

AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

AMP Conference call minutes: www.allianceformalariaprevention.com

16th October 2019

If you wish to be added to or taken off this mailing list please contact: melanie.caruso@ifrc.org

Do you have a topic / issue / country specific update to share with the AMP partnership? Send a summary of the topic you would like to discuss to: jason.peat@ifrc.org or melanie.caruso@ifrc.org and we will schedule your update at the start of an upcoming AMP conference call.

Agenda – October 16th AMP conference call

Chair : Jason Peat

Rapporteur : Melanie Caruso

- Introductions
- Review of minutes from last week's AMP conference call
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, October 23rd, 2019 10:00 EST, 14:00 GMT / UTC, 16:00 CET

Total number of participants number: 17 (based on ZOOM call log)

AMP participants:	Kamel Maina
BASF:	Alex Heimsch
Buy a Net:	
CDC / PMI:	
GHSC-PSM:	Goodwin Aidenagbon
CRS:	
Friends of RAM:	
Global Fund:

Total # of countries supported by AMP in 2019 (in-country):			19

New Nets Project

- Countries of focus : Mozambique, Mali, Rwanda, Burkina Faso
- NNP Group has issued operational guidance on new nets – recommendations attached to the minutes of this week’s call and available on the AMP website

Emerging issues working group:

Co-chairs: Joe Lewinski – joseph.p.lewinski@gmail.com) and Jessica Rockwood – IPHA jrockwood@iphadvisors.com)

- Finalization of the eHealth Technologies for LLIN distribution document from Vector Works
- Updating the compendium is part of EIWG activities

- Technologies Used to Support ITN Delivery document attached to the minutes of this week's call

Monitoring, Operational Research, and Evaluation (MORE) working group:

Co-chairs: (Anna Bowen - CDC/PMI aqb0@cdc.gov; Godwin Aidenagbon – Chemonics

gaidenagbon@ghsc-psm.org)

- Call was held with EIWG to discuss synergies on issues of both working groups
- Minutes will be shared with AMP core group to present proposal on moving forward with issues.
- **Issues with retooling guidance on HH registration**
- Everyone acknowledges that there are problems with household registration (most of these problems are consistent across countries, though there may be a few outliers here and there).
- People have ideas for how to improve it, but we need to pull together those ideas (e.g. if you pay more, is it better; if you collect loads of data, is it better; if you outsource it, is it better; is it higher quality using people recruited from the community or people from outside the community; etc.) in order to be able to move the discussion forward.
- If we can identify some key operations research questions that need to be addressed around potential efficiencies and improvements in quality, we can then pitch these to different partners and donors and look to collect data on what actually works and what doesn't.
- It is critical that AMP starts to get ahead of this issue
- We should identify key partners that we could pull together for a technical call on this specific issue to try to brainstorm some of the questions that need to be answered and identify a way forward.
- **Quality control (rapid monitoring)**
- Support ongoing to Sierra Leone

Net mapping project working group:

Chair: John Milliner – Milliner Global Associates jemilliner@gmail.com

- No update

Toolkit and Training working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

- No update

Resource Mobilization working group:

Jason Peat – IFRC jason.peat@ifrc.org, Drake Zimmerman – Rotarians Action Group on Malaria

drakezim@gmail.com and Jessica Rockwood – IPHA jrockwood@iphadvisors.com

- RM priorities in the next months:
- Develop AMP terms of engagement with partners wishing to engage AMP in various initiatives, projects or plans
- Define an outreach strategy for AMP, including identifying target audiences and priorities, as well as materials that may be required for specific “pitches;”
- Develop a consensus statement around AMP engagement with the private sector and a strategy for leveraging on AMP's support to high-quality product delivery;
- Identify key private sector targets, including the Business Alliance Against Malaria, as well as materials that may be required for effective engagement;
- Ensure core group approval and adoption of documents developed; and
- Implement a 6-month outreach strategy with agreed priority audiences.

AMP 'ACTIVE COUNTRIES'

Countries where AMP is currently providing technical assistance via in-country missions or distance support.

AMP 'Active Countries' updates provided on October 16th AMP call: Benin, Burkina Faso, Burundi, Chad, DRC, Liberia, Madagascar, Mozambique, Nigeria, Sierra Leone, Sudan, Togo, Uganda, Zambia

Angola:

Population at risk of malaria in Angola :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- PSI with JHU are completing a post distribution survey this month and results to be shared with AMP
- Results can be discussed on a future call with the partnership

Benin:

Population at risk of malaria in Benin							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Update on October 16th AMP conference call:

- There have been staff changes PNLN and a new head of PNLN appointed
- Nets will arrive in country in December for an April distribution
- AMP missed a TA request for Benin but is now working with the country to plan support

Ongoing issues:

- Country is working to finalize all agreements on digitization
- Country will pilot a distribution of 800,000 ITNs in one district in November
- Lessons learned will be shared from the November distribution and a full rollout will take place in April 2020

Burkina Faso:

Population at risk of malaria in Burkina Faso							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Update on October 16th AMP conference call:

- Les microplans sont compilés et les synthèses disponibles et partagées
 - Synthèse des microplans transport pour PAM ;
 - Synthèse des microplans districts pour les ABC,
 - Synthèse des quantifications des outils-districts,
 - Synthèse générale des microplans
- La synthèse du budget des activités est finalisée et le budget a été revu en réunion de travail 03 jours durant entre PNILP, PNUD et CARITAS ;
- La formation des superviseurs nationaux a été réalisée du 02 au 04 octobre et ceux-ci- ont facilité, la formation des superviseurs provinciaux et de district du 08 au 11 octobre ;
- Une réunion a été tenue entre PNILP, ISTEEBU et APP, une esquisse de chronogramme a été élaborée pour la réalisation du monitoring indépendant par ISTEEBU en parfait alignement avec le démarrage du dénombrement, un projet de protocole et de budget devront être soumis au PNUD par ISTEEBU et un contrat signé au plus tard le 15 octobre ;
- La formation des agents de saisie : initialement prévue lors de la formation des dénombreurs et superviseurs de proximité, qui avait été reprogrammée pour une session spéciale à J2 du dénombrement sur les données réelles (les SIS des CDS étant regroupés chez les SIS du District pour une saisie en temps réel comme méthode de formation) sera finalement organisé avec la formation des dénombreurs et superviseurs de proximité pour éviter un dépassement budgétaire ;
- Un nouveau chronogramme a été partagé entre parties prenantes pour une seule phase avec dénombrement prévu du 08 au 19 novembre et distribution du 09 au 13 décembre 2019 ; le monitoring est prévu du 11 au 15 novembre 2019 ; (à valider par le comité de pilotage)
- La plan logistique est stabilisé : les outils logistiques sont révisés ;
- Une situation est disponible sur l'état de la production des outils de mise en œuvre avec une infime partie produite le reste étant planifié pour une livraison entre le 15 et le 30 octobre (le dénombrement est prévu à partir du 08 novembre). Il y a cependant toujours incertitudes sur la production et livraison des coupons, supports de communication et outils de gestion de la campagne au niveau des provinces ;
- Une révision de la quantité des outils à produire a été faite sur base des microplans. Les imprimeurs n'ayant pas encore commencé l'impression des documents, la commande pour tirage et quelques modèles ont pu être modifiés. Cette nouvelle information devra immédiatement parvenir à l'imprimeur ;
- Un jour supplémentaire pour une formation sur la gestion logistique des 1,850 responsables de sites distribution des MILDA a été accepté par le FM ;
- La formation des formateurs nationaux sur la gestion logistique a été réalisée le lundi 14 octobre, orientée aux sujets concernant la traçabilité entre la réception au site de distribution, et la logistique inverse de retour des surplus vers les districts sanitaires. Un avis de non objection a été. rendu par le FM pour cette activité qui n'était pas dans le budget déjà autorisé ;

Cameroun:

Population at risk of malaria in Cameroun :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

ANC							
EPI							
Totals							

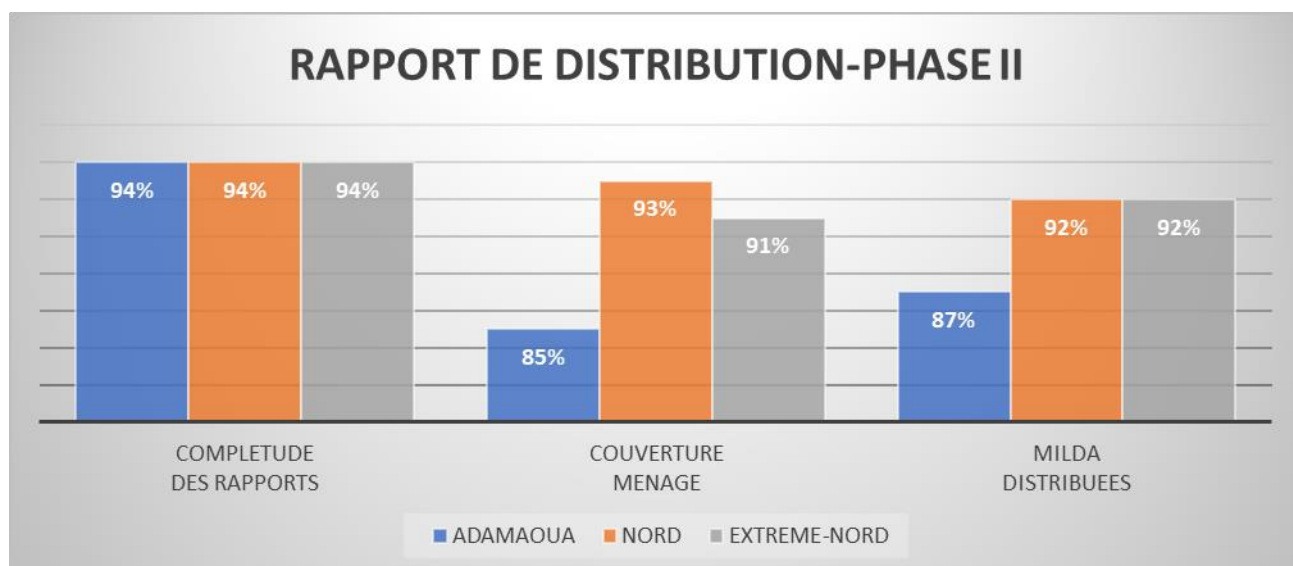

Ongoing issues :

Résultat de la distribution dans l'Extrême-Nord

- La distribution des MILDA aux ménages dénombrés dans le cadre de la Campagne de distribution des MILDA avait été prévu, dans la région de l'Extrême-Nord, durant la période allant du 19-23 septembre 2019. Après une distribution des MILDA de 5 jours, il a été recommandé de prolonger la période de distribution de 2 jours pour un ratissage.
- Il est à souligner que cette première phase n'a concerné que 14 districts sur les 30 de la région.
- Les résultats provisoires à J5 se présentent de la manière suivante :
- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 91% de couverture des ménages attendus.
 - 92% des MILDA distribuées.
- Durant les deux jours de ratissage, il a été recommandé de se rassurer que les équipes de distribution informent les ménages restants par téléphone et si possible avec l'appui du crieur.

Résultat de la distribution dans le Nord et Adamaoua

- Etant donné que certaines aires de santé des régions d'Adamaoua et du Nord ont démarré leur distribution en retard due à un retard d'acheminement des MILDA, dès le démarrage de ces aires de santé les résultats se présentent de la manière suivante en ce jour :
- La région de l'Adamaoua :
- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 85% de couverture des ménages attendus.
 - 87% des MILDA distribuées.
- La région du Nord :
- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 93% de couverture des ménages attendus.
 - 92% des MILDA distribuées.

Autres activités

- Elaboration encours d'un mini-plan de mise en œuvre de la campagne pour la région du Nord-Ouest

- Elaboration encours de la quantification et budget du mini-plan de mise en œuvre de la campagne pour la région du Nord-Ouest

Difficultés rencontrées :

- Gap des MILDA par rapport aux besoins du dénombrement des ménages.
- Rupture de stock au niveau de plusieurs sites de distribution.
- Problèmes de remplissage des outils au niveau des sites de distribution.
- Faiblesse de communication au niveau du site de distribution.
- Problème de supervision avec absence régulière des superviseurs surtout des aires de santé
- Non-paiement des crieurs pour la phase de dénombrement des ménages.
- Le retard de paiement de la CPS (2 séries) démoralise les superviseurs.

Central African Republic (CAR):

Population at risk of malaria in CAR :							
Required LLINs :

Ongoing issues:

- Suivi du transfert des MILDA des écoles vers les églises identifiées à cet effet à Brazzaville et Pointe Noire afin de libérer les salles de classe pour la rentrée scolaire
- Mise à jour du plan de positionnement des MILDA dans les districts sanitaires en fonction des données de dénombrement et détermination du gap de MILDA à livrer aux districts
- Participation au briefing des transporteurs devant assurer le transport des MILDA dans les aires de santé et sites de distribution de Brazzaville
- Participation au lancement officiel de la distribution des MILDA par le Premier Ministre de la République du Congo
- Participation à la réunion de coordination technique PNL/CRS pour faire le point sur le lancement officiel, le niveau des préparatifs de la distribution au niveau de Brazzaville (BZV) et Pointe Noire (PNR), les défis à relever (paiement des dénombreurs avant le démarrage de la distribution) et les dates probables pour le démarrage de la distribution dans ces deux départements.
- Appui à l'élaboration des directives pour la gestion logistique de la distribution à BZV et PNR
- Proposition d'un calendrier de mise en œuvre des activités logistiques restantes

Côte d'Ivoire:

Update on October 16th AMP conference call:

- Completed 5 days distribution and 2 days mop up in 44 LGAs over the state territory;
- Completed reverse logistic from 3179 DPs to LGA stores;
- Electronic materials returned;
- Completed data retrieval and syncing from devices;
- Temporary distribution results

<ul style="list-style-type: none"> LLINs RECEIVED 8,463,995 	<ul style="list-style-type: none"> LLINs DISTRIBUTE D 8,231,051
---	---

Achievements:

- High redemption of 97.94 % distributed to over 3.3 million households;
- High level of engagement by the state, the LGA, local leader and communities;
- The campaign is well setup. The structure adjusted to the context;
- The campaign is implemented within planned timeline;
- Effective collaboration of the national and state level authorities;

- The logistic coordination and implementation worked very fine according to plans including reverse logistic immediately after distribution; Relatively low number of unaccounted net and technology devices;
- Networking, advocacy at all levels;
- Technology integrated improving real time assessment, monitoring and support, tracking personnel work and overall campaign efficiency;
- No major incident or social disruptions;

Campaign challenges

- Politically motivated staff replacements during implementation disrupt the process;
- Local level HR selection do not always appreciate or follow the selection criteria;
- Recruitment and training local personnel (and students) familiar with culture, language and gender sensitivity;
- Appropriate estimation of the population and LLINs quantification;
- Microplanning improvement to ensure mapping and covering 100% of the settlements/population;
- Training enhancement including pictures/video/media technology to improve crowd organisation and control;
- Ensure the personnel and nets safety and security;
- Mapping and covering nomadic population;
- Improve mapping and routing to guide household mobilisers progression and avoid missing areas;
- Improve use/filling of inventory tools to safe guard nets at the DP store and accountability at reverse logistic;
- Improve policy and procedure with regard to torn or lost Net cards;
- Clarify policy and procedure on population without Net card at distribution point;
- How the state will cover missed populations and settlements;
- Improve distribution processes and DP space to avoid (urban) overcrowding and tension among beneficiaries;
- Ensure better and effective health message communication during the HHM and distribution;
- Improve the reverse logistic documentation and process;
- Ensure provision of one quality/one colour nets to avoid preference and rumours;
- Timely payment of over 37,000 campaign personnel (HHM and distribution);

Ongoing issues:

- VectorLink team will be in Senegal in a few weeks for ITN assessment for continuous distribution following same approach as for Burkina Faso and Niger last year. Travelling to Senegal in September.
- Beginning planning with PMI and NMCP teams - strong collaboration with MoH
- After doing 3 of these assessments VectorLink will look at sharing lessons learned with AMP.

Sierra Leone:

Population at risk of malaria in Sierra Leone :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution	Date of most recent update

Update on October 16th AMP conference call:

- Finalizing draft finance package and roll out of finance training in advance of micro planning in Jan. 2020

Ongoing issues:

- Country is finalizing the macro planning package and end process monitoring
- Micro planning will take place in early 2020
- Country is working with an AMP consultant on rapid monitoring of HH registration with EPI LQAS cluster pass / fail and end process monitoring

South Sudan:

Population at risk of malaria in South Sudan:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI

Ongoing issues:

- The GF CT are in country to resolve ongoing Tana Netting issue and get dates for mass campaign – discussions are going well and it is expected that the MoH will be able to give the go ahead to deliver those nets (2.2 million LLINs)
- 2 million nets are still in Pakistan and total of 4 million ITNs to be distributed likely mid October
- Hopefully there will be a TA mission request to AMP for final methodology for distribution

Sudan:

Population at risk of malaria in Sudan:
Required LLINs :

LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Update on October 16th AMP conference call:

- AMP TA provider in place to review the overall LLIN campaign planning and implementation strategy in Sudan to identify areas to be strengthened in line with global recommendations.

Specifics:

- Evaluation of existing LLIN mass distribution campaign approach in the country to ensure planning and implementation are in-line with global best practices and appropriate for the Sudanese context.
- Review the micro planning and the implementation of both mass & routine distribution and the possibility of improving the coverage of key risk groups (considering ANC-EPI & beyond).
- Review recording and reporting tools for LLIN tracking (received nets vs distributed vs tracking of overall national targets achievements).
- Analyse any bottlenecks of LLINs distribution and advise on how to overcome them.

Ongoing issues:

Tanzania:

Population at risk of malaria in Tanzania :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- School net program is starting distribution of 1.2 million PBOs going through primary schools in 4 regions.

- Delays in customs clearance are being experienced
- Working with PMI and PSM to work through that process.
- Zanzibar 288'000 PBOs distribution is also starting in next few weeks –smart push through health facilities.

Togo:

Population at risk of malaria in Togo :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Update on October 16th AMP conference call:

- Planned AMP mission to review micro planning with new approach to put the districts more in the lead.
- The second week AMP TA providers will support a training for central level staff

Ongoing issues:

- AMF in discussion to provide nets for 2020 mass campaigns
- Bad malaria outbreak in north western areas of the country. Government statement issued saying that this is heavily down to poor net use and deterioration of net conditions and climate conditions. AMF is looking at how outbreak could affect the type of nets that are to be supplied.
- Distribution scheduled to take place in June 2020

Zambia:

Population at risk of malaria in Zambia :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC
