

AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

AMP Conference call minutes: www.allianceformalariaprevention.com

23rd October 2019

If you wish to be added to or taken off this mailing list please contact: melanie.caruso@ifrc.org

Do you have a topic / issue / country specific update to share with the AMP partnership? Send a summary of the topic you would like to discuss to: jason.peat@ifrc.org or melanie.caruso@ifrc.org and we will schedule your update at the start of an upcoming AMP conference call.

Agenda – October 23rd AMP conference call

Chair : Jason Peat

Rapporteur : Melanie Caruso

- Introductions
- Review of minutes from last week's AMP conference call
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, October 30th, 2019 10:00 EST, 14:00 GMT / UTC, 16:00 CET

Total number of participants number: 15 (based on ZOOM call log)

AMP participants:	Miko Thomas, Alain Daudrumez, Hamisu Hassan
BASF:	
Buy a Net:	
CDC / PMI:	
GHSC-PSM:	Goodwin Aidenagbon
CRS:	
Friends of RAM:	Drake Zimmerman
Global Fund:	
IFRC:	
Against Malaria Foundation:	Peter Sherratt
Independent participants:	
Intelligent Insect Control:	
IPHA:	
JC Flowers Foundation:	
JHU Centre for Communications:	Andrea Brown Ansel
JSI:	
Mainpol GmbH:	
Milliner Global Associates:	John Milliner
Nets for Life:	
NMCP Pakistan:	Abdul Majeed

Total # of countries supported by AMP in 2019 (in-country):			19

New Nets Project

- Countries of focus : Mozambique, Mali, Rwanda, Burkina Faso
- NNP Group has issued operational guidance on new nets – recommendations attached to the minutes of this week’s call and available on the AMP website

Emerging issues working group:

Co-chairs: Joe Lewinski – joseph.p.lewinski@gmail.com) and Jessica Rockwood – IPHA jrockwood@iphadvisors.com)

- Finalization of the eHealth Technologies for LLIN distribution document from Vector Works
- Updating the compendium is part of EIWG activities
- Technologies Used to Support ITN Delivery document attached to the minutes of this week’s call

Monitoring, Operational Research, and Evaluation (MORE) working group:

Co-chairs: (Anna Bowen - CDC/PMI aqb0@cdc.gov; Godwin Aidenagbon – Chemonics gaidenagbon@ghsc-psm.org)

- Call was held with EIWG to discuss synergies on issues of both working groups
- Minutes will be shared with AMP core group to present proposal on moving forward with issues.
- **Issues with retooling guidance on HH registration**
- Everyone acknowledges that there are problems with household registration (most of these problems are consistent across countries, though there may be a few outliers here and there).
- People have ideas for how to improve it, but we need to pull together those ideas (e.g. if you pay more, is it better; if you collect loads of data, is it better; if you outsource it, is it better; is it higher quality using people recruited from the community or people from outside the community; etc.) in order to be able to move the discussion forward.
- If we can identify some key operations research questions that need to be addressed around potential efficiencies and improvements in quality, we can then pitch these to different partners and donors and look to collect data on what actually works and what doesn't.
- It is critical that AMP starts to get ahead of this issue
- We should identify key partners that we could pull together for a technical call on this specific issue to try to brainstorm some of the questions that need to be answered and identify a way forward.
- **Quality control (rapid monitoring)**
- Support ongoing to Sierra Leone

Net mapping project working group:

Chair: John Milliner – Milliner Global Associates jemilliner@gmail.com

- No update

Toolkit and Training working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

- No update

Resource Mobilization working group:

Jason Peat – IFRC jason.peat@ifrc.org, Drake Zimmerman – Rotarians Action Group on Malaria drakezim@gmail.com and Jessica Rockwood – IPHA jrockwood@iphadvisors.com

- RM priorities in the next months:
- Develop AMP terms of engagement with partners wishing to engage AMP in various initiatives, projects or plans
- Define an outreach strategy for AMP, including identifying target audiences and priorities, as well as materials that may be required for specific “pitches;”
- Develop a consensus statement around AMP engagement with the private sector and a strategy for leveraging on AMP’s support to high-quality product delivery;
- Identify key private sector targets, including the Business Alliance Against Malaria, as well as materials that may be required for effective engagement;
- Ensure core group approval and adoption of documents developed; and
- Implement a 6-month outreach strategy with agreed priority audiences.

AMP ‘ACTIVE COUNTRIES’

Countries where AMP is currently providing technical assistance via in-country missions or distance support.

AMP ‘Active Countries’ updates provided on October 23th AMP call: Burundi, Cameroun, Nigeria, Sudan, Zambia

Angola:

Population at risk of malaria in Angola :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- PSI with JHU are completing a post distribution survey this month and results to be shared with AMP
- Results can be discussed on a future call with the partnership

Benin:

Population at risk of malaria in Benin							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- There have been staff changes PNLN and a new head of PNLN appointed
- Nets will arrive in country in December for an April distribution
- AMP missed a TA request for Benin but is now working with the country to plan support
- Country is working to finalize all agreements on digitization
- Country will pilot a distribution of 800,000 ITNs in one district in November
- Lessons learned will be shared from the November distribution and a full rollout will take place in April 2020

Burkina Faso:

Population at risk of malaria in Burkina Faso							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- Planning is on track
- Tools to support key informant interviews are under development
- Mali will send three PNL staff to observe the Burkina Faso Campaign
- Nov 2nd – 6th planned distribution

Burundi:

Population at risk of malaria in Burundi :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution

Update on October 23rd AMP conference call:

Situation :

- Les **microplans** sont compilés et les synthèses disponibles et partagées
 - Synthèse des microplans transport pour PAM ;

- Synthèse des microplans districts pour les ABC,
- Synthèse des quantifications des outils-districts,
- Synthèse générale des microplans
- La **synthèse du budget** des activités est finalisée et le budget a été revu en réunion de travail 03 jours durant entre PNILP, PNUD et CARITAS ;
- La **formation des superviseurs nationaux** a été réalisée du 02 au 04 octobre et ceux-ci- ont facilité, la formation des superviseurs provinciaux et de district du 08 au 11 octobre ;
- Une réunion a été tenue entre PNILP, ISTEEBU et APP, une esquisse de chronogramme a été élaborée pour la réalisation **du monitoring indépendant** par ISTEEBU en parfait alignement avec le démarrage du dénombrement, un projet de protocole et de budget devront être soumis au PNUD par ISTEEBU et un contrat signé au plus tard le 15 octobre ;
- La **formation des agents de saisie** : initialement prévue lors de la formation des dénombreurs et superviseurs de proximité, qui avait été reprogrammée pour une session spéciale à J2 du dénombrement sur les données réelles (les SIS des CDS étant regroupés chez les SIS du District pour une saisie en temps réel comme méthode de formation) sera finalement organisée avec la formation des dénombreurs et superviseurs de proximité pour éviter un dépassement budgétaire ;
- Un **nouveau chronogramme** a été partagé entre parties prenantes pour une seule phase avec dénombrement prévu du 08 au 19 novembre et distribution du 09 au 13 décembre 2019 ; le monitoring est prévu du 11 au 15 novembre 2019 ; (à valider par le comité de pilotage)
- Le **plan logistique** est stabilisé : les outils logistiques sont révisés ;
- Une situation est disponible sur l'état de la **production des outils de mise en œuvre** avec une infime partie produite le reste étant planifié pour une livraison entre le 15 et le 30 octobre (le dénombrement est prévu à partir du 08 novembre). Il y a cependant **toujours incertitudes sur la production et livraison des coupons, supports de communication et outils de gestion de la campagne au niveau des provinces** ;
- Une **révision de la quantité des outils** à produire a été faite sur base des microplans. Les imprimeurs n'ayant pas encore commencé l'impression des documents, la commande pour tirage et quelques modèles ont pu être modifiés. Cette nouvelle information devra immédiatement parvenir à l'imprimeur ;
- Un jour supplémentaire pour une **formation sur la gestion logistique** des 1,830 responsables de sites distribution des MILDA a été accepté par le FM ;
- La **formation des formateurs nationaux sur la gestion logistique** a été réalisée le lundi 14 octobre, orientée aux sujets concernant la traçabilité entre la réception au site de distribution, et la logistique inverse de retour des surplus vers les districts sanitaires. Un avis de non objection a été rendu par le FM pour cette activité qui n'était pas dans le budget déjà autorisé ;
- Les **paquets d'outils et de supports pour les formations** des acteurs (formateurs communaux et agents dénombreurs, superviseurs de proximité et agents de saisie) sont finalisés ;
- Les **exercices de la formation logistique** du 14 octobre, modifiés selon les commentaires et suggestions des participants sont intégrés au Plan d'action logistique finalisé qui sera circulé aux partenaires et formateurs ;
- **L'évaluation des risques** a été partagée avec les partenaires en session du comité de pilotage (COPIL) le 15 octobre en présence du Ministre de la Santé lui-même,
- Le **budget est révisé** et consolidé avec les microplans tout en restant dans l'enveloppe initiale ;
- Un draft de **plan de mitigation** des risques est disponible (risques liés au retard de livraison des MIILDA et outils, au système de paiement, à l'insuffisance des quantités de MIILDA après dénombrement, à la confusion entre MIILDA de différents types, à la confusion entre les stocks de routine et reliquats de la campagne, aux dépenses inéligibles...) ;
- Le **plan d'action est mis à jour**,
- Le **système de paiement** a été abordé en session du COPIL avec le Ministre qui a suggéré que le système utilisé pour la campagne méningite et validé par le LFA serait reconduit. Les blocages ont été identifiés et le Ministre a donné des instructions fermes pour la mise en place du système.

Cameroun:

Population at risk of malaria in Cameroun :

Required LLINs :

LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

ANC							
EPI							
Totals							

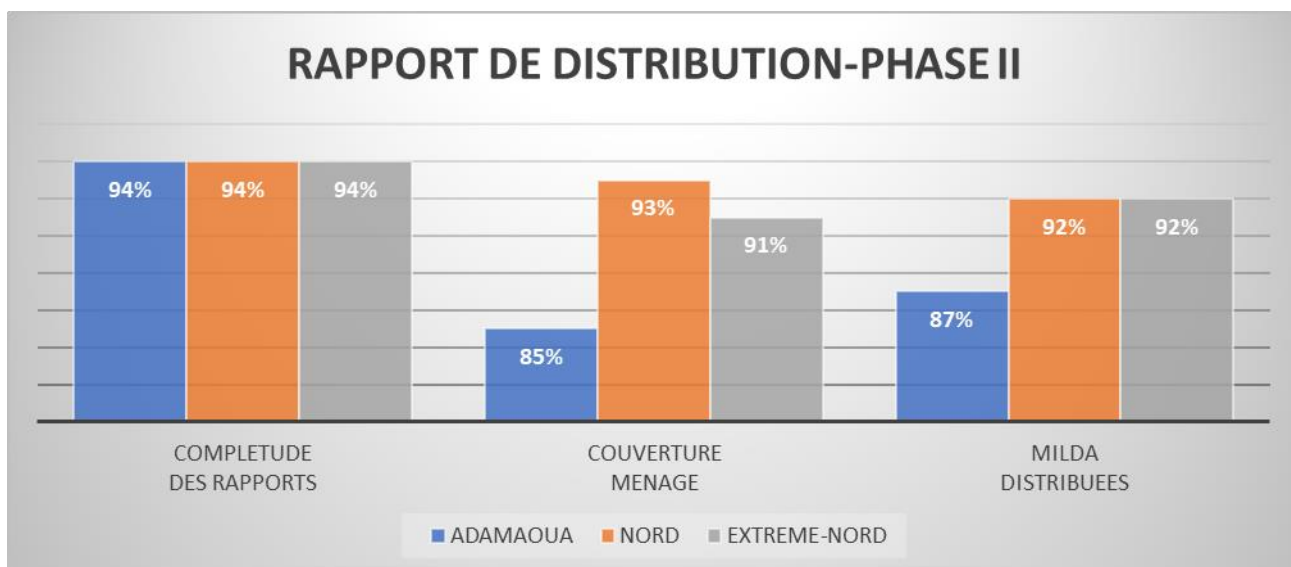

Ongoing issues :

Résultat de la distribution dans l'Extrême-Nord

- La distribution des MILDA aux ménages dénombrés dans le cadre de la Campagne de distribution des MILDA avait été prévu, dans la région de l'Extrême-Nord, durant la période allant du 19-23 septembre 2019. Après une distribution des MILDA de 5 jours, il a été recommandé de prolonger la période de distribution de 2 jours pour un ratissage.
- Il est à souligner que cette première phase n'a concerné que 14 districts sur les 30 de la région.
- Les résultats provisoires à J5 se présentent de la manière suivante :
- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 91% de couverture des ménages attendus.
 - 92% des MILDA distribuées.
- Durant les deux jours de ratissage, il a été recommandé de se rassurer que les équipes de distribution informent les ménages restants par téléphone et si possible avec l'appui du crieur.

Résultat de la distribution dans le Nord et Adamaoua

- Etant donné que certaines aires de santé des régions d'Adamaoua et du Nord ont démarré leur distribution en retard due à un retard d'acheminement des MILDA, dès le démarrage de ces aires de santé les résultats se présentent de la manière suivante en ce jour :
- La région de l'Adamaoua :
- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 85% de couverture des ménages attendus.
 - 87% des MILDA distribuées.
- La région du Nord :
- 94% des rapports de distribution des aires sont disponibles à ce jour, avec :
 - 93% de couverture des ménages attendus.
 - 92% des MILDA distribuées.

Autres activités

- Elaboration encours d'un mini-plan de mise en œuvre de la campagne pour la région du Nord-Ouest
- Elaboration encours de la quantification et budget du mini-plan de mise en œuvre de la campagne pour la région du Nord-Ouest

Difficultés rencontrées :

- Gap des MILDA par rapport aux besoins du dénombrement des ménages.
- Rupture de stock au niveau de plusieurs sites de distribution.
- Problèmes de remplissage des outils au niveau des sites de distribution.
- Faiblesse de communication au niveau du site de distribution.
- Problème de supervision avec absence régulière des superviseurs surtout des aires de santé
- Non-paiement des crieurs pour la phase de dénombrement des ménages.
- Le retard de paiement de la CPS (2 séries) démoralise les superviseurs.

Central African Republic (CAR):

Population at risk of malaria in CAR :							
Required LLINs :

Ongoing issues:

- The GF CT are in country to resolve ongoing Tana Netting issue and get dates for mass campaign – discussions are going well and it is expected that the MoH will be able to give the go ahead to deliver those nets (2.2 million LLINs)
- 2 million nets are still in Pakistan and total of 4 million ITNs to be distributed likely mid October
- Hopefully there will be a TA mission request to AMP for final methodology for distribution

Update on October 23rd AMP conference call:

The launch of the campaign is planned for 6 of November with LLINs distribution starting on the same day in all targeted states **Kassala, Gedarif, Blue Nile, White Nile, North Kordofan and West Kordofan**

Key activities during the reporting period:

- Meetings HP, EPI and MCH directorates for the overview of their role and key activities, from the planning stage, implementation and reporting for both, routine and universal LLINs distribution.
- Update the roadmap for the LLINs campaign
- Finalize arrangements for the field trip of the national campaign supervisors to Kassala, Gedarif, North and West Kordofan, White and Blue Nile to observe the implementation of campaign activities
- TA will join the teams
- The operational room for the campaign was established on 20 Oct and is composed by IVM, PMU and HP team members
- Nomination of national supervisors from IVM and HP departments
- Training for national supervisors
- Official letter sent to MOH directors at state level with the updated roadmap for the LLINs distribution

Ongoing issues:

- Planned AMP mission to review micro planning with new approach to put the districts more in the lead.
- The second week AMP TA providers will support a training for central level staff
- AMF in discussion to provide nets for 2020 mass campaigns
- Bad malaria outbreak in north western areas of the country. Government statement issued saying that this is heavily down to poor net use and deterioration of net conditions and climate conditions. AMF is looking at how outbreak could affect the type of nets that are to be supplied.
- Distribution scheduled to take place in June 2020

Zambia:

Population at risk of malaria in Zambia :
Required LLINs :
