

AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

AMP Conference call minutes: www.allianceformalariaprevention.com

January 8th, 2020

If you wish to be added to or taken off this mailing list please contact: jason.peat@ifrc.org

Do you have a topic / issue / country specific update to share with the AMP partnership?

Send a summary of the topic you would like to discuss to jason.peat@ifrc.org and we will schedule your update at the start of an upcoming AMP conference call.

Agenda – January 8th AMP conference call

Chair : Jason Peat

Rapporteur : Jason Peat

- Introductions
- Review of minutes from last week's AMP conference call
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, January 8th, 2020 10:00 EDT, 14:00 GMT / UTC, 15:00 CET

AMP participants:	Miko Thomas, Hamisu Hassan, Fikadu Batu
BASF:	
Buy a Net:	
CDC / PMI:	Anna Bowen
CRS:	
Global Fund:	
IFRC:	Elisa Riquier
Against Malaria Foundation:	
Independent participants :	Joe Lewinski
Intelligent Insect Control:	
IPHA:	
JC Flowers Foundation:	
JHU Centre for Communications:	
JSI:	
Milliner Global Associates:	John Milliner
Nets for Life:	
PSI:	Chris Lourenco
RBM:	Monique Murindahabi, Kaka Mudambo
Real Relief Health:	
Results in Health:	
Rotarian Malaria Partners:	Drake Zimmerman, Jim Moore

and allianceformalariaprevention@gmail.com

Tropical Health: Hannah Koenker
 UNICEF:
 UN Foundation: Dana McLaughlin
 USAID / PMI: Lilia Gerberg
 VectorLink: Mary Kante
 VF:
 WHO: Stefan Hoyer
 World Vision: Gagik Karapetyan

General updates:

AMP Partners Meeting 2020

- January 30th and 31st, AMP 2020 Partners meeting: “Using Data to Innovate and Align with Country Priorities”
- **132 participants** have registered to date
- The most recent version of the meeting agenda is available on the AMP website: <https://allianceformalariaprevention.com/about/amp-annual-partners-meeting/>
- The VCWG Annual Meeting will take place on Monday 3 to Wednesday 5 February 2020 in Movenpick followed by the MSWG (Thursday 6-Friday 7 September) at the Global Health Campus.

AMP working group updates:

Country support working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

Number of countries AMP has supported to date in 2020: **2**
 Number of TA missions: 6 over 2 countries

Country	Dates	TA Type	TA provider	Funding source
Sierra Leone	Jan. 6 th start date	Implementation, Log, SBCC	Marcy Erskine, Miko Thomas, Jeronimo Zandamela, Zainab Ali	CRSPC/UNOPS
Sudan	Jan. 6 th start date	CMA	Hamisu Hassan, Fikadu Batu	CRSPC/UNOPS

New Nets Project

- NNP update on Mali and Rwanda included in weekly minutes below

Innovation and Evaluation working group:

Working Group Co-chairs:

Joe Lewinski – joseph.p.lewinski@gmail.com) & Jessica Rockwood – IPHA jrockwood@iphadvisors.com)

Working Group Topic leads:

Anna Bowen - CDC/PMI aqb0@cdc.gov; & Godwin Aidenagbon – Chemonics gaidenagbon@ghsc-psm.org)

- Finalized AMP Container storage recommendations. Will be circulated to the partnership in the coming weeks.

Net mapping project working group:

Chair: John Milliner – Milliner Global Associates jemilliner@gmail.com

- Finalizing communication documents to support announcement of distribution of 2 billion ITNs

Toolkit and Training working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

- No update

Resource Mobilization working group:

Jason Peat – IFRC jason.peat@ifrc.org, Drake Zimmerman – Rotarians Action Group on Malaria drakezim@gmail.com and Jessica Rockwood – IPHA jrockwood@iphadvisors.com

- No update

AMP ‘ACTIVE COUNTRIES’

Countries where AMP is currently providing technical assistance via in-country missions or distance support.

AMP ‘Active Countries’ updates provided on January 8th AMP call: Cameroun, DRC, Guinea, Mali, Rwanda. Sierra Leone, Sudan

Angola:

Population at risk of malaria in Angola :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Update on January 8th AMP conference call:

- In Sudan, the GF OIG pointed out weak progress in malaria prevention: malaria prevalence increased from 3.3% in 2012 to 5.9% in 2016 as outlined in the Malaria Indicator Surveys (MIS) implemented by the Federal Ministry of Health for 2012 and 2016.
- This increase is mainly attributable to low universal bed net coverage (only 41% of people have access to bed nets) and low utilization (only 37% of people who have access to a bed net actually use it) in the targeted areas as outlined in the 2016 Malaria Indicator Survey.
- OIG recommended that the Secretariat, in collaboration with the Federal Ministry of Health and partners, conduct a comprehensive deep-dive into the factors affecting LLIN ownership and use in Sudan and

requested a commodity management assessment (CMA) in addition to the earlier assessment of LLIN coverage and use in the country.

- The CMA is meant to assess the robustness of the supply chain and management of LLINs and provide recommendations on areas of the supply chain that needs to be strengthened for future LLIN activities (campaign or continuous distribution).

Objectives: The key objectives of the exercise are targeted to focus on both mass campaign and routine distribution systems to assess;

- The internal transport, storage and handling of LLINs at the various levels of the supply chain and warehousing practices and recommend how the LLIN supply chain could be strengthened within the planned Integrated Supply Chain System of Sudan.
- To explore the feasibility of using shippers own Container (SOC) in the context of Sudan

Key activities during the reporting period:

- Entrance meeting involving key stakeholder; NMCP, IVM branch, PMU of the GF grant and UNICEF where the consultants communicated the objectives of the mission
- The meeting also conducted sampling of the targeted localities and villages in the 4 targeted states where in each state 2 localities were sampled including for each locality 6 distribution points to assess commodity management during the recent mass campaign and 2 health facilities to assess commodity management under the routine distributions for both EPI and ANC
- An orientation training for the data collectors who will work along with the AMP TA providers was also conducted to build the capacity of both NMCP and UNICEF personnel in the exercise to understand the concept of the assessment and the data collection tools to be deployed in the process.
- Two teams to be led by each AMP TA were formed to cover 2 states per team including the localities and distribution points/health facilities to be assessed.

Ongoing issues:

AMF commitment

- Total 3.5m nets
- Maritime – 1.8m nets
- Plateaux – 1.1m nets
- Centrale – 0.5m nets
- One district Kara region – 0.1m nets

GF procuring standard deltamethrin nets for their areas (Lomé, Savanes, Kara)

PNLP Net Preference

Very strong preference for polyester. Strong preference for deltamethrin. Want to deploy some PBOs, need to decide. Limited capacity.

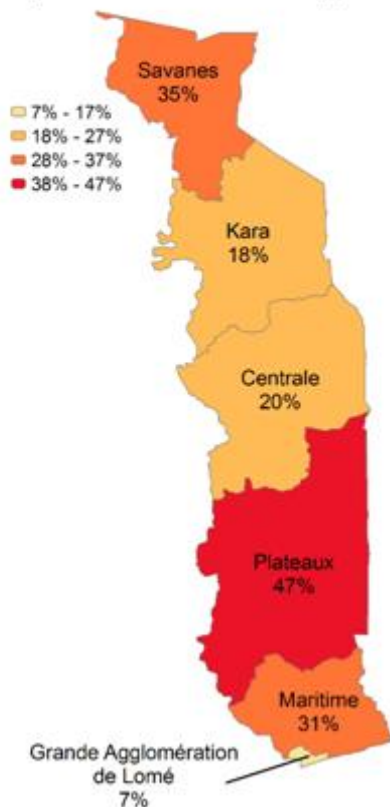

Timing

Current aim is for campaign distribution June, so nets need to arrive May, shipping March/April, production Dec/Jan/Feb.

Choice of net (partic wh PBO or not) and capacity constraints at manufacturers are key to whether these times can be hit. So timing will firm up as soon as nets ordered.

Graphique 4.8 Prévalence du paludisme chez les enfants par région
