

AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

AMP Conference call minutes: www.allianceformalariaprevention.com

22nd May 2019

Dial-in number: +1-213-787-0529
USA toll-free: 888-808-6929
Access Code: 3904916

If you wish to be added to or taken off this mailing list please contact: melanie.caruso@ifrc.org

Do you have a topic / issue / country specific update to share with the AMP partnership? Send a summary of the topic you would like to discuss to: jason.peat@ifrc.org or melanie.caruso@ifrc.org and we will schedule your update at the start of an upcoming AMP conference call.

Agenda – May 22nd AMP conference call

Chair : Melanie Caruso

Rapporteur : Melanie Caruso

- Introductions
- Review of minutes from last week's AMP conference call
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, May 29th, 2019 10:00 EST, 14:00 GMT / UTC, 16:00 CET

Participants:

AMF:	
AMP participants:	Melanie Caruso, Yves Cyaka
BASF:	
Buy a Net:	
CDC / PMI:	
GHSC-PSM:	Godwin Aidenagbon
CRS:	
Disease Control Technologies:	
Friends of RAM:	Drake Zimmerman
Global Health Partners:	
Global Fund:	
IFRC:	Marcy Erskine
Independent participants:	David Gittelman
Intelligent Insect Control:	
IPHA:	Jessica Rockwood
JC Flowers Foundation:	
JHU Centre for Communications:	Hunter Harig

World Vision:

General updates:

AMP mass campaign tracker

- USAID PMI has been working with AMP, Global Fund and others to develop a mass campaign tracker
- The purpose is to get consolidated visibility on which countries are planning and implementing mass campaigns in what year and understanding more what is happening at national and sub national level, and collecting data on type of nets and estimated quantities.
- There is a value in having an understanding for the purposes of procurement, planning, visibility on what is going on where (including new nets and new products)
- PMI has been tracking some of that information internally but is keen to engage with other partners and donors, as well as countries and PRs to have a better understanding globally on what is going on.
- Template and draft google doc of the tracker is now developed and will be publicly available from the AMP website as a reference tool to all partners. The link will be shared shortly once it has been set up.

AMP core group meeting 2019

- Dates have been set for the core group meeting to take place at UNF in Washington DC, 14-15th August 2019
- If partners wish for any issues/points to be discussed specifically, please contact melanie.caruso@ifrc.org

Registration for 2019 RBM CRSPC Sub-Regional Coordination Meetings is now open

- You can access the online registration form by clicking on the links below:
- [EASTERN AND SOUTHERN AFRICA \(ESA\) National Malaria Control Programme Managers and Partners Meeting -- 16-19 September in Lusaka, Zambia.](#)
- [WESTERN AND CENTRAL AFRICA \(WCA\) National Malaria Control Programme Managers and Partners Meeting -- 22-25 October in Abuja, Nigeria.](#)

AMP working group updates:

Country support working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

Current AMP TA missions :

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
CAR	Implementation	CRSPC	May-June 2019
Senegal	Logistics	CRSPC	May 2019
Congo	Logistics	CRSPC	May-June 2019
Cameroun	Implementation	PNLP	May 2019

Planned AMP TA missions 2019:

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Nigeria	Implementation	CRS	Continuous 2019
Madagascar	Post-campaign	USAID PMI	June 2019
Sierra Leone	Finance	CRSPC	June 2019
Gambia	Logistics	CRSPC	TBC
Cameroun	Implementation and Logistics	NMCP	Continuous 2019
Congo Brazzaville	Implementation and Logistics	AMP	TBC 2019
Burkina Faso	Implementation, Communications and Logistics	AMP	Continuous 2019
CAR	Implementation and Logistics	World Vision	Continuous 2019
Sudan	Implementation	CRSPC	June 2019
Senegal	Implementation and Logistics	CRSPC	Continuous 2019
South Sudan	Implementation	CRSPC	TBD 2019
Burundi	Implementation, Communications and Logistics	UNDP	Continuous 2019
Ethiopia	TBD	TBD	TBD
Yemen	SBCC	CRSPC	TBD
Mali	Implementation and Logistics	TBD	TBD
Chad	Implementation, Communications and Logistics	CRSPC UNDP	Continuous 2019
Djibouti	SBCC	CRSPC	April 2019

Zambia	TBD	TBD	TBD
--------	-----	-----	-----

Completed AMP TA support (distance and in-country) in 2019:

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Benin	Implementation	CRSPC	April 2019
Burkina Faso	Logistics SBCC/Next Gen nets SBCC/Next Gen nets SBCC/Next Gen nets	CRSPC CRSPC PSI PSI	January-February 2019 February 2019 February 2019 February 2019
Burundi	Implementation Logistics SBCC	CRSPC CRSPC CRSPC	March 2019 March 2019 May 2019
Cameroun	Implementation Logistics	PNLP PNLP	January-February 2019 February-March 2019
CAR	Logistics Logistics	World Vision World Vision	January 2019 April-May 2019
Chad	Implementation Logistics Communications	CRSPC CRSPC CRSPC	April 2019 April 2019 April 2019
Guinea	Implementation	CRSPC	February-March 2019
Madagascar	Implementation Logistics	USAID PMI USAID PMI	March 2019
Malawi	Post-campaign lessons learned	USAID PMI	January-February 2019
Mali	Logistics	CRSPC	March-April 2019
Mozambique	Implementation Logistics SBCC	CRSPC	February 2019
Nigeria	Implementation Implementation	CRS CRS	January 2019 March-April 2019
Pakistan	Implementation Logistics	CRSPC	January 2019 January 2019
Senegal	Logistics Implementation	CRSPC CRSPC	January-February 2019 March 2019
Sierra Leone	Implementation Logistics SBCC	CRSPC	March-April 2019
Sudan	SBCC	CRSPC	March 2019

Uganda	Logistics	CRSPC	January 2019
Total # of countries supported by AMP in 2019 (in-country):		17	

Emerging issues working group:

Co-chairs: Joe Lewinski – PSI (jlewinski@psi.org) and Jessica Rockwood – IPHA (jrockwood@iphadvisors.com)

- Refining container net storage and delivery recommendations. Next meeting will be held in June.

Monitoring, Operational Research, and Evaluation (MORE) working group:

Co-chairs: (Anna Bowen - CDC/PMI aqb0@cdc.gov; Godwin Aidenagbon – Chemonics gaidenagbon@ghsc-psm.org)

- No update

Net mapping project working group:

Chair: John Milliner – Milliner Global Associates jemilliner@gmail.com

- Template available from software developer will be out soon to be shared with the AMP core group for review

Toolkit and Training working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

- Working on training update – aimed to be finalised in next few weeks
- Macroplanning development is ongoing
- New nets group: sent recommendation guidelines around new nets to the editor for finalisation

Resource Mobilization working group:

Jason Peat – IFRC jason.peat@ifrc.org, Drake Zimmerman – Rotarians Action Group on Malaria drakezim@gmail.com and Jessica Rockwood – IPHA jrockwood@iphadvisors.com

- One pager requesting support for the AMP Deputy Position as well as the full 2019 AMP proposal for those partners who are interested have been shared
- If you have any questions on the Deputy Position and possibilities for support please contact one of AMP’s Resource Mobilization Working Group members:
- Jessica Rockwood: jrockwood@iphadvisors.com
- Drake Zimmerman: drakezim@gmail.com
- David Gittelman: david@dmgglobalhealth.com
- Jason Peat: jason.peat@ifrc.org
- 25% funded by Rotarian Malaria Partners and matched by Gates is already secured

AMP ‘ACTIVE COUNTRIES’

Countries where AMP is currently providing technical assistance via in-country missions or distance support.

AMP ‘Active Countries’ updates provided on May 22nd AMP call: Burkina Faso, Cameroun, CAR, Chad, Congo, Gambia, Madagascar, Mozambique, Nigeria, Pakistan, Senegal, Sierra Leone, South Sudan, Sudan, Togo

Angola:

Population at risk of malaria in Angola :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- Report from the last phase of the campaign in Angola available

Benin:

Population at risk of malaria in Benin							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- Working through procurement of Global Fund nets: looks like the country might be purchasing containers for storage as its cheaper. Is there a role that PMI can play to help walk the country through this issue as there is some risk with this approach? PMI to organise a call with PMI Benin team to see how they can support
- Discussion taking place on what is going to happen around the electronic management system. Time-lapse for procurement of devices is uncertain and need to align partners on what we are proposing to Benin.
- Macro quantification has been completed
- 8 609 873 nets being ordered and broken down by donor :

Global Fund (LLIN)	3 815 959
--------------------	-----------

Global Fund (PBO)	1 501 641
PMI (LLIN)	2 792 273
BN (LLIN)	500 000

Burkina Faso:

Population at risk of malaria in Burkina Faso							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI

Update on May 22nd AMP conference call:

- HH registration went well in general. Teams were deployed everywhere.
- Good involvement of national authorities' regions and provinces
- Volunteers are welcomed at HHs
- Communication and message dissemination going well
- Data transmitted on regular basis for reaction by coordination teams
- Number of HHs per day in plans not respected
- Fear of running out of coupons, but in the end, they didn't usually run out
- Analysis and treatment of data underway at central level – some delay in validating data from the regions
- Meeting this week to present final data and do proposals on how they will adjust (gap: 2.6 mil net) – initially caps were going to be applied, but complications with distribution of IG2 nets and standard nets – country wants same strategy adopted nationwide
- Distribution delayed to 31st June

Burundi:

Population at risk of malaria in Burundi :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution	Date of most recent update

						channel	
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- Resubmitted budget to GF for review
- Some of justifications are hard to understand. Need to do narrative before amp does the review
-
- SBCC support from AMP is complete – completes the macro planning support phase from AMP.
- Still to resubmit next version of plans with removal of smartphones for data collection – not possible with budget available
- Submitted budget for overall grant. Trying to find savings in the budget in which case they might put smartphones back in.
- Might be interesting to get them to pilot, but the country wants the same system for the whole country.

Cameroun:

Population at risk of malaria in Cameroun :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC

Update on May 22nd AMP conference call:

- AMP mission ongoing – sitrep attached to the minutes of this week’s call
- Cameroon is planning to implement its third campaign in 2019. It is planned to distribute 14,697,104 LLINs with standard PBO and LLINs to be distributed. 10 931 571 Mosquito nets will be financed by the GF and 3 765 533 LLINs will be financed by the Cameroonian government.
- After a halt of the campaign due to the selection of the transporters, the work was relaunched by the negotiations with WFP. WFP has been able to interact with the PNLP and beyond it has been able to develop a transport plan, a budget and a timetable.
- Phase II-Adamaoua Region and Northern Region:
- Trainings of town criers, HH registration teams and proximity supervisors on the implementation of the household registration were carried out
- Counting of households and distribution of outstanding coupons
- Collection and capturing of daily data through the DHIS2
- Sharing data by area, district, and region to all supervisors at each level by WhatsApp daily.
- Communication activities ongoing through community radios and through national channels

- Supervision of training and enumeration of households by supervisory teams
- Agreement for a start of discussion with WFP for the transport of LLINs of the 2nd phase
- Payment of the actors for the training activities after submission of training reports and supporting documents
- Phase I: Littoral (1st phase), South, East and West
- Meeting between WFP and regional teams
- Meeting between WFP and the various selected carriers
- Beginning of transport of LLINs to the region.
- Challenges include that the rainy season is during the household enumeration period; Many household members do not have identification
- Next steps Phase I:
 - o Transport of LLINs from Douala port to regional stocks.
 - o Preparation of trainings of household registration teams.
- Next steps Phase II:
 - o Counting of households and distribution of coupons.
 - o Collection, analysis of household registration data.
 - o Daily data entry within DHIS2.
 - o Daily reporting of household enumeration activity.
 - o Discussion with WFP on second phase LLIN transport.

Central African Republic (CAR):

Population at risk of malaria in CAR :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Update on May 22nd AMP conference call:

- AMP mission ongoing – weekly sitrep attached to the minutes of this week’s call
- TA for 2019 targeting regions 1, 2 and 3 in 2 phases
- With support from AMP consultant, developed macro plan with the budget, and chronogram of all activities for 2019 finalised
- Planned that camping covers 39 sub prefectures, but based on last 2-year campaigns, realised that it will be hard to cover all districts. Idea is now to cover only 22 districts out of 39 and see if we can cover the rest next year
- Finalization of the campaign's logistics action plan in health regions 1, 2 and 3, including LLIN positioning, transport, warehousing and timing plans for key logistics milestones is ongoing
- Development and adoption of the risk analysis plan and mitigation measures
- Participation in the Skype call organized by WV with WFP on the challenges of the campaign and the strategy to adopt to cover health regions 1, 2 and 3.

- Development of ToRs and budget for the team training workshop (at the central, regional and district levels) to facilitate micro-planning workshops for sub-prefectures on the microplanning canvas
- Attended the WV / SLP team meeting with the Chief of Staff of the Ministry of Health to discuss the strategy for covering health regions 1, 2 and 3 and the organization of micro-planning workshops
- Participation in the working session organized by the WV / SLP team for the revision and validation of the 2019 campaign chronogram and the risk analysis and mitigation plan
- Participation in the meeting organized by WV for the review and finalization of the Partner Evaluation Questionnaire and Terms of Reference (ToR) of NGO recruitment for the implementation of the 2019 campaign in RS 1, 2 & 3.
- Starting the review of the microplanning template.

Chad:

Population at risk of malaria in Chad :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
Continuous distribution							
ANC							
EPI							
Totals							

Update on May 22nd AMP conference call:

- Meeting taking place today to validate micro planning docs
- Government has already transferred CFA 1,500,000,000 to support UNDP for the purchase of LLINs for the regions of N'Djamena and Barh El Gazal. The balance will be paid before December to supplement the purchase costs of LLINs and the operating costs.
- As a result, it can be ensured that the mass campaign will be taking place in 13 regions instead of the 11 included in the plan.
- First distribution planned for February - next AMP mission towards end of this year

Congo Brazzaville:

Population at risk of malaria in Congo Brazzaville:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date	Date of most recent update

			channel			per distribution channel	
Mass distribution							
ANC							
EPI							
Totals							

Update on May 22nd AMP conference call:

- Support from AMP started this week focused on training for log, finalization of macro transport plans and training of trainers for HH reg and LLIN distribution
- 6 weeks out on their timeline – was supposed to be June / July distribution but should be pushed back.

Côte d'Ivoire:

Population at risk of malaria in Côte d'Ivoire :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- AMP has been contacted by CIV who will be looking for support this year (from GF)
- Timeline for campaign: Global Fund has missions there this week. Need to look at support needed for macroplanning
- Traditionally campaigns have run smoothly with no external support

DRC:

Population at risk of malaria in DRC :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per	Date of most recent update

						distribution channel	
Mass distribution							
ANC							
EPI

Ongoing issues:

- Monitoring the effectiveness of new nets: ANC option being explored in Sud Ubangi DRC
- AMF is providing 900'000 Permanet 3s and 900'000 Permanet 2s
- Mission in country from Liverpool School and PMI to assess the feasibility of the study went well
- Looking like this will go ahead - AMF will update the group going forward

Ethiopia:

Population at risk of malaria in Ethiopia:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- Exchange with AMP on challenges with repurposing and waste management
- Issues raised during the trainings AMP conducted last year
- Iron out before core group meeting what needs to be brought to attention of WHO

Gambia/Senegal:

Population at risk of malaria in Gambia:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution	Date of most recent update

Continuous distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- Phase1 of the LLIN distribution campaign preliminary results have been received
- 93 % of HHs have been reached and 94 % of LLINs have been used.
- Out of 2 878 469 LLINs , 2 875 847 have been positioned at distribution sites, and 2 706 415 have been distributed to HHs with 169 432 LLINs remaining
- Date to be confirmed after regional reconciliation of data.
- MCDI is partnered with RTI in Guinea – Conakry where the USAID -funded StopPalu+ project is carrying out a mass bed net distribution campaign in the PMI zones of the country. Household enumeration has just been completed; the distribution will be ongoing over the next few months. For more information, you can contact the COP, Dr. Aissata Fofana (afofana@rti.org).

Liberia:

Population at risk of malaria in Liberia :							
Required LLINs :							
LLINs imported into the country three years prior to update :

Update on May 22nd AMP conference call:

- Ongoing campaigns in Delta, Cross River State and Yobe
- Completed micro logistics and transportation of nets in Cross River State. HH registration is taking place as of today. Challenges include poor house marking and filling in of net cards. Doing multiple supervision clusters to manage HH registration process.
- Yobe state has high security issue around kidnapping, and CRS has high security issue around communal clashes
- Distribution to commence early June

Pakistan:

Population at risk of malaria in Pakistan:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Update on May 22nd AMP conference call:

- Trying to move quickly as really behind
- Implementing partner (Pakistani Red Crescent Society) has been agreed on - need to start to apply for security clearance for areas where they are distributing n this year. Could take couple of months.
- Microplanning needs to take place soon.

- Plan to roll out Red Rose for payments and data collection – however there are insecure areas where you can't use mobile technology - will need to adapt strategy in these areas.

Senegal:

Population at risk of malaria in Senegal :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI

Update on May 22nd AMP conference call:

- AMP mission ongoing – sitrep attached to the minutes of this week's call
- The approach chosen for Senegal's 2019 campaign is to conduct a national distribution campaign covering all regions of the country.
- This campaign is organized synchronously with The Gambia as part of the implementation of the Senegalese initiative for cross-border fight against malaria supported by the GF.
- This initiative, the first experience of its kind, responds to the dynamics of elimination of malaria at the sub-regional scale.
- Validation of household census data for the first-phase and cross-border regions in the Gambia was done last week.
- This validation has meant a readjustment of the LLIN stockpiles and updated LLIN district transport plans at the health posts on the one hand and from the health posts to the distribution sites on the other hand.
- Districts with additional LLIN requirements received their nets
- Some were refueled from the central level (220,450 LLINs)
- There have been pre-positioned nets that were redeployed (13300 LLINs)
- A quantity has been taken from the leftover nets of the mini UC campaign (12 000 LLIN)
- And a loan has been made from routine (44,850 LLINs)
- 97% of health posts to date have pre-positioned their LLINs in their distribution sites
- The 3% represent health posts for which we have no information.
- The distribution will actually start on May 22 as agreed. Sokone District launched at the Betenty Island Health Post in the presence of the US Ambassador.
- Challenges:
- Distribution scheduled for May 22, 2019; the big challenge so far is communication. Border crossings have not yet received the communication tools that have arrived in the regions with the arrival of central supervisors.
- Cross-border posts in The Gambia did not participate in border post meetings with Senegalese posts; we have been able to catch up with the posts we have visited but are worried about the organization of the other posts which seems to have no information from their district.

Sierra Leone:

Population at risk of malaria in Sierra Leone :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Update on May 22nd AMP conference call:

- PSI is working with GF team in Juba this week
- Issues at HH registration level in last campaign beginning of 2018 and 2019 that they are trying to rectify. Updating the campaign plan of action with the AMP COE document and meeting with MoH to

discuss the timeline for activities and delays (getting nets in country and admin delays and look at what additional support the country might need)

Sudan:

Update on May 22nd AMP conference call:

- AMP mission postponed for security reasons
- Get some distance support on the documents review sorted out for the country in the meantime
- Support from a distance on 3 aspects of campaign
 1. SBCC done by AMP for high access and poor use issue
 2. Looking at overall quality of their campaign
 3. Looking at supply chain from port of entry to beneficiary to see how tight it is
 4. Support to submit macro planning documents to GF
- Prospective country evaluation (PCE) to be carried out by GF: PCEs are targeting 8 countries and Sudan is one of them. The objective is to look at how GF investments have worked in doing what they are supposed to do.

Tanzania:

Population at risk of malaria in Tanzania :							
Required LLINs :							
LLINs imported into the country three years prior to update :

Ongoing issues:

- J.C. Flowers Foundation has purchased 26,649 LLINs for distribution in Northern Namibia, in their program areas. They have been hearing for over a year now that most households in the communities they work in lack nets.
- Working closely with the Ministry on this. The nets are currently held up in Walvis Bay but we expect them to arrive at their destination soon and be distributed by field teams by end of August.

ASIA PACIFIC / AMERICAS

Asia Pacific/Americas country updates provided on May 22nd AMP call: None

Haiti:

Population at risk of malaria in Haiti :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- Global Fund team visiting in August and meetings set up to discuss next round of distribution

- Challenges from last campaign discussed and found that security is a main concern going forward
- Not qualified as a COE country but would be interesting to look at how COE document could be supportive going forward in their planning

Yemen:
