

# AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

---

AMP Conference call minutes: [www.allianceformalariaprevention.com](http://www.allianceformalariaprevention.com)

January 22nd, 2020

If you wish to be added to or taken off this mailing list please contact: [jason.peat@ifrc.org](mailto:jason.peat@ifrc.org)

Do you have a topic / issue / country specific update to share with the AMP partnership?

Send a summary of the topic you would like to discuss to [jason.peat@ifrc.org](mailto:jason.peat@ifrc.org) and we will schedule your update at the start of an upcoming AMP conference call.

## **Agenda – January 22nd AMP conference call**

Chair : David Gittleman

Rapporteur : Joseph Lewinski

- Introductions
- Review of minutes from last week's AMP conference call
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, February 5th, 2020 10:00 EDT, 14:00 GMT / UTC, 15:00 CET

AMP participants:

BASF:

Buy a Net:

CDC / PMI:

CRS:

Global Fund:

IFRC:

Marcy Erskine, Elisa Riquier

Against Malaria Foundation:

Independent participants :

James Ssekitooleko

IPHA:

JHU Centre for Communications:

JSI:

Milliner Global Associates:

John Milliner

Plan Canada

Bernabe Yameogo

PSI:

Chris Lourenco

RBM:

Real Relief Health:

Annette Braae

Results in Health:

Rotarian Malaria Partners:

Jeff Pritchard; Jim Moore

Tropical Health:

Hannah Koenker

UNICEF:

UN Foundation:

USAID / PMI:

Chris Warren

VectorLink:

VF:

Aurélie Delbaere

WHO:

Stefan Hoyer

World Vision:

Gagik Karapetyan

**General updates:**

**AMP Partners Meeting 2020**

- January 30<sup>th</sup> and 31<sup>st</sup>, AMP 2020 Partners meeting: “Using Data to Innovate and Align with Country Priorities”
- **140 participants**
- Some presenters have dropped so need to review the agenda. If you still want to register we can fit you in please email Marcy or Jason. If you need a visa to attend is probably too late.
- The most recent version of the meeting agenda has been circulated with the minutes of this call and is available on the AMP website: <https://allianceformalariaprevention.com/about/amp-annual-partners-meeting/>

**AMP working group updates:**

**Country support working group:**

Chair: Marcy Erskine IFRC – [marcy.erskine@ifrc.org](mailto:marcy.erskine@ifrc.org)

Number of countries AMP has supported to date in 2020: 5

Number of TA missions: 11 over 4 countries

Country	Dates	TA Type	TA provider	Funding source
Haiti	Jan. 10 <sup>th</sup> start date	Logistics, SBCC	Pauline Njah Mamadou Diouf	CRSPC/UNOPS
Mauritania	Jan. 28 <sup>th</sup> start date	TBD	TBD	CRSPC/UNOPS
Rwanda	Jan. 10 <sup>th</sup> start date	Logistics, SBCC	Terry Wanjiru	CRSPC/UNOPS
Sierra Leone	Jan. 6 <sup>th</sup> start date	Implementation, Log, SBCC	Marcy Erskine, Miko Thomas, Jeronimo Zandamela, Zainab Ali	CRSPC/UNOPS
Sudan	Jan. 6 <sup>th</sup> start date	CMA	Hamisu Hassan, Fikadu Batu	CRSPC/UNOPS

**New Nets Project**

No Update- 21. Jan 2020

**Innovation and Evaluation working group:**

Working Group Co-chairs:

Joe Lewinski – [joseph.p.lewinski@gmail.com](mailto:joseph.p.lewinski@gmail.com)) & Jessica Rockwood – IPHA [jrockwood@iphadvisors.com](mailto:jrockwood@iphadvisors.com))

- The Innovation and Evaluation Working Group (IEWG) have finalized **Recommendations on the Use of Containers for the Transport and Storage of ITNs.**
- The IEWG will host two working lunches at the AMP meeting Thursday and Friday indepth discussions will involve
  - o Day 1 (Thursday/ Jan 30)- Discussion in integreation from Gates Foundation and David Gittleman
  - o Day 2 (Friday/ Jan 31)- Presentation on macroquantification and effects on net allocation by Hannah Koenker

- Discussion in IEWG- Workplan and 2020 issues with needed support from partnership member

**Net mapping project working group:**

Chair: John Milliner – Milliner Global Associates [jemilliner@gmail.com](mailto:jemilliner@gmail.com)

- No update

**Toolkit and Training working group:**

Chair: Marcy Erskine IFRC – [marcy.erskine@ifrc.org](mailto:marcy.erskine@ifrc.org)

- No update

**Resource Mobilization working group:**

Jason Peat – IFRC [Jason.peat@ifrc.org](mailto:Jason.peat@ifrc.org), Drake Zimmerman – Rotarians Action Group on Malaria [drakezim@gmail.com](mailto:drakezim@gmail.com) and Jessica Rockwood – IPHA [jrockwood@iphadvisors.com](mailto:jrockwood@iphadvisors.com)

- No update

**AMP ‘ACTIVE COUNTRIES’**

*Countries where AMP is currently providing technical assistance via in-country missions or distance support.*

**AMP ‘Active Countries’ updates provided on January 15th AMP call: Burkina Faso, Cameroun, Haiti, Rwanda, Sierra Leone, Sudan**

**Angola:**

Population at risk of malaria in Angola :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

**Ongoing issues:**

- No Updates

**Benin:**

Population at risk of malaria in Benin
Required LLINs :
LLINs imported into the country three years prior to update :

Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

**Ongoing issues:**

**Update on January 22nd AMP conference call:**

- Pilot distribution has taken place.
- Yves has the information about the digitization
- Microplanning in the next few weeks with HHR- AMP to provide support.
- Distribution still to take place in April

**Burkina Faso:**

Population at risk of malaria in Burkina Faso							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

**Ongoing issues:**

- No Updates

**Burundi:**

Population at risk of malaria in Burundi :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							

EPI							
Totals							

Ongoing issues:

**Update on January 22nd AMP conference call:**

- Stefan- the campaign went well.
- Marcy- distribution is complete, need to do a post campaign survey but need clarity from the national statistical organization about the methodology

Cameroun:

<b>Population at risk of malaria in Cameroun :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

**Update on January 22nd AMP conference call:**

- Going to review the 2019 distribution in country before moving forward with GF approval- especially in the Extreme North
- Looking like activities will be pushed back to March
- Additional follow will happen with Global Fund team.

Central African Republic (CAR):

<b>Population at risk of malaria in CAR :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC

<b>Totals</b>							

**Ongoing issues:**

**Update on January 22nd AMP conference call:**

- Going to have a presentation on the cross border program at the AMP meeting.
- Now going to expand the approach to Guinea- Great to see a cross border approach happening in West Africa and lead by the country.
- Need to determine what we can learn about this approach.
- Will try to organize a side meeting next week if others are interested.

**Guinea**

<b>Population at risk of malaria in Guinea :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
<b>Distribution channel</b>	<b>Scale of distribution</b>	<b># LLINs needed per distribution channel</b>	<b># LLINs available per distribution channel</b>	<b>LLIN gap per distribution channel</b>	<b>Budget gap per distribution channel</b>	<b>Technical assistance requested with date per distribution channel</b>	<b>Date of most recent update</b>
<b>Mass distribution</b>							
<b>Continuous distribution</b>

**Update on January 22nd AMP conference call:**

- Been working with PHAO on the strata (levels) that the campaign will be conducted in.
- There is a need to do this through multiple approaches.
- Not sure yet how things are going to be targeted ore where. This is what AMP TA is working on this week.
- Need to figure out the operational aspects related to each of the strategies.
- Also need to think about the risk and budget approach.
- Without a final decision- going to be hard to provide a finalized approach.

**January 15th - Notes**

**La semaine prochaine**

- Définition de la stratégie globale et de l'approche logistique (y compris l'identification des acteurs et leurs rôles)
- Proposition du chronogramme logistique,
- Elaboration du premier draft du plan logistique
- Identification des approches stratégiques de communication
- Développement de messages clés et des outils de communication
- Discuter sur la façon de gérer les rumeurs pendant la campagne

**Liberia:**

<b>Population at risk of malaria in Liberia :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

**Ongoing issues:**

**Update on January 22nd AMP conference call:**

- No doing anything with Liberia to the middle of the year and going to be supporting them with their GF campaign.
- It will be just a NNP operational country getting IG2 nets. Need to figure out what the evaluation approach will be.
- Going to have NNP project country meeting from 5:30-7:00.
- Is still a GF COE country, but will be updated based on the meeting in December.
- The COE designation is relate to infrastructure and transport within a campaign not just the security concerns.
- Countries want to stay on the COE list to have the flexibility in the grant. (SL)

**Madagascar:**

<b>Population at risk of malaria in Madagascar :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							

<b>Social Marketing</b>							
<b>Totals</b>							

**Ongoing issues:**

**Update on January 22nd AMP conference call:**

- Have received AMP presentation
- Have not received final report from the campaign in 2018/2019!
- Going to have the 2021 campaign that will require support and will liaising with the team moving forward.
- Still need to figure out what can be spent out in this grant and can be carried over in the next grant
- They have a difficult system where the campaign overlaps with the end of one grant and start of another grant.

**Mali:**

<b>Population at risk of malaria in Mali :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
<b>Distribution channel</b>	<b>Scale of distribution</b>	<b># LLINs needed per distribution channel</b>	<b># LLINs available per distribution channel</b>	<b>LLIN gap per distribution channel</b>	<b>Budget gap per distribution channel</b>	<b>Technical assistance requested with date per distribution channel</b>	<b>Date of most recent update</b>
<b>Mass distribution</b>							
<b>Continuous distribution</b>							
<b>ANC</b>							
<b>EPI</b>							
<b>Totals</b>							

**Ongoing issues:**

**Update on January 22nd AMP conference call:**

- Marcy spoke with FMP Mali- FPM had a good conversation about the TA support provided.
- Ends up being a good case study in accountability in COE/ high risk areas
- Will follow up with PSI Mali team.
- GF needs to tell their story better as well.

**Mauritania:**

<b>Population at risk of malaria in Mauritania:</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>							
<b>Distribution channel</b>	<b>Scale of distribution</b>	<b># LLINs needed per distribution channel</b>	<b># LLINs available per distribution channel</b>	<b>LLIN gap per distribution channel</b>	<b>Budget gap per distribution channel</b>	<b>Technical assistance requested with date per distribution channel</b>	<b>Date of most recent update</b>
<b>Mass distribution</b>							
<b>ANC</b>

**Ongoing Issues:**

**Update on January 22nd AMP conference call:**

- Eight Total People on Mission- Two people from NMEP and two SFH Nigeria/ and 4 AMP TA providers
  - o Lots to coordinate with this group.
- Have Nigeria team in country to observe the microplanning exercise that Nigeria countries to struggle with.
- The Nigeria team participated in the ToT and participated in the workshops.
- Lots of challenges developing the micro-transport plans based on the layout of both Freetown and the rural areas of the country.
  - o Far more detailed planning then what is needed from other countries.
- A lot of moving parts to decide upon; need to give more flexibility to the district tools.

- We will see if GF allows for that level of flexibility.
- To complicate the distribution SL is planning on having an integrated campaign
- Unicef does not have funds for the VitA and mabendazole so still TBD if the integrated campaign will happen as envisioned
- Need to now use GF grant to adapt the SBC campaign and training for other child health areas. That puts pressure on the timeline and cost designated for ITN distribution.
- Nigeria team has already adapted tools for their own microplanning from what they have experienced in SL.
- Q. How has Nigeria participated in the training?
  - Well, they have had to make decision about what area they want to focus on and have chosen to support district level planning which they have used to redevelop their own tools.
- 
- **Previous Notes (Jan 15th)**
- AMP TA objective to provide support for the planning and implementation of the microplanning exercise (including planning, organisation, and development of tools, ToT, and monitoring of district microplanning workshops). Finalise ITN campaign data tools/templates (including logistics and SBCC) and review campaign documents (timeline, risk mitigation framework, campaign budget).
- Working sessions with command center to finalize microplanning training agenda (TOT and microplanning workshop), presentations and review of documents (risk mitigation framework, timeline, microplanning templates, campaign data tools, etc.). Logistics training took place during the first week of the mission.
- **Challenges:**
- The campaign budget was developed as a stand-alone campaign but later it was agreed that the campaign will be integrated with MCH and no additional funding is provided for the MCH component
- Increased workload for the campaign personnel but there is no increase in their number to complement the integration
- New country clearance and waiver procedures has delayed the customs clearance process for the first lot of containers that arrived in country which led to unexpected demurrage costs
- Insufficient details on the progress so far by IHPAU on the preparations for the campaign (e.g. engagement venues at district and PHU levels, identification of transport companies, etc.)
- Incorrect quantification of materials
- IHPAU needs to interact more with the logistics team to have a better understanding of potential transportation challenges in WAU and WAR that will arise during micro logistics
- It has been decided that gloves and masks will be used by personnel and DPs – this raises SBCC concerns in regard to the message that this will give to communities concerning the safety of using ITNs.
- SBCC tools and activities have not yet been finalised. This raises concerns (about quality and implementation), given the short timelines now available before HHR and distribution.
- Many activities are planned in a short period for the campaign and broader NMCP activities (e.g. MPR)

**South Sudan:**

Population at risk of malaria in South Sudan:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

**Ongoing issues:**

**Update on January 22nd AMP conference call:**

- The CMA audit is going on today.
- Sudan has come forward to adopt AMP which I think will be interesting and good from both the country and AMP.
- One of the challenges is that malaria control is across multiple functions. Need to have to address this going forward.
- They are sending a large representation to the AMP presentation.

**Previous Notes (January 15<sup>th</sup>)**

- The Commodity Management Assessment (CMA) is meant to assess the robustness of the supply chain and management of LLINs and provide recommendations on areas of the supply chain that needs to be strengthened for future LLIN activities (campaign or continuous distribution).
- The key objectives of the exercise are targeted to focus on both mass campaign and routine distribution systems to assess;
- The internal transport, storage and handling of LLINs at the various levels of the supply chain and warehousing practices and recommend how the LLIN supply chain could be strengthened within the planned Integrated Supply Chain System of Sudan.
- To explore the feasibility of using shippers own Container (SOC) in the context of Sudan
- State level engagements with key counterparts to communicate mission objectives and the sampled areas for the assessment were conducted in North Kordofan, Blue Nile, Gadarif and Kassala.
- Data collection exercises were conducted at the following levels
  - o State level commodity and warehouse assessments in North Kordofan and Gadarif states
  - o Locality level commodity and warehouse assessments in 2 Localities each of North Kordofan and Gadarif states
  - o Village distribution points/health facilities (6 DPs and 2 routine LLIN distribution HFs) assessments

**Tanzania:**

<b>Population at risk of malaria in Tanzania :</b>							
<b>Required LLINs :</b>							
<b>LLINs imported into the country three years prior to update :</b>
