

AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

AMP Conference call minutes: www.allianceformalariaprevention.com

9th May 2018

Dial-in number: +1-213-787-0529
USA toll-free: 888-808-6929
Access Code: 3904916

If you wish to be added to or taken off this mailing list please contact: melanie.caruso@ifrc.org

Do you have a topic / issue / country specific update to share with the AMP partnership? Send a summary of the topic you would like to discuss to: jason.peat@ifrc.org or melanie.caruso@ifrc.org and we will schedule your update at the start of an upcoming AMP conference call.

Agenda – May 9th AMP conference call

Chair : Jason Peat
Rapporteur : Melanie Caruso

- Introductions
- Review of minutes from last week's AMP conference call
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, 16th May 2018 10:00 EST, 14:00 GMT / UTC, 16:00 CET

Participants:

AMF:	
AMP participants:	Melanie Caruso, Hamisu Hassan
BASF:	Alex Heimsch
Buy a Net:	
CDC / PMI:	
CRS:	Zainab Ali
Disease Control Technologies:	
Global Health Partners:	
Global Fund:	
IFRC:	Marcy Erskine
Independent participants:	Kevin Starace
Intelligent Insect Control:	
IPHA:	Jessica Rockwood
JC Flowers Foundation:	
JHU Centre for Communications:	Hunter Harig
JSI:	Chris Warren
LSHTM:	
MCDI:	

For additional information:

www.allianceformalariaprevention.com
and allianceformalariaprevention@gmail.com

Milliner Global Associates: John Milliner
 Nets for Life:
 PLAN Canada:
 PSI: Joe Lewinski
 Real Relief Health:
 Rotarians Action Group on Malaria: Drake Zimmerman
 Rotarian Malaria Partners : Jim Moore
 Sumitomo:
 Tana Netting:
 UNICEF:
 UN Foundation:
 USAID / PMI:
 VectorLink: Mary Kante
 VF:
 WHO:
 World Vision: Gagik Karapetyan

General updates:

AMP working group updates:

Country support working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

Current AMP TA missions :

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Nigeria	Implementation	CRS/AMP	April – May 2018
Pakistan	Implementation	CRSPC/UNOPS	May 2018

Planned AMP TA missions 2018:

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Nigeria	Implementation, Logistics and Communications	CRS	Continuous 2018
Malawi	Implementation, Communications and Logistics	AMP	Continuous 2018
Madagascar	Implementation, Communications and Logistics	AMP	Continuous 2018
DRC	Implementation and Logistics	AMP	Continuous 2018
Cameroun	Implementation and Logistics	AMP	May 2018
Congo Brazzaville	Implementation and Logistics	AMP	TBC
Pakistan	Implementation, Communications and Logistics	CRSPC	TBD

Completed AMP TA support (distance and in-country) in 2018:

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
CAR	Implementation	IFRC	February – March 2018
	Logistics	IFRC	February – April 2018
	Implementation	IFRC	March – April 2018
Ethiopia	Process evaluation	CRSPC/UNOPS	March-April 2018
Liberia	Logistics	AMP	February - March 2018
	Implementation	AMP	February - March 2018
	Implementation	AMP	April – May 2018
Madagascar	Implementation	AMP	January 2018
	Logistics	AMP	January 2018
Malawi	Implementation	AMP	March-April 2018
	Logistics	AMP	March-April 2018
Pakistan	Logistics	CRSPC/UNOPS	April 2018
Total # of countries supported by AMP in 2018 (in-country):		6	

Emerging issues working group:

Co-chairs: Joe Lewinski – PSI jlewinski@psi.org ; Caroline Desrousseaux VF - cde@vestergaard.com)

- Moving forward on container storage issue. CDC has redrafted the questions and are having conversations with John Milliner from the Net Mapping Project on how to engage supplier partners, and also going back to pre-qualification team to align. Once finalised, this will be shared with the partnership for comments and review
- After this call, the EIWG is holding a call regarding how we start to catalogue and evaluate technologies and tools used for LLIN mass distribution. The group will look at what AMP wants to produce: documentation of all the technologies out there, looking at what type of methodology or evaluation we wish to put forward to countries to facilitate decision making.

Monitoring, Operational Research, and Evaluation (MORE) working group:

Co-chairs: (David Gittelman - CDC/PMI dmg1@cdc.gov and Elizabeth Ivanovich UNF - eivanovich@unfoundation.org ; Mame Birame – USAID/PMI Senegal mbdiouf@usaid.gov)

- Household rapid monitoring assessment pre-campaigns: lots of comments have been received and are being integrated into the guidance document
- M&E toolkit chapter: the chapter itself needs country specific input which is the only thing remaining before finalisation – the version was re-worked this week and sent to editing

Net mapping project working group:

Chair: John Milliner – Milliner Global Associates jemilliner@gmail.com and Cedric Mingat PSI - cmingat@psimali.org

- No update

Toolkit and Training working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

- 2 trainings in November (English and French) are being planned
- EN: November 5-9th
- FR: November 26-29th
- Prioritizing 8 countries
- Agenda under development

- COE guidelines is being finalized
- Communications chapter is being edited – close to finalization.
- First draft of microplanning update is available

Resource Mobilization working group:

Jason Peat – IFRC Jason.peat@ifrc.org, Drake Zimmerman – Rotarians Action Group on Malaria drakezim@gmail.com and Jessica Rockwood – IPHA jrockwood@iphadvisors.com

- No update

AMP ‘ACTIVE COUNTRIES’

Countries where AMP is currently providing technical assistance via in-country missions or distance support.

AMP ‘Active Countries’ updates provided on May 9th AMP call: Cameroun, CAR, Ethiopia, Liberia, Madagascar, Malawi, Nigeria, Pakistan

Angola:

Population at risk of malaria in Angola :		19,600,000 (World Malaria Report, 2012)					
Required LLINs :		10,888,888					
LLINs imported into the country three years prior to update :		4,850,646 (AMP Net Mapping Project)					
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	Phased approach by province – 1LLIN/2 people - 2013	11,700,000	7,484,312	3,669,125		Implementation , Logistics	03.04.13
ANC							
EPI							
Totals	N/A	11,700,000	7,484,312	3,669,125			N/A

Ongoing issues:

- PSI finished off campaign activities and now supporting some continuous distribution activities

Benin:

Population at risk of malaria in Benin				10,328,934 (2014 population)			
Required LLINs :				5,738,297			
LLINs imported into the country three years prior to update :				4,845,882 (AMP Net Mapping Project)			
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	National universal coverage replacement campaign	5,738,297	6,050,272 (GF 5.245.272, USAID 280.000)	0		Logistics and longer term coordination	16.07.14
ANC							
EPI							
Totals	N/A	5,738,297	6,050,272	0			N/A

Ongoing issues:

- Waiting on approval for a scope of work proposed for a post campaign assessment to look at lessons learned and challenges from 2017 campaign.
- Do be done in coordination with local consultant that worked on the campaign

Burkina Faso:

Population at risk of malaria in Burkina Faso				19.5 million			
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Ongoing issues:

- AMP provided support with 2018-2020 grant – BF want to continue discussions around the strategy for their campaign scheduled in 2019
- Want to avoid a multimillion net gap like in past campaigns

Burundi:

Population at risk of malaria in Burundi :				6,690,000 (World Malaria Report, 2012)			
Required LLINs :				3,716,667			
LLINs imported into the country three years prior to update :				4,433,813 (AMP Net Mapping Project)			
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	UC 1.8 ratio Feb/March 2014	5,165,200	5,158,410	6,790		Implementation , Logistics	03.04.13
ANC							
EPI							
Totals	N/A	5,165,200	5,158,410	6,790			N/A

Ongoing issues:

- Finalising a scope of work for providing support to 2019 campaign based on TA plans from their last campaign

Cameroun:

Population at risk of malaria in Cameroun :				22,250,000 (World Malaria Report, 2014)			
Required LLINs :				12,361,111			
LLINs imported into the country three years prior to update :				1,537,744 (AMP Net Mapping Project)			
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	UC March 2015	12,322,059	12,322,059 (GF)	0		Implementation and Logistics	24.03.2015
ANC							
EPI							
Totals		12,322,059	12,322,059	0			

Update on May 9th AMP conference call:

- Required support in May 2018 for 2019 campaign planning
- Need support for macro planning phase, revised ToRs and has been submitted to CRSPC/UNOPS

- TA providers identified for the upcoming support missions in May and missions are being organised through UNOPS
- Support start this week-end

Central African Republic (CAR):

Population at risk of malaria in CAR :		4,490,000 (World Malaria Report, 2012)					
Required LLINs :		2,494,445					
LLINs imported into the country three years prior to update :		162,870 (AMP Net Mapping Project)					
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	2014 phase 2 rolling distribution according to security situation	2.2 million	2.2 million GF R8 phase 2	0		Micro planning	30.04.2014
ANC							
EPI							
Totals	N/A	2.2 million	2.2 million	0			N/A

Update on May 9th AMP conference call:

- In country mission is completed (implementation and logistics)
- Final decision to stick with the 7 sous-prefectures has been taken. Given reductions in funding, not possible to do everything. Given timelines and security situation, it looks like they won't go ahead with additional sous-prefectures at this stage.

Chad:

Population at risk of malaria in Tchad :		11,410,000 (World Malaria Report, 2012)					
Required LLINs :		6,338,889					
LLINs imported into the country three years prior to update :		8,577,547 (AMP Net Mapping Project)					
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	2014 TFM to cover 9 regions out of 11	8,177,640	8 151 792	146 943			03.04.13
Continuous	2013		762,941				

distribution	routine distribution only						
ANC							
EPI							
Totals	N/A	8,177,640	7,148,020	1,792,561			N/A

Ongoing issues:

- Request for support for evaluation of campaign as agreed with Global Fund.
- WHO was going to do it but now not possible so looking for AMP to support process evaluation as long as it's not the same consultants in place that supported the campaign planning
- Looking for AMP to support and putting out a call for consultants
- Please find the link to access to the TOR for the recruitment of the international consultant for mass campaign evaluation. Please share it anyone who might be interested.
- For UNDP staff : <http://procurement-notices.undp.org/> ID 44571
- For non UNDP staff : <http://procurement-notices.undp.org/search.cfm>.

Congo Brazzaville:

Population at risk of malaria in Congo Brazzaville:							<i>(World Malaria Report)</i>	
Required LLINs :								
LLINs imported into the country three years prior to update :								
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

ANC								
EPI								
Totals								

Ongoing issues:

- CRS signed the grant with GF

DRC:

Population at risk of malaria in DRC :							<i>67,730,000 (World Malaria Report, 2012)</i>	
Required LLINs :							<i>37,627,777</i>	
LLINs imported into the country three years prior to update :							<i>30,803,765 (AMP Net Mapping Project)</i>	
Distribution channel	Scale of distribution	# LLINs needed per distribution	# LLINs available per	LLIN gap per distribution	Budget gap per distribution	Technical assistance requested	Date of most recent	

		channel	distribution channel	channel	channel	with date per distribution channel	update
Mass distribution	Rolling region by region – 2010-2012	35 million	19,094,251	13,445,599	2.3 million\$		03.04.13
ANC							
EPI							
Totals	N/A	35,000,000	19,094,251	13,445,599			N/A

Ongoing issues:

- Initial discussion on support to PMI region in Kasai Oriental to take place
- PMI is funding a 3 million ITN distribution in Kasai Oriental which AMP will work to develop a TA plan for
- AMF working on distribution for first quarter of next year
- GF working on selection of PR which will have incidence on who distributes the AMF nets
- 2 to 3 million nets to start off with as part of the rolling campaign. Not yet decided whether they will be PBO nets or not.

Ethiopia:

Population at risk of malaria in Ethiopia: <i>(World Malaria Report, 2012)</i>							
Required LLINs :							
LLINs imported into the country three years prior to update : <i>(AMP Net Mapping Project)</i>							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI

ANC							
EPI							
Totals	N/A	13 million		0			N/A

Ongoing issues:

- Scaling up the mass campaign - Completed Volta and Eastern region
- Scaling up Western, Central, Southern and Northern regions - Registration starts 10th May
- Will be overlaps with the region moving forward in moving the tablets region by region

Liberia:

Population at risk of malaria in Liberia :				4,130,000 (World Malaria Report, 2012)			
Required LLINs :				2,294,444			
LLINs imported into the country three years prior to update :				2,896,136 (AMP Net Mapping Project)			
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	Planned country wide mass distribution (last quarter of 2014)	2,195,796	1,159,089 GF 289,280 surplus from routine LLINs	169,726		Logistics and Implementation TA	09.10.13
ANC			577,700 USAID-PMI				
EPI							
Totals	N/A	2,195,796	2,026,069	169,726			N/A

Update on May 9th AMP conference call:

- In country mission is completed (implementation)
- Given the opportunity to plan for additional distribution points as there have been problems with micro planning
- Some of the distribution is still continuing. Switch from door to door to fix site distribution
- Uptake has been about 75%
- Doing more mobilisation - Distribution has extended beyond the time originally planned for
- Rains started heavily so problems with pre- positioning

Madagascar:

Population at risk of malaria in Madagascar : 19.176.420							
Required LLINs : 12 632 024 (10,653,567 campagne ; 1 678 457 routine et 300 000 SM)							
LLINs imported into the country three years prior to update : 11,236,039							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	National 106 districts		13,129,000				
ANC							
EPI							

Social Marketing							
Totals			13,129,000				

Update on May 9th AMP conference call:

- Follow up on ToRs for next mission end May/June

Malawi:

Population at risk of malaria in Malawi :			15,400,000 (World Malaria Report, 2012)				
Required LLINs :			8,555,556				
LLINs imported into the country three years prior to update :			9,040,385 (AMP Net Mapping Project)				
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	Need to fill remaining gap from 2012 mass distribution	800,000					10.04.13
ANC							
EPI							
Totals	N/A	800,000					N/A

Update on May 9th AMP conference call:

- Issues around the supply chain management are still unresolved: lack of alignment between the different actors involved in the campaign
- Concern is that we need to provide adequate support to finalise call for tenders. Nets will be arriving soon and contracting still needs to be put in place.
- Call before the end of the week to iron out these issues needs to be organised

Mali:

Population at risk of malaria in Mali :			15,880,000 (World Malaria Report, 2012)				
Required LLINs :			8,822,222				
LLINs imported into the country three years prior to update :			5,888,050 (AMP Net Mapping Project)				
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

ANC			33 million nets available for routine distribution in 2013				
EPI							
Totals	N/A	72 million	51,703,880	4,442,853			N/A

Update on May 9th AMP conference call:

- Weekly sitrep attached to the minutes of this week's call
- AMP consultant in country: Jean Marc Grégoire from April 20 to May 18, 2018

- Ogun State is organising with funding from the Global Fund through Catholic Relief Services a mass campaign distribution of Long Lasting Insecticidal Nets (LLINs) for an estimated total population of 5,657,526 people.
- To attain universal coverage by issuing 1 net for every 2 people rounding up in the case of an uneven number of household members, quantification of LLINs need for Ogun was estimated using the projected population for 2018 (from the 2006 census) divided by 1.8 (in line with WHO recommendations).
- With a 10 % buffer over estimated needs agreed upon because of the last national census was over 10 years in the past, 3,363,654 LLINs were procured for distribution to the estimated population.
- The aim of the process evaluation for the LLIN Campaign in Ogun State is to gain insights into the roll out of the campaign against the developed timeline while piloting a new technology which facilitates household mobilization, asset transfer and payments of campaign personnel. The process evaluation also seeks to understand what phases of activity could be improved upon for future campaigns in Nigeria.
- The process evaluation will specifically look at the different aspects of campaign planning and implementation including:
 - ✓ Monitor and evaluate the use of technology in LLIN campaign (during training, household mobilization, LLIN distribution and LLIN stock management at DPs)
 - ✓ Review the LLIN campaign implementation strategy/model for Ogun State
 - ✓ Review and recommend improvement on end process evaluation questionnaire
 - ✓ Share lessons and best practice from other countries
 - ✓ Make recommendations for improving Campaign processes and outcomes
 - ✓ Training of household mobilization teams
- In preparation for the Ogun household mobilisation process which was from April 14th to 23rd and the LLIN distribution at Distribution Points, training activities had already been realised as follows:
 - State TOT for State supervisors, state team, monitors MTs, and LGA team
 - LGA cascade training for ward supervisors and M&S
 - Training of independent monitors at state level
 - Orientation of Town Announcers at LGA level
 - Training of household mobilization teams
 - Campaign activities implemented
 - April 23rd -24th: Consolidation, syncing and reconciliation of household (HH) data
 - April 24th-25th: Preparation of micro-positioning plan (24th April 2018)
 - April 25th: TV Programme on net use and advocacy visits to authorities
 - April 26th - 28th: Orientation of DP Conveyors and transportation of LLINs from LGAs to DPs
 - April 26th-28th: DP Supervisors training on LLIN Management and DP team training at Ward level
 - April 27th: Official campaign launch (Flag off) at State and LGA level
 - April 30th: Lessons learned review meeting with campaign implementation team which included all activities from the trainings to the household mobilization process
 - Activities during the reporting period
 - May 1st - 5th: LLIN distribution at Distribution Points, airing of campaign radio jingles/drama on LLIN distribution and Ogun state Net Ambassador's endorsement jingle;
 - May 1st - 5th: Monitoring visits to Distribution Points to verify site organisation, LLIN redemption, supervision, stock reconciliation and device utilisation;
 - May 6th - 7th: LLIN distribution data syncing and Mop up;
 - May 7th: Proposal for reverse logistics to integrate surplus LLINS into routine distribution at local Health Centre level submitted to CRS;
 - May 7th: Training of Independent Monitors on the End process survey;
 - May 8th: Review of storage assessment template and Ogun warehouse assessment report;
 - May 8th - 10th: End process evaluation and syncing of End process data.
 - May 8th: Agreement reached amongst partners to have LLINs from reverse logistics be redistributed to routine distribution stocks at Health centre level and not be returned to state level.

- Challenges

- There were low net redemption rates in some DPs as a result of wrongly mobilized areas (beneficiaries were mobilized to DPs far from their area of residence)
- No internet credit on devices, poor connectivity issues, delayed responses and use of wrong badges resulted in some devices being unable to synchronize and data loss
- Late delivery of LLINS to some DPs and inadequate number of vehicles for LLIN movement to satellite DPs

- Solutions

- Town announcers intensify announcements on re-opening of DPs closer to beneficiaries.
- ICT4D unit rectify issues of unsynchronized devices and supply spare simcards to LGA coordinators
- Transport contractor provide increased monitoring of transport activities

- Upcoming activities:

- May 8th - 11th : Reverse logistics from DP level to LGA level
- May 11th : LGA level debriefings with LGA team and coordinators
- May 11th : State level debriefing & submission of report for finalization
- May 12th : Return to Abuja
- May 14-15th: Interviews with national level actors at NMEP and CRS
- May 16th : Debriefing meeting in Abuja with Chief of Party and CRS team
- May 17th : Participate in Quarterly workshop on LLIN Mass Campaign Implementation model – designed for reviewing the CAT Strategy implementation
- May 17th : AMP TA leaves Nigeria

Pakistan:

Population at risk of malaria in Pakistan:		147,773,000 (World Malaria Report, 2013)

Update on May 9th AMP conference call:

- Had a call today with DOMC, Hindus Hospital, Global Fund and AMP to discuss proposal for WFP to take over the distribution. Proposal is starting to look good. Specific concerns that need to be worked on:
 1. Campaign is significantly under budgeted – 35 cents a net
 2. Quantification: not enough nets – going through process of identifying what is rural and what is urban based on budget available and nets available
 3. Fixing a number of distribution points based on budget.
 4. Timing: delays in getting TA in place, and difficult planning because of lack of funds

- Based on workshop and training where AMP took the team through the log action plan template, team is informed on best practices and has developed a first draft.
- Need to work on tools for distribution

Tanzania:

Population at risk of malaria in Sierra Leone :					<i>(World Malaria Report, 2012)</i>		
Required LLINs :							
LLINs imported into the country three years prior to update :)							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution						CMA	26.01.17
ANC							
EPI							
Totals							

Ongoing issues:

- Launch in Zanzibar – community-based distribution
- Expecting to get 300'000 nets from PMI for distribution through health facilities until July

Uganda:

Population at risk of malaria in Uganda :					<i>34,550,000 (World Malaria Report, 2012)</i>		
Required LLINs :							
					<i>19,194,444</i>		
LLINs imported into the country three years prior to update :					<i>12,480,685 (AMP Net Mapping Project)</i>		
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	Two phases: P1 completed – May 2010- January 2011 (7,293,689 LLINs distributed)	19.64 million	11,653,054 (11,003,054 from GFATM Rd7 Phase II and 650,000 from USAID/PMI)	4 million		Implementation	03.04.13

	; P2 distribution planned to start in 2013						
ANC	PMI supported ANC distribution ongoing in approx. 40% of the country						
EPI							
Totals	N/A	19.64 million	11,653,054	4 million			N/A

Ongoing issues:

- Final nets of mass distribution have gone out
- Event celebrated and end of campaign attended by the president
- Expressed interest in IRS and announced he would like all HHs to be sprayed with IRS – estimated cost 97 million USD
- DFID pledged for next 5 years
- Uganda MoH has asked AMF for up to 30 million USD support
- Post distribution monitoring is underway in nets distributed 1 year ago.

Zambia:

Population at risk of malaria in Zambia :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals	N/A						

Ongoing issues:

- Nets are in country
- Distribution of 3 million AMF nets – 2.2 million nets still remaining – process for that is being completed.

WEST AFRICA REGIONAL NETWORK

WARN countries where update provided listed below. NB: This does not include all WARN countries.

WARN country updates provided on May 9th AMP call: None

Guinea

Population at risk of malaria in Guinea :		12,132,795 (PMI, 2015)					
Required LLINs :		6,949,395 (2016)					
LLINs imported into the country three years prior to update :		3,502,437 (AMP Net Mapping Project)					
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution	2016	6,949,395 (2016)		0			17.02.15
Continuous distribution	Under Round10 following mass distribution	949,391	347,000				
ANC							
EPI							
Totals	N/A	7,898,786	347,000	0			N/A

Ongoing issues:

- AMF is close to finalising agreement for nets for the campaign for distribution in April 2019 before the rainy season in May
- Number of AMF nets will depend on population analysis being done at the moment. Between 2.5 to 3.5 million nets to be procured to be determined when the results come in.
- Campaign co-funded by Global Fund, PMI and AMF.
- PR is CRS
- There is joint visit taking place week of May 14th.
- Filling the net gap has been a priority so far. Now looking into possibility of providing PBO nets with means of evaluating effectiveness.

Guinea Bissau:

Population at risk of malaria in Equatorial Guinea:
