. From January to April 2018, another 6 million LLINs were distributed to 105 Woredas (Districts) in the 4 regions of Afar, Amara, Oromia, and Tigray. Further mass distribution campaigns are planned during 2019 and 2020 for distribution of 22 706 700 LLINs to populations in malarious zones of 548 woredas in 9 regions.
- This support mission is a continuation of the AMP March 2018 support of a process evaluation into the roll out of the campaign LLIN distribution activities.
- Based on the review of the LLIN distribution strategy and the process evaluation report submitted with recommendations, the federal ministry of health is planning to update the LLIN distribution strategy guideline. The guideline will also consider gaps and reflections from a post LLIN distribution assessment conducted in June 2018.
- The present TA will focus on:
  - Refine and update procurement and distribution plan;
  - Follow-up on LLINs delivery status and work closely with responsible entities;
  - Prepare a detailed distribution plan by Woredas indicating LLINs need and expected distribution date;
  - Guide distribution of LLINs at all levels;
  - Develop/update relevant tools for tracking and monitoring distribution and usage of LLINs;
  - Data collection, analysis and reporting mechanisms including templates/formats, supervision and monitoring aspects;

- Support the development of a LLIN 2019 campaign Plan of Action for the mass LLIN distribution campaign;
- Develop a timeline for roll out of activities and key milestones that must be met to ensure activities are started as soon as possible;
- Flag any gaps in operational planning/costs that could impact on the successful rollout of the campaign;
- Discussion and review with the National Malaria Program (NMP) and partners of existing planning and implementation tools and documents (training materials; data collection materials and management system; LLIN distribution tools; supervision, monitoring and data verification tools, etc.)
- The Global Fund Ethiopia country team was in Ethiopia from July 1st to 6th for consultations.
- The National Malaria Program (NMP) is participating in a Ministry of Health annual planning exercise.
- The USAID Global Health Supply Chain Program (GHSC-PSM) was undertaking a post LLIN distribution assessment of the January to April campaigns in the 4 regions of Afar, Amara, Oromia, and Tigray.
- The following table and maps detail the quantities and districts by region for the planned 2019-2020 LLIN distribution campaigns .

- Support to the procurement of 10,3 milion GF sponsored nets:
  - The debate on the waste management issue of procuring nets with individual plastic bags or in bulk packaging was supported by a cost analysis of transport cost to return plastic packaging waste from district level to regional centres for disposal in high temperature cement factory furnaces.
  - The savings of procuring LLINs packed in bundles of 50 nets without individual plastic bags for the 8 061 685 nets of the Oromia region would be 287 168 USD.
  - Ethiopia announced a pro-environment decision that the procurement of 10. 3 million LLINs would be without individual plastic bags
  - The planned delivery strategy to the country was modified to take into account the estimated arrival time of the 3 different procurements, the usual rainy season by area, the malaria incidence rate and the timing of the last distribution campaign. The most important change was to have the Somali region be first in line for a LLIN mass distribution.

**Update on July 18<sup>th</sup> AMP conference call:**

- In process of putting together the agenda for the wrap up meeting and working on final campaign report
- Data does not look bad so far – decent coverage. Lessons learned will mostly be around timing of activities and causes of delays over several months.

- Undertook a mini post campaign evaluation to get familiar with the CMA tools.
- CMA tools that they used have not linked back well to complete the analysis so they need some additional support on this from AMP.

- Global Fund distribution planned in September should be same timing as the next AMP mission - Might depend on elections
- Madagascar is mid-way into the planning and implementation of a national campaign: 13,129,000 nets in 106 of the 114 districts of the country.
- Two donors: PMI (6 M nets) and GF (7.1 M Nets)
- Three funding sources: PMI, GF NFM1 (until June 30) and GF NFM2 (from July 1 onwards)
- PMI nets: one contractor (PSM) and one sub-contractor (PSI)
- GF nets: two PRs – PSI and UCP
- Distribution still planned for August (PMI nets – 4 districts starting 6th August ; 6 districts starting 13th August) and September (GF nets)
- 100,000 nets donated to the Malagasy Red Cross (MRC) 18 months ago for a CD pilot project are still in containers for lack of operational funds for implementation and will be donated to the campaign if possible
