Ongoing issues:

- For SBCC activities went well. Found that the districts were reporting on a weekly basis. Not sufficiently detailed. Trying to figure out where the weakness is. Looking at what is happening in May of next year.
- Previously, they were not going to have a lot of products for the SBCC campaigns. Looking at ensuring there is limited/ no rumors for multi-product distribution on one net being better than any other.
- Has number of HHR challenges, going to move to no capping.
- Focus of the mission has three tasks. Trying to ensure that all HHR are registered. New ITN reconciliation process, and 3) micro-transportation tools that they have used previously.
- Need to figure out how they are going to distribute the right type of net during routine distribution following campaign.
- Challenges to Nampula distribution- really going to struggle to fill gaps to the right net
- Country has recently conducted a planning meeting with Nampula and Cabo Delgado provinces.
- Tool from the NNP group shared with the team: country is reviewing this from a country perspective
- Issues to be addressed before next year's campaign
- Earliest microplanning will take place is December after the elections

AMF commitment

- Total 3.5m nets
- Maritime – 1.8m nets
- Plateaux – 1.1m nets
- Centrale – 0.5m nets
- One district Kara region – 0.1m nets

GF procuring standard deltamethrin nets for their areas (Lomé, Savanes, Kara)

PNLP Net Preference

Very strong preference for polyester. Strong preference for deltamethrin. Want to deploy some PBOs, need to decide. Limited capacity.

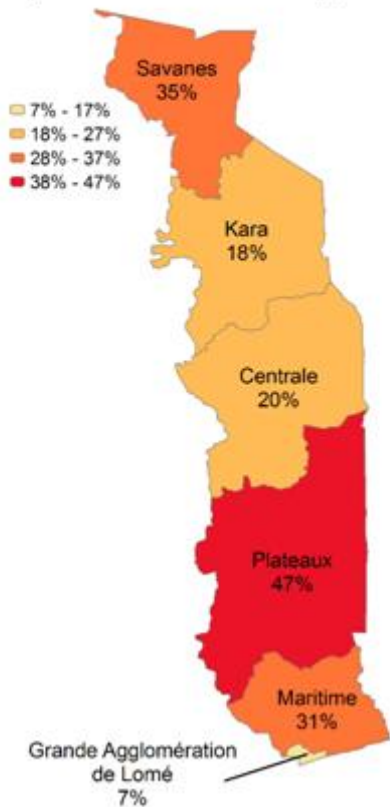

Timing

Current aim is for campaign distribution June, so nets need to arrive May, shipping March/April, production Dec/Jan/Feb.

Choice of net (partic wh PBO or not) and capacity constraints at manufacturers are key to whether these times can be hit. So timing will firm up as soon as nets ordered.
