

# AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

---

**AMP Conference call minutes:** [www.allianceformalariaprevention.com](http://www.allianceformalariaprevention.com)

12<sup>th</sup> December 2018

Dial-in number: +1-213-787-0529  
USA toll-free: 888-808-6929  
Access Code: 3904916

If you wish to be added to or taken off this mailing list please contact: [melanie.caruso@ifrc.org](mailto:melanie.caruso@ifrc.org)

Do you have a topic / issue / country specific update to share with the AMP partnership? Send a summary of the topic you would like to discuss to: [jason.peat@ifrc.org](mailto:jason.peat@ifrc.org) or [melanie.caruso@ifrc.org](mailto:melanie.caruso@ifrc.org) and we will schedule your update at the start of an upcoming AMP conference call.

## **Agenda – December 12th AMP conference call**

Chair : Jason Peat  
Rapporteur : Melanie Caruso

- Introductions
- Review of minutes from last week's AMP conference call
- Update on new AMP SBCC/communication tools
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, December 19th 2018 10:00 EST, 14:00 GMT / UTC, 16:00 CET

## **Participants:**

AMF:	Shaun Walsh
AMP participants:	Jean-Marc Grégoire, Giovanni Dusabe, Greg Pirio
BASF:	Alex Heimsch
Buy a Net:	
CDC / PMI:	Anna Bowen
CRS:	Suzanne van Hulle
Disease Control Technologies:	
Friends of RAM:	Drake Zimmerman
Global Health Partners:	
Global Fund:	
IFRC:	
Independent participants:	
Intelligent Insect Control:	
IPHA:	
JC Flowers Foundation:	
JHU Centre for Communications:	Hunter Harig, Andrea Brown
JSI:	
MCDI:	
Milliner Global Associates:	John Milliner

PLAN Canada:  
PSI: Joe Lewinski  
Real Relief Health: Annette Braae  
Results in Health:  
Rotarian Malaria Partners:  
Sumitomo:  
Tana Netting: Mia Pagh  
UNICEF:  
UN Foundation: Dana McLaughlin  
USAID / PMI:  
VectorLink: Mary Kante  
VF: Aurelie Delbaere  
WHO:  
World Vision: Gagik Karapetyan

### **General updates:**

#### **AMP annual partners' meeting 2019 – SAVE THE DATE:**

- Dates have been set to 28-29th January 2019 for the next AMP Partners' meeting in Geneva and will be held at the Movenpick Hotel.
- Registration is now open (contact [melanie.caruso@ifrc.org](mailto:melanie.caruso@ifrc.org) if you have not received information on registration).
- Agenda will be shared early next week

#### **Update on new AMP SBCC/communication tools**

- The AMP toolkit for mass distribution campaigns has been developed to bring together country and partner experiences to provide an overview of various strategies employed in mass LLIN scale-up, as lessons learned. The toolkit is utilized by NMCPs, implementing partners, PMI resident advisors, the Global Fund and TA providers to plan and implement mass distribution campaigns. NetWorks worked with AMP on the previous revision of the toolkit in 2012.
- Since 2012, there have been advances in mass distribution campaigns with new best practices and challenges identified. AMP is working continuously to develop briefs and technical updates to complement the existing version of the toolkit. The toolkit briefs as they are finalised are published on the AMP website alongside the original toolkit chapters and disseminated as updated guidance during AMP country support missions and trainings.
- Chapter 6 Communication: the new communication briefs serve as an update to the existing communication chapter of version 2.0 of the AMP toolkit. Most of the briefs and associated updated chapter including click on icons referring to new materials have been finalised and translated into French. Here is an overview of the new tools :
  - Brief 1: Key communication recommendations (under development)
  - Brief 2: Communication planning and budgeting (under development)
  - Brief 3: Using research and data to plan effective social and behaviour change communication (complete)
  - Brief 4: Private sector engagement (complete)
  - Brief 5: Branding and promoting social norms (complete)
  - Brief 6: Media engagement (complete)
  - Brief 7: Development of advocacy events and materials (complete)
  - Brief 8: Special requirements of social mobilization in urban areas (complete)

- Brief 9 : Planning and implementing social mobilization and social and behaviour change communication (complete)
- Brief 10: Hang-up (complete)
- VectorWorks has provided funding support to ensure finalization of the communication tools
- Finalisation of the two remaining briefs should be completed in the next few weeks and ready for translation into French and layout.
- The new tools are attached to the minutes of this week's call

**AMP working group updates:**

**Country support working group:**

Chair: Marcy Erskine IFRC – [marcy.erskine@ifrc.org](mailto:marcy.erskine@ifrc.org)

Current AMP TA missions :

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
CAR	Logistics	AMP via World Vision	October - December 2018
Congo Brazzaville	Implementation	CRSPC	November-December 2018
Nigeria	Process evaluation Gombe State	AMP via CRS	November-December 2018

Planned AMP TA missions 2018 and 2019:

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Nigeria	TBD	CRS	Continuous 2019
Malawi	Post-campaign	AMP	Q1 2019
Madagascar	Post-campaign	AMP	Q1 2019
Gambia	Logistics	AMP	Q1 2019
Senegal	Implementation and Logistics	AMP	TBC
Cameroun	Implementation and Logistics	AMP	Continuous 2019
Congo Brazzaville	Implementation and Logistics	AMP	TBC 2019
Burkina Faso	Implementation, Communications and Logistics	AMP	TBC 2019
CAR	Implementation and Logistics	World Vision	TBC 2019
Sudan	TBD	TBD	2019
South Sudan	Implementation	CRSPC	2019
Uganda	Logistics	CRSPC	January 2019
Burundi	TBD	TBD	February/March 2019

<b>Mozambique</b>	TBD	TBD	February/March 2019
<b>Ethiopia</b>	TBD	TBD	TBD
<b>Pakistan</b>	TBD	TBD	TBD

Completed AMP TA support (distance and in-country) in 2018:

<b>Country</b>	<b>Type of technical support requested from AMP</b>	<b>Partner / Funding source</b>	<b>Mission dates</b>

**Emerging issues working group:**

Co-chairs: Joe Lewinski – PSI ([jlewinski@psi.org](mailto:jlewinski@psi.org)) and Jessica Rockwood – IPHA ([jrockwood@iphadvisors.com](mailto:jrockwood@iphadvisors.com))

- EIWG held a conference call just prior to this call
- The call focused on the container storage issue and setting the agenda for the lunch meeting at the AMP meeting
- Colleagues from CDC joined to give indications on the way forward on container issue
- EIWG has scheduled a lunch time meeting during the 2019 AMP Partners meeting
- New issues in 2019 will be presented at the AMP meeting
- Meeting agenda for the Working group lunch – Emerging issues – STARTING AT 13:00 on 29<sup>th</sup> January 2019
  - Welcome / Intro into topics discussed in 2018 - 5 minutes
  - Intro to Container Storage - 5 minutes
    - Overview of Operational Challenges- 10 minutes
    - Overview of Net Integrity Challenges- 10 minutes
    - Discussion- 30 minutes
    - EIWG 2019- 10 minutes

**Monitoring, Operational Research, and Evaluation (MORE) working group:**

Co-chairs: (Anna Bowen - CDC/PMI ([aqb0@cdc.gov](mailto:aqb0@cdc.gov)) and Elizabeth Ivanovich UNF - ([eivanovich@unfoundation.org](mailto:eivanovich@unfoundation.org)))

- Meeting agenda for the Working group lunch – MORE – STARTING AT 13:00 on 28<sup>th</sup> January 2019
  - Household registration for mass ITN distribution (details TBC)
  - Minimum Data Requirements for household registration and ITN distribution
  - Summary and next steps

**Net mapping project working group:**

Chair: John Milliner – Milliner Global Associates ([jemilliner@gmail.com](mailto:jemilliner@gmail.com))

- Building district wide database for collection on larger scale of in country distribution data.
- Request for Q4 information going out

**Toolkit and Training working group:**

Chair: Marcy Erskine IFRC – ([marcy.erskine@ifrc.org](mailto:marcy.erskine@ifrc.org))

- SBCC/communication tools update above

**Resource Mobilization working group:**

Jason Peat – IFRC ([jason.peat@ifrc.org](mailto:jason.peat@ifrc.org)), Drake Zimmerman – Rotarians Action Group on Malaria ([drakezim@gmail.com](mailto:drakezim@gmail.com)) and Jessica Rockwood – IPHA ([jrockwood@iphadvisors.com](mailto:jrockwood@iphadvisors.com))

- No update

**AMP 'ACTIVE COUNTRIES'**

Countries where AMP is currently providing technical assistance via in-country missions or distance support.

**AMP 'Active Countries' updates provided on December 12th AMP call: Burkina Faso, Cameroun, CAR, Congo Brazzaville, Madagascar, Malawi, Nigeria, Pakistan, Senegal, Uganda**

**Angola:**

Population at risk of malaria in Angola :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

**Ongoing issues:**

- Final phase 3 campaign report – Huambo, Cuando Cubango, Moxico
- Final phase 4 campaign report – Lunda Sul, Lunda Norte, Bengo

**Benin:**

Population at risk of malaria in Benin							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

**Update on December 12th AMP conference call:**

- AMP mission is now complete
- Sitrep attached to the minutes of this week's call
- Distribution of about 12 million ITNs scheduled
- Multi product campaign planned – TA is crucial to planning
- Need to consider comms plan of action in particular
- Originally planning a launch in February 2019 and conduct a 2 phase campaign, first LLINs then PBO nets. But changes are being discussed to that strategy. Discussing pushing back the launch of the campaign.

**Cameroun:**

Population at risk of malaria in Cameroun :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

**Update on December 12th AMP conference call:**

- AMP TA providers mission is complete for 2018 – support in 2019 to different campaign phases will be continuous
- Cameroon is planning to implement its third campaign in 2019. It is planned to distribute 14,697,104 LLINs with standard PBO and LLINs to be distributed

**Central African Republic (CAR):**

Population at risk of malaria in CAR :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
<b>Totals</b>							

**Update on December 12th AMP conference call:**

- AMP TA in CAR supporting new PR World Vision
- Sitrep attached to the minutes of this week's call
- Continuation of TA services to the end of the year with World Vision and AMP and planning for continued support in January 2019
- World Vision is in charge of planning until December 2018 the mass distribution in the 14 remaining sub-prefectures without microplanning data: Haute-Kotto (03), Basse-Kotto (05) and Mbomou ( 06) – hard deadline under the grant of 31<sup>st</sup> December 2018
- Replacement campaign planned in 2019

**Chad:**

Population at risk of malaria in Chad :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							

<b>Continuous distribution</b>							
<b>ANC</b>							
<b>EPI</b>							
<b>Totals</b>							

**Ongoing issues:**

- Request for support for evaluation of campaign as agreed with Global Fund.
- WHO was going to do it but now not possible so looking for AMP to support process evaluation as long as it's not the same consultants in place that supported the campaign planning
- Looking for AMP to support and putting out a call for consultants
- Please find the link to access to the TOR for the recruitment of the international consultant for mass campaign evaluation. Please share it anyone who might be interested.
- For UNDP staff : <http://procurement-notices.undp.org/> ID 44571
- For non UNDP staff : <http://procurement-notices.undp.org/search.cfm>.

**Congo Brazzaville:**

<b>Population at risk of malaria in Congo Brazzaville:</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
<b>Distribution channel</b>	<b>Scale of distribution</b>	<b># LLINs needed per distribution channel</b>	<b># LLINs available per distribution channel</b>	<b>LLIN gap per distribution channel</b>	<b>Budget gap per distribution channel</b>	<b>Technical assistance requested with date per distribution channel</b>	<b>Date of most recent update</b>
<b>Mass distribution</b>							
<b>ANC</b>							
<b>EPI</b>							
<b>Totals</b>							

**Update on December 12th AMP conference call:**

- AMP TA on ground
- Sitrep attached to the minutes of this week's call
- Congo's last mass distribution campaign was in 2012. To sustain the gains achieved in the past, the Ministry of Health will implement nationwide a mass LLIN replacement campaign to distribute LLINs to beneficiaries in July 2019.
- The Congo population estimated for the 2019 campaign at 5 031 242 is a projection derived from the 2007 census adjusted by a 2,6% annual increase. The GF accepted adding a 10% buffer in the LLIN needs quantification to compensate for possible projection uncertainties due to the time since the last census.
- Thus the result of dividing the population by 1,8 to provide 1 net for every 2 people (rounded up) and adding 10 % established a procurement need of 3 074 649 LLINs for the 2019 campaign which the Global Fund financed. Rectangular nets in bulk packaging conditioned in bales of 50 LLINs have been purchased and were scheduled for delivery to the Congo republic in late February 2019
- Catholic Relief Services (CRS) is the Global Fund principal recipient (PR) in support of the Congo NMCP for the 2019 LLIN distribution campaign.

- Distribution of LLINs to the population through an estimated 1,170 Distribution points is planned for the 3<sup>rd</sup> week of July 2019, before the rainy season.
- Congo is planning to have 12 Department level microplanning workshops with participants from the 51 districts and 2 members from each of the 350 health centre areas.
- Recent information from suppliers suggests that there could be an early delivery to Congo. The nets could arrive in mid-January and not end of February.
- Microplanning dates have been changed

**DRC:**

Population at risk of malaria in DRC :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

**Ongoing issues:**

- Analysis is being conducted by AMF on whether to put next generation nets in one of the provinces of DRC in Sud-Ubangi in north west side of country
- AMF is figuring out what kind of monitoring could be done
- The Global Fund is funding nets in this area of DRC
- PMI interest in doing some entomology studies on that region potentially
- AMF is planning to support LLIN distribution at the end of the 1<sup>st</sup> quarter of 2019 in a region in Equator Province with 1.6 million LLINs and during the 2<sup>nd</sup> quarter Sud Ubangi Province with 1.9 million LLINs for a total of 3.5 million LLINs followed by further regions in 2020.
- At this time AMF does not have funds to fill the entire LLIN gap but are working to cover those gaps that AMF can support.

**Ethiopia:**

Population at risk of malaria in Ethiopia:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per	Date of most recent update

						<b>distribution channel</b>	
<b>Mass distribution</b>							
<b>ANC</b>							
<b>EPI</b>							
<b>Totals</b>							

**Ongoing issues:**

- Planning to meet with the country team at the AMP regional training in Nairobi to go over questions still pending to prepare campaign guidelines.

**Gambia:**

<b>Population at risk of malaria in Gambia:</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
<b>Distribution channel</b>	<b>Scale of distribution</b>	<b># LLINs needed per distribution channel</b>	<b># LLINs available per distribution channel</b>	<b>LLIN gap per distribution channel</b>	<b>Budget gap per distribution channel</b>	<b>Technical assistance requested with date per distribution channel</b>	<b>Date of most recent update</b>
<b>Mass distribution</b>							
<b>ANC</b>							
<b>EPI</b>							
<b>Totals</b>							

**Ongoing issues:**

- First technical support mission completed
- Cross boarder planning with Senegal
- See update on Senegal
- Looking at synchronised campaign with Senegal, trying to ensure all border populations are reached
- The two NMCP teams met last week in Dakar for joint planning meetings
- Gambia is currently finalising their plan after AMP comments and review
- Not aligned on procurement of nets for cross boarder distribution - different sizes and colours which may present challenges
- Coordination on use of electronic devices needs to be ironed out.
- Separating out the support to Gambia and Senegal. Marcy will cover cross border aspects. Senegal has a big distribution that requires more support separate from the cross-border campaign
- Plan for documentation of cross boarder campaign to inform future campaigns for border areas. Requested by WHO, as part of a bigger initiative around malaria elimination.

**Ghana:**

<b>Population at risk of malaria in Ghana :</b>
<b>Required LLINs :</b>

LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

**Update on December 12th AMP conference call:**

- Still consolidating distribution data and the number of nets remaining keeps going down - will have a clear picture in the next few days after the teams are done with data reconciliation.
- Based on the current revised road map, planning to have the lessons learnt process and report writing start the week of January 13th to 25th, 2019, and will need the TA during those 2 weeks.
- This will include lesson learnt workshop at District and national level, interviews with key personnel and partners involved in the campaign and any other methods that can help gather lessons from the campaign. Based on challenges from the previous campaigns to have final campaign report done in good time, the team is proposing to include an element of supporting report writing process in this TA.
- Detailed Scope of work to be shared by PMI by the end of this week.
- The plan is to have a full campaign report by the 31st January, 2019.

**Mali:**

**Update on December 12th AMP conference call:**

- AMP TA on ground
- Sitrep attached to the minutes of this week's call
- Catholic Relief Services, with funding from the Global Fund, is implementing a mass campaign distribution of Long Lasting Insecticidal Nets (LLINs) in Gombe State.
- It is estimated that the campaign will reach a total population of 3,453,109. During macro planning, the LLIN need for Gombe was estimated using the projected population for 2018 (from the 2006 census) divided by 1.8 (in line with WHO recommendations).
- In order to attain universal coverage, 1 net for every 2 people is allocated to households (with rounding up for households with uneven members) to a maximum of 4 nets per household. As a result, 2,099,233 LLINs were procured for distribution, including a 10% buffer stock added to the estimated needs (because the last national census was over 10 years ago).
- Based on micro planning, LLIN need was estimated at 2,089,291 nets and 898 fixed and 220 satellite distribution points are allocated to serve the population in the 114 wards in the 11 Local Government Areas (LGAs) of the State.
- A technology-based system through a Cash and Asset Transfer (CAT) platform using Android phones is being employed to facilitate campaign process including household mobilization, distribution and monitoring, end process surveys, to register and track beneficiaries, as well as monitor LLIN stock levels at the distribution points
- The general objective of the mission in Gombe State is to provide overall technical assistance while specifically undertaking a process evaluation for the LLIN campaign including:
  - Monitor and evaluate the use of technology in LLIN campaign
  - Review the LLIN campaign implementation strategy/model
  - Provide strategies that can be used in the Gombe campaign based on lessons learnt in Oyun, Ogun, Jigawa and Katsina campaigns
  - Share lessons and best practice from other countries especially in demand creation activities
  - Make recommendations for improving campaign processes and outcomes
  - Participate in the after-action review workshop to harmonize lessons learnt from the 4 campaigns and provide a lesson learnt document
- During this week, the consultant focused his efforts on monitoring LLINs distribution (process, quality, data collection and management, etc.) through DP visits and supporting the demand creation team.
- Overall campaign planning and implementation:
  - LLINs distribution activities completed.
  - In total, **2,066,150** LLINs were distributed in Gombe. This represents
  - 98.53% net redemption (**2,096,965** nets cards were issued during household registration),
  - 98,8% of the quantity estimated during microplanning (**2,089,291**), and

- 98,4% of LLINs estimated during macroplanning (2,099,233).
- Feedback from the field and discussions with different partners indicate that there are settlements missed during household registration.
- The end process evaluation was conducted two days after the LLINs distribution using the mobile devices
- Synchronization of end process data ongoing
- Final results from the end process evaluation was not yet available
- Reverse logistics completed
- Post distribution communications ongoing: radio-based messages focusing on hang up and use messages
- Debriefing meeting with CSOs
- Face to face interviews with partners for the process evaluation exercise: DPs/wards, LGAs teams, State, SST and CSOs.
- Consultant shared the following resources: Updated Microplanning toolkit
- Consultant departed from Gombe to Abuja

**Pakistan:**

**Update on December 12th AMP conference call:**

- 2019 campaign timelines are being discussed
- Thinking of conducting distribution in 4th week of June 2019.
- Endorsement of HHR data & Positioning of LLINs at DPs in 2nd and 3rd week of June.
- HHR registration data consolidation, validation and rapid assessment in May 2019.
- HHR in April 2019
- Trainings in March 2019
- Microplanning at the district level in Feb/March 2019
- Macroplanning & finalization of implementation arrangements for 2019 campaign in January 2019.

**Senegal / The Gambia:**

Population at risk of malaria in Senegal :
--

Required LLINs :							
LLINs imported into the country three years prior to update :

ANC							
EPI							
<b>Totals</b>							

**Update on December 12th AMP conference call:**

- AMP TA mission complete
- Since 2000, the NMCP has developed different strategies and initiatives to improve the availability of mosquito nets in households and to promote its use.
- The first national universal coverage experience was implemented in 2010, and since then, the strategy has focused on sleeping spaces "a bed and a mosquito net".
- In 2016, instead of phased and regional campaigns, only one national distribution campaign was implemented covering the entire country at the same time.
- Between 2010 and 2016, Senegal distributed more than 19.3 million nets using targeted (> 5 years) and non-targeted methods
- Distribution to take place in April
- Cross border meeting took place in Banjul and final report has been shared

**South Sudan:**

Population at risk of malaria in South Sudan:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
<b>Totals</b>							

**Ongoing issues:**

- Support mission in December is planned with focus on review of what they are doing
- It has taken them 3 years to roll out their campaign
- Need to look at options to accelerate their distribution
- Distribution planned in April and May next year

- Try to organise a COE meeting to look at cross interventions and operationalising the COE policy. To be followed up in the new year.

**Tanzania:**

Population at risk of malaria in Tanzania :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

**Ongoing issues:**

- School distribution ongoing - 10 regions completed - Mwanza and Mara are the latest.
- Ongoing - Kigoma is about 50% complete and Simiyu is about 70% complete
- To be completed this week (10/13)
- Remaining regions are Tabora and Katavi
- Nets just arrived for these two - 11 containers and 5 more to be received from the port.
- Expect to start distribution on October 22nd for these two regions. Will have completed all of SNP by end of November.
- Some PBO nets are meant for Health facilities and School net programs for one DC of Muleba, On arrival they will be received and stored in the Kegera Warehouse, then distribution will take place; the implication is the delay of SNP in the given Council and possible stock out at the health facilities that expect to receive them.
- This will be the first routine distribution of PBOs that we are aware of. It would be interesting to evaluate if trickling PBOs into communities is a useful strategy or if it works better to try to attain higher PBO net coverage levels quickly, even if that means fewer areas receive them.

**Uganda:**

Population at risk of malaria in Uganda :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

**Update on December 12th AMP conference call:**

- Request for logistics support for microplanning and macroplanning of next campaign – to be put in place in January 2019
- Submitted final documents and mission report for latest SBCC TA visit
- Country is planning to start SBCC activities early in 2019

**Zambia:**

<b>Population at risk of malaria in Zambia :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
<b>Distribution channel</b>	<b>Scale of distribution</b>	<b># LLINs needed per distribution channel</b>	<b># LLINs available per distribution channel</b>	<b>LLIN gap per distribution channel</b>	<b>Budget gap per distribution channel</b>	<b>Technical assistance requested with date per distribution channel</b>	<b>Date of most recent update</b>
<b>Mass distribution</b>							
<b>ANC</b>							
<b>EPI</b>							
<b>Totals</b>							

**Ongoing issues:**

- Discussions on funding of next programme aimed at 2020 have started between GF, PMI, AMF and NMCP
- Looking at net needs from last campaign, looking at urban area population figures, and determining net gap and funding gap.
- Significant shortfall of nets in last campaign was noted

**WEST AFRICA REGIONAL NETWORK**

WARN countries where update provided listed below. NB: This does not include all WARN countries.

**WARN country updates provided on December 12th AMP call: None**

**Guinea**

<b>Population at risk of malaria in Guinea :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
<b>Distribution channel</b>	<b>Scale of distribution</b>	<b># LLINs needed per</b>	<b># LLINs available</b>	<b>LLIN gap per</b>	<b>Budget gap per</b>	<b>Technical assistance</b>	<b>Date of most</b>

<b>Totals</b>							

**Ongoing issues:**

- Finalising GF application and working on timelines of next campaign following GF mission last week
- GF has asked the country to write up their experience on their payment system
- GF is interested in looking at other countries' payment systems to put together payment options for countries going forward – this issue will be brought forward within the AMP Country Support Working Group to gather lessons learned on behalf of the partnership

**SOUTHERN AFRICA REGIONAL NETWORK (SARN)**

SARN countries where update provided listed below. NB: This does not include all SARN countries.

**SARN country updates provided on December 12th AMP call: None**

**Mozambique:**

Population at risk of malaria in Mozambique:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC

**Namibia:**

Population at risk of malaria in Namibia :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							

<b>ANC</b>							
<b>EPI</b>							
<b>Totals</b>							

**Ongoing issues:**

- J.C. Flowers Foundation has purchased 26,649 LLINs for distribution in Northern Namibia, in their program areas. They have been hearing for over a year now that most households in the communities they work in lack nets.
- Working closely with the Ministry on this. The nets are currently held up in Walvis Bay but we expect them to arrive at their destination soon and be distributed by field teams by end of August.

**ASIA PACIFIC**

**Asia Pacific/Americas country updates provided on December 12th AMP call: None**

**Haiti:**

<b>Population at risk of malaria in Haiti :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
<b>Distribution channel</b>	<b>Scale of distribution</b>	<b># LLINs needed per distribution channel</b>	<b># LLINs available per distribution channel</b>	<b>LLIN gap per distribution channel</b>	<b>Budget gap per distribution channel</b>	<b>Technical assistance requested with date per distribution channel</b>	<b>Date of most recent update</b>
<b>Mass distribution</b>							
<b>ANC</b>							
<b>EPI</b>							
<b>Totals</b>							

**Ongoing issues:**

- Global Fund team visiting in August and meetings set up to discuss next round of distribution
- Challenges from last campaign discussed and found that security is a main concern going forward
- Not qualified as a COE country but would be interesting to look at how COE document could be supportive going forward in their planning
