

AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

AMP Conference call minutes: www.allianceformalariaprevention.com

November 13th, 2019

If you wish to be added to or taken off this mailing list please contact: jason.peat@ifrc.org

Do you have a topic / issue / country specific update to share with the AMP partnership? Send a summary of the topic you would like to discuss to: jason.peat@ifrc.org and we will schedule your update at the start of an upcoming AMP conference call.

Agenda – November 6th AMP conference call

Chair & Rapporteur : Jason Peat

- Introductions
- Review of minutes from last week's AMP conference call
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, November 13th, 2019 10:00 EDT, 14:00 GMT / UTC, 15:00 CET

Total number of participants number: 18 (based on Zoom call log)

AMP participants:	Yves Cyaka, Kamel Maina
BASF:

General updates:

AMP Partners Meeting 2020

- The AMP 2020 Partners meeting: “Using Data to Innovate and Align with Country Priorities” will take place on 30- 31st January 2020 at the IFRC HQ in Geneva.
- Registration information has been circulated with these minutes
- The VCWG Annual Meeting will take place on Monday 3 to Wednesday 5 February 2020 in Movenpick followed by the MSWG (Thursday 6-Friday 7 September) at the Global Health Campus.

AMP working group updates:

Country support working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

Current AMP TA missions :

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Cameroun	Implementation Logistics	PNLP PNLP	September 2019 September 2019
Nigeria	Implementation	CRS	September-October 2019
Congo Brazzaville	Logistics	CRSPC	September 2019

Planned AMP TA missions 2019:

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Haiti	Implementation, Communications and Logistics	CRSPC	November 2019
Nigeria	Implementation (Niger State)	CRS	November 2019
Cameroun	Implementation and Logistics	NMCP	Continuous 2019
Burkina Faso	Implementation, Communications and Logistics	AMP	Continuous 2019
CAR	Implementation and Logistics	World Vision	Continuous 2019

Update on November 6th AMP conference call:

Activités de semaine

- Revue et finalisation des outils de l'évaluation des processus de la campagne (intégration des amendements de l'AMP) :
- Entretien avec l'équipe du Mali et préparation de la mission à l'intérieur du pays avec l'équipe du PNLN
- Voyage dans les régions de la Boucle du Mouhoun et du Sud-Ouest pour les entrevues avec les différentes parties prenantes des niveaux décentralisés (niveau région et niveau district), l'observation du processus de la distribution (sites de distribution et ménages), la collecte des données pour l'évaluation des processus de la campagne
- Toilettage, compilation et synthèse des données collectées sur le terrain.

Planification

- Entrevues et collecte des données avec les acteurs clés de la campagne du niveau central
- Débriefing de la mission de terrain avec l'équipe du PNLN Mali

- Rencontre synthèse de la supervision avec les équipes de superviseurs du niveau central
- Compilation, synthèse et priorisations des observations
- Préparation de la réunion de restitution
- Restitution des constats initiaux et des recommandations préliminaires au PNLP, partenaires impliqués dans la campagne et autres parties prenantes.

Burundi:

Population at risk of malaria in Burundi :

Ongoing issues:

Situation :

- Les **microplans** sont compilés et les synthèses disponibles et partagées
 - Synthèse des microplans transport pour PAM ;
 - Synthèse des microplans districts pour les ABC,
 - Synthèse des quantifications des outils-districts,
 - Synthèse générale des microplans
- La **synthèse du budget** des activités est finalisée et le budget a été revu en réunion de travail 03 jours durant entre PNLP, PNUD et CARITAS ;
- La **formation des superviseurs nationaux** a été réalisée du 02 au 04 octobre et ceux-ci- ont facilité, la formation des superviseurs provinciaux et de district du 08 au 11 octobre ;
- Une réunion a été tenue entre PNLP, ISTEEBU et APP, une esquisse de chronogramme a été élaborée pour la réalisation **du monitoring indépendant** par ISTEEBU en parfait alignement avec le démarrage du dénombrement, un projet de protocole et de budget devront être soumis au PNUD par ISTEEBU et un contrat signé au plus tard le 15 octobre ;
- La **formation des agents de saisie** : initialement prévue lors de la formation des dénombreurs et superviseurs de proximité, qui avait été reprogrammée pour une session spéciale à J2 du dénombrement sur les données réelles (les SIS des CDS étant regroupés chez les SIS du District pour une saisie en temps réel comme méthode de formation) sera finalement organisée avec la formation des dénombreurs et superviseurs de proximité pour éviter un dépassement budgétaire ;
- Un **nouveau chronogramme** a été partagé entre parties prenantes pour une seule phase avec dénombrement prévu du 08 au 19 novembre et distribution du 09 au 13 décembre 2019 ; le monitoring est prévu du 11 au 15 novembre 2019 ; (à valider par le comité de pilotage)
- Le **plan logistique** est stabilisé : les outils logistiques sont révisés ;
- Une situation est disponible sur l'état de la **production des outils de mise en œuvre** avec une infime partie produite le reste étant planifié pour une livraison entre le 15 et le 30 octobre (le dénombrement est prévu à partir du 08 novembre). Il y a cependant **toujours incertitudes sur la production et**

livraison des coupons, supports de communication et outils de gestion de la campagne au niveau des provinces ;

- Une **révision de la quantité des outils** à produire a été faite sur base des microplans. Les imprimeurs n'ayant pas encore commencé l'impression des documents, la commande pour tirage et quelques modèles ont pu être modifiés. Cette nouvelle information devra immédiatement parvenir à l'imprimeur ;
- Un jour supplémentaire pour une **formation sur la gestion logistique** des 1,830 responsables de sites distribution des MILDA a été accepté par le FM ;
- La **formation des formateurs nationaux sur la gestion logistique** a été réalisée le lundi 14 octobre, orientée aux sujets concernant la traçabilité entre la réception au site de distribution, et la logistique inverse de retour des surplus vers les districts sanitaires. Un avis de non objection a été rendu par le FM pour cette activité qui n'était pas dans le budget déjà autorisé ;
- Les **paquets d'outils et de supports pour les formations** des acteurs (formateurs communaux et agents dénombreurs, superviseurs de proximité et agents de saisie) sont finalisés ;
- Les **exercices de la formation logistique** du 14 octobre, modifiés selon les commentaires et suggestions des participants sont intégrés au Plan d'action logistique finalisé qui sera circulé aux partenaires et formateurs ;
- **L'évaluation des risques** a été partagée avec les partenaires en session du comité de pilotage (COPIL) le 15 octobre en présence du Ministre de la Santé lui-même,
- Le **budget est révisé** et consolidé avec les microplans tout en restant dans l'enveloppe initiale ;
- Un draft de **plan de mitigation** des risques est disponible (risques liés au retard de livraison des MILDA et outils, au système de paiement, à l'insuffisance des quantités de MILDA après dénombrement, à la confusion entre MILDA de différents types, à la confusion entre les stocks de routine et reliquats de la campagne, aux dépenses inéligibles...) ;
- Le **plan d'action est mis à jour**,
- Le **système de paiement** a été abordé en session du COPIL avec le Ministre qui a suggéré que le système utilisé pour la campagne méningite et validé par le LFA serait reconduit. Les blocages ont été identifiés et le Ministre a donné des instructions fermes pour la mise en place du système.

Cameroun:

Population at risk of malaria in Cameroun :							
Required LLINs :

Ongoing issues :

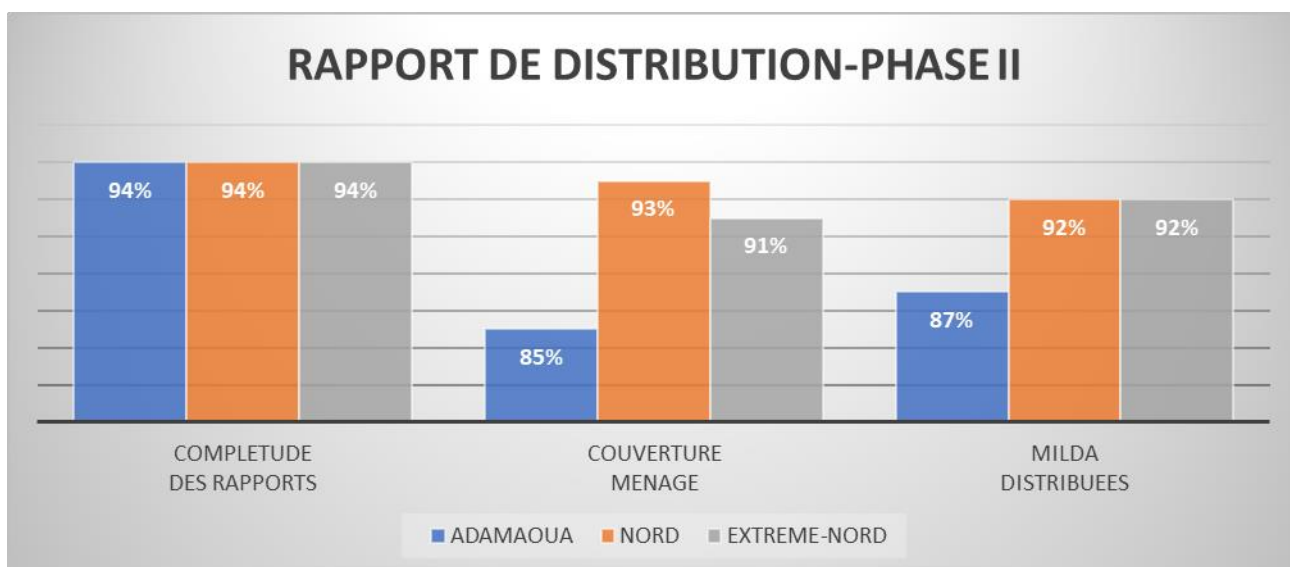

Résultat de la distribution dans l'Extrême-Nord

- La distribution des MILDA aux ménages dénombrés dans le cadre de la Campagne de distribution des MILDA avait été prévu, dans la région de l'Extrême-Nord, durant la période allant du 19-23 septembre 2019. Après une distribution des MILDA de 5 jours, il a été recommandé de prolonger la période de distribution de 2 jours pour un ratissage.
- Il est à souligner que cette première phase n'a concerné que 14 districts sur les 30 de la région.
- Les résultats provisoires à J5 se présentent de la manière suivante :

- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 91% de couverture des ménages attendus.
 - 92% des MILDA distribuées.
- Durant les deux jours de ratissage, il a été recommandé de se rassurer que les équipes de distribution informent les ménages restants par téléphone et si possible avec l'appui du crieur.

Résultat de la distribution dans le Nord et Adamaoua

- Etant donné que certaines aires de santé des régions d'Adamaoua et du Nord ont démarré leur distribution en retard due à un retard d'acheminement des MILDA, dès le démarrage de ces aires de santé les résultats se présentent de la manière suivante en ce jour :
- La région de l'Adamaoua :
- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 85% de couverture des ménages attendus.
 - 87% des MILDA distribuées.
- La région du Nord :
- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 93% de couverture des ménages attendus.
 - 92% des MILDA distribuées.

Autres activités

- Elaboration encours d'un mini-plan de mise en œuvre de la campagne pour la région du Nord-Ouest
- Elaboration encours de la quantification et budget du mini-plan de mise en œuvre de la campagne pour la région du Nord-Ouest

Difficultés rencontrées :

- Gap des MILDA par rapport aux besoins du dénombrement des ménages.
- Rupture de stock au niveau de plusieurs sites de distribution.
- Problèmes de remplissage des outils au niveau des sites de distribution.
- Faiblesse de communication au niveau du site de distribution.
- Problème de supervision avec absence régulière des superviseurs surtout des aires de santé
- Non-paiement des crieurs pour la phase de dénombrement des ménages.
- Le retard de paiement de la CPS (2 séries) démoralise les superviseurs.

Central African Republic (CAR):

Update on November 16th AMP conference call:

Key activities during the reporting period:

- Household mobilisation data synching
- HHM device retrieval
- HHM data report
- Mass media communication-Radio jingles and messages on LLIN distribution and net use
- Training of MTs on LLIN Distribution and collection of distribution training materials
- Training of distribution point supervisors on LLIN logistics
- Orientation of DP security & Crowd controllers/waste manger
- Orientation of DP conveyors
- Orientation of Health Educators (Distribution)
- Data review meeting (Every evening)

Key achievements:

Done with household mobilisation after 10 days:

- # of HH mobilised: 1,569,821
- # of net cards distributed: 3,590,605
- # of beneficiaries: 6,732,044

Update on November 16th AMP conference call:

Meetings:

The authorities of the DOMC had to convene a meeting summoning the IFRC/PRCS country team to update the TWG members on the inability to secure NOC for further accessibility of other complex operating environments in the Tribal districts that could not be accessed as reported from the previous week.

The concern around this was the promised made earlier that the NOC was almost at the stage of being granted. The meeting was intimated by the IFRC/PRCS team that the final evaluation of the process was reached and the authorities in-charge of granting the NOC were deemed to have been satisfied

with the condition precedent upon which the request will be granted. However, the following key decisions were arrived at;

IFRC/PRCS will continue to follow up on the process until the request is finally granted

IFRC/PRCS should explore possible option of entering a consensus with the health authorities of FATA and KP to implement the process through the existing IVM structures through a collaborative effort that will de-emphasize the campaign as being perceived as a PRCS program.

IFRC/PRCS has requested a no cost extension to enable them follow through the NOC request and further build on the lessons learned in the just concluded distribution in the initial 14 districts to improve the process in the phase II

Activities accomplished:

The distribution process was implemented in the 14 districts despite some challenges which included the following;

There was Nationwide internet/network distributions due to a political protest against the authorities by other political coalition. This has affected the use of RedRose application in many areas.

Some districts in other remote areas were not able to take off on the proposed distribution dates either due to some logistics related issues or volunteers not being timely present at the DPs. Issues around changing of DP locations at the last minutes were witnessed, however the monitoring team have advised against these highlighting the potential consequences

Redemption rates in some districts were low and the monitoring team had to work with key implementing partners to improve further on these. Based on this the campaign had to extend further for additional 2 days as a mop up strategy.

The TA mission also worked with the IFRC/PRCS/DOMC/IHN to finalize the country's Logistics Report and Reconciliation Tool (LRRT)

A framework was also developed for LLLIN accountability and reverse logistics in a transparent manner that will guard against potential risk of LLIN loss.

Senegal:

Population at risk of malaria in Senegal :							
Required LLINs :							
LLINs imported into the country three years prior to update :

Ongoing issues:

- VectorLink team will be in Senegal in a few weeks for ITN assessment for continuous distribution following same approach as for Burkina Faso and Niger last year. Travelling to Senegal in September.
- Beginning planning with PMI and NMCP teams - strong collaboration with MoH
- After doing 3 of these assessments VectorLink will look at sharing lessons learned with AMP.

Sierra Leone:

Population at risk of malaria in Sierra Leone :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Ongoing issues:

- Finalizing draft finance package and roll out of finance training in advance of micro planning in Jan. 2020
- Country is finalizing the macro planning package and end process monitoring
- Micro planning will take place in early 2020
- Country is working with an AMP consultant on rapid monitoring of HH registration with EPI LQAS cluster pass / fail and end process monitoring

South Sudan:

Population at risk of malaria in South Sudan:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI

Ongoing issues:

- The GF CT are in country to resolve ongoing Tana Netting issue and get dates for mass campaign – discussions are going well and it is expected that the MoH will be able to give the go ahead to deliver those nets (2.2 million LLINs)
- 2 million nets are still in Pakistan and total of 4 million ITNs to be distributed likely mid October
- Hopefully there will be a TA mission request to AMP for final methodology for distribution

Sudan:

Population at risk of malaria in Sudan:

Update on November 6th AMP conference call:

The 06 states targeted for the campaign have updated the roadmap for household registration and distributions activities based on their own local context.

Below is the updated roadmap by state

State Name	LLINs HH Registration		LLINs Distribution	
	Start Date	End Date	Start Date	End Date
Blue Nile	31-11-2019	05-11-2019	06-11-2019	12-11-2019
White Nile	04-11-2019	10-11-2019	11-11-2019	17-11-2019
Gadarif	03-11-2019	09-11-2019	11-11-2019	17-11-2019
Kassala	07-11-2019	13-11-2019	14-11-2019	20-11-2019
West Kordofan	05-11-2019	11-11-2019	12-11-2019	18-11-2019
North Kordofan	04-11-2019	10-11-2019	11-11-2019	17-11-2019

Key activities during the reporting period in the 6 states targeted for the campaign:

- National monitors and state supervisors travel to localities
- Orientation and advocacy meetings with local government and traditional leaders

- Training of local selected volunteers on health promotion, household registration and distribution of LLINs
- House to house visits by health promoters in preparation for household registration and distribution
- Mobile theater in capital cities of states, high populated villages and markets
- Local radio stations and TV airing SBCC messages
- House hold registration
- Transportation of LLINs from state warehouse to locality warehouse (Blue Nile state)
- Transportation of LLINs from locality warehouse to villages (Blue Nile state)
- Identification and selection of distribution points

Challenges

- LLINs are packed in bales 100 nets each which may require opening bales to adjust the quantities going to each locality
- Campaign activities may be affected by the outbreak of cholera in Blue Nile
- In some states, road conditions due to rains may affect the transportation of LLINs from state level to localities and from localities to villages
- Shortage of LLINs due to the criteria used to determine household and number of LLNS per household (There are many registration forms whereby households are entitled to 5 and 7 LLINs)

Tanzania:

Population at risk of malaria in Tanzania :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Ongoing issues:

- School net program is starting distribution of 1.2 million PBOs going through primary schools in 4 regions.
- Delays in customs clearance are being experienced
- Working with PMI and PSM to work through that process.
- Zanzibar 288'000 PBOs distribution is also starting in next few weeks –smart push through health facilities.

Togo:

Update on November 16th AMP conference call:

Meetings / working sessions:

- Initial meetings were held with NMCD personnel to determine an action plan for the mission. Challenges faced in 2017/2018 were discussed, as well as expectations for the upcoming mission.
- Meeting with AMF while in country.
- Working sessions were held with the LLIN Coordinator and the newly appointed microplanning focal point at the NMCD, to further discuss the country needs in terms of microplanning, as well as the implementation of a central level workshop.
- Working sessions was held with NMCD SBCC officer to review planned SBCC activities for the development of SBCC microplanning templates.
- Meeting was held with NMCD and GF country representative.
- During all of these meetings, it was agreed that:
 - The Training of Trainers would be converted into a workshop. The purpose of the workshop would be to introduce the AMP recommended microplanning process. In particular, this means introducing 1) the “mapping” process which has not previously been used in Uganda for mass distribution, and address the reticence at the central and district (possibly) to utilise this tool; 2)

change the process to ensure more ownership at the district level, and 3) develop/refine (with participants of the workshop) microplanning templates that will be used at the district level.

Activities accomplished:

- Development of initial campaign microplanning templates (to be further developed during the microplanning workshop)
- Development of initial SBCC microplanning template (to be further developed during microplanning workshop)
- Drafting of agenda for microplanning workshop;
- Day 1 of the three-day microplanning workshop.

Zambia:
