

AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

AMP Conference call minutes: www.allianceformalariaprevention.com

14th November 2018

Dial-in number: +1-213-787-0529
USA toll-free: 888-808-6929
Access Code: 3904916

If you wish to be added to or taken off this mailing list please contact: melanie.caruso@ifrc.org

Do you have a topic / issue / country specific update to share with the AMP partnership? Send a summary of the topic you would like to discuss to: jason.peat@ifrc.org or melanie.caruso@ifrc.org and we will schedule your update at the start of an upcoming AMP conference call.

Agenda – November 14th AMP conference call

Chair : Jason Peat
Rapporteur : Melanie Caruso

- Introductions
- Review of minutes from last week's AMP conference call
- Presentation of minimum data requirements for mass ITN distribution campaigns
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, 21st November 2018 10:00 EST, 14:00 GMT / UTC, 16:00 CET

Participants:

AMF:	Peter Sheratt
AMP participants:	Greg Pirio, Melanie Caruso, Yves Cyaka
BASF:	Alex Heimsch
Buy a Net:	
CDC / PMI:	
CRS:	Suzanne Van Hulle
Disease Control Technologies:	
Friends of RAM:	Drake Zimmerman
Global Health Partners:	
Global Fund:	
IFRC:	
Independent participants:	Cedric Mingat
Intelligent Insect Control:	
IPHA:	
JC Flowers Foundation:	
JHU Centre for Communications:	Sean Blaufuss, Hunter Harig, Andrea Brown
JSI:

 WHO:
 World Vision:

General updates:

AMP annual partners’ meeting 2019 – SAVE THE DATE:

- Dates have been set to 28-29th January 2019 for the next AMP Partners’ meeting in Geneva and will be held at the Movenpick Hotel.
- Registration is now open (contact melanie.caruso@ifrc.org if you have not received information on registration).

VectorLink – Continuous Distribution

- Completed 3 assessments in Niger, Cameroun and Burkina Faso
- Also completed initial development in Niger of national LLIN Continuous Distribution guidelines.
- Ready to start looking at presentation to AMP on the process for Vectorlink and how to ensure information from countries is shared.

AMP working group updates:

Country support working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

Current AMP TA missions :

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
CAR	Logistics	AMP/World Vision	September-December 2018
Cameroun	Implementation & Logistics	AMP/PNLP	October – December 2018
Nigeria	Process evaluation Gombe State	CRS	November - December 2018
Uganda	Communications	CRSPC	November 2018

Planned AMP TA missions 2018-2019:

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Nigeria	TBD	CRS	Continuous 2019
Malawi	Implementation, Communications and Logistics	AMP	Continuous 2018
Madagascar	Implementation and Logistics	AMP	January 2019
Gambia	Logistics	CRSPC	November 2018
Senegal	Implementation and Logistics	CRSPC	November 2018
Cameroun	Implementation and Logistics	AMP	Continuous 2019
Congo Brazzaville	Implementation and Logistics	CRSPC	November/December 2018
Burkina Faso	Implementation, Communications and Logistics	CRSPC	December 2018
Sudan	TBD	TBD	2019
South Sudan	Implementation	CRSPC	December 2018
Uganda	Logistics	CRSPC	Q4 2018
Burundi	TBD	TBD	February/March 2019
Mozambique	TBD	TBD	February/March 2019
Ethiopia	TBD	TBD	TBD

Completed AMP TA support (distance and in-country) in 2018:

Country	Type of technical support requested from AMP	Partner / Funding source	Mission dates
Benin	Process evaluation (international) Process evaluation (national) Lessons learned workshop (international) Lessons learned workshop (national)	AMP AMP AMP AMP	July 2018 July 2018 September 2018 September 2018
CAR	Implementation Logistics Implementation	IFRC IFRC IFRC	February – March 2018 February – April 2018 March – April 2018
Cameroun	Implementation Logistics	CRSPC/UNOPS CRSPC/UNOPS	May 2018 May 2018
Gambia	Implementation	CRSPC	October 2018
Ethiopia	Process evaluation Implementation	CRSPC/UNOPS CRSPC/UNOPS	March-April 2018 July 2018
Liberia	Logistics	AMP	February - March 2018

	Implementation	AMP	February - March 2018
	Implementation	AMP	April – May 2018
Madagascar	Implementation Logistics Implementation Logistics	AMP AMP AMP AMP	January 2018 January 2018 June 2018 June 2018
Malawi	Implementation Logistics Logistics	AMP AMP AMP	March-April 2018 March-April 2018 August-September 2018
Nigeria	Implementation Implementation	CRS/AMP CRS/AMP	April – May 2018 July-September 2018
Pakistan	Logistics Implementation Implementation Pakistan	CRSPC/UNOPS CRSPC/UNOPS CRSPC/UNOPS CRSPC/UNOPS	April 2018 May 2018 August 2018 September 2018
Total # of countries supported by AMP in 2018 (in-country):			10

Emerging issues working group:

Co-chairs: Joe Lewinski – PSI (jlewinski@psi.org) and Jessica Rockwood – IPHA (jrockwood@iphadvisors.com)

Monitoring, Operational Research, and Evaluation (MORE) working group:

Co-chairs: (Anna Bowen - CDC/PMI aqb0@cdc.gov and Elizabeth Ivanovich UNF - eivanovich@unfoundation.org)

- No update

Net mapping project working group:

Chair: John Milliner – Milliner Global Associates (jemilliner@gmail.com) and Cedric Mingat PSI - cmingat@psimali.org

- No update

Toolkit and Training working group:

Chair: Marcy Erskine IFRC – marcy.erskine@ifrc.org

- 2 trainings are taking place this month (English and French) in Kenya
- The English language training took place last week, and the French language training is ongoing this week and will be completed on Friday.
- 9 anglophone countries participated in last week’s training, with 3 representatives for each country with profiles focused on logistics management, M&E and SBCC. All countries were from sub-Saharan Africa with the exception of Pakistan who was also present, and all participating countries are conducting mass or continuous campaigns in 2019 and 2020. This week, a total of 10 countries are participating in the French language training.

- Topics that are being covered in the trainings include quantification, procurement and macro-planning, logistics, continuous distribution, household registration, microplanning, communication, budgeting, M&E, data management, leadership and management.
- The curriculum is very interactive where we are working on different country scenarios for campaign planning with group work in the participants' areas of expertise (log, M&E and comms).
- Each of the trainings are four days in length
- The revised AMP Toolkit and the Continuous Distribution Toolkit are being used as guides to the content in the technical sessions. Using the toolkits as a road map for the trainings are helping to orient the NMCPs and implementing partners on the content and resources available from the partnership.
- The trainings so far are fostering good exchanges of country experiences in mass and continuous distribution between the different countries present.
- The training days are very full, with evening sessions also scheduled on specific topics such as planning of distribution in COEs and an introduction to the Commodity Management Audit tools for example.
- The training team will work on a final report and one pager from the trainings which we will aim to share across the partnership.
- New tools made available by AMP are being disseminated such as the newly published guidance on microplanning, the revised briefs on logistics and communications, the new guidelines and minimum data requirements etc.

- **New Tools:**
- We will present the newly available tools to the AMP partnership on some of our upcoming calls leading up to the end of the year. The future calls schedule will include the following topics:
 - November 28 - Hannah Koenker on the repurposing consensus statement
 - December 5 - Marcy/Alain (AMP) on the updated micro planning guidance from AMP
 - December 12 - Andrea/Hunter (JHU CCP) on the updated SBCC documents from AMP
 - December 19 - Marcy (AMP) on the COE guidance

- All these tools will be available on the AMP website in the next couple of days.
- One of the other things we are interested in gathering is to look at countries' payment systems to put together payment options for countries going forward – this issue will be brought forward within the AMP Country Support Working Group to gather lessons learned on behalf of the partnership.
- Same goes for lessons learned on electronic data collection methods.
- We've worked on some standard case study templates to collect information from countries and put some guidance together on these issues.

Resource Mobilization working group:

Jason Peat – IFRC Jason.peat@ifrc.org, Drake Zimmerman – Rotarians Action Group on Malaria drakezim@gmail.com and Jessica Rockwood – IPHA jrockwood@iphadvisors.com

- No update

AMP 'ACTIVE COUNTRIES'

Countries where AMP is currently providing technical assistance via in-country missions or distance support.

AMP 'Active Countries' updates provided on November 14th AMP call: Benin, Burkina Faso, Burundi, Cameroun, CAR, Congo Brazzaville, DRC, Guinea, Nigeria, Senegal, Uganda

Angola:

Population at risk of malaria in Angola :

Required LLINs :

LLINs imported into the country three years prior to update :

Update on November 14th AMP conference call:

- Multi product campaign planned – TA in this context looks like it’s going to be crucial after the recent procurement information regarding the availability of G2 nets for distribution. Ongoing TA may be possible through the UNITAID next generation nets project as they have factored in AMP TA for support to countries that will be rolling out distribution of next generation products.
- TA request has moved within the UNOPS system and there will be a first mission planned before the end of the year in December
- Distribution is planned in June next year. Planning for HH registration in February and microplanning should take place before that.
- The objective of the TA is to support the PNLN in Burkina Faso with the finalization of the macro planning documents, the campaign timeline and the preparation of the documents for the microplanning exercise that will take place in advance of the campaign.
- The major deliverables will include
 - Updated macroplanning documents and campaign timeline
 - Final agendas for microplanning TOT and workshops - The objective is to minimize the risk of a large gap in ITNs following the household registration through strengthening the microplanning part of the campaign. This was a problem that was identified in there last campaign, so trying not to make the same mistakes again!
 - Final M&E/logistics and communication microplanning templates
 - Draft document focused on considerations for communication planning for a multi-product campaign

Burundi:

Population at risk of malaria in Burundi :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI

Update on November 14th AMP conference call:

- The Global Fund reached out to AMP last week to inform AMP that through the malaria GF grant (2018-2020), they will be covering the costs of the AMP TA to the amount of 100k USD, for support with the 2020 LLIN mass campaign.
- They have initiated contact with the new PR UNDP to work with us on putting together the mechanism to enable the TA funding to be channeled through AMP
- We need to start discussing overall timelines and potential dates for missions for support with preparations (in 2019) and implementation of the campaign in early 2020
- There was an initial call with UNDP this week on possible contractual modalities that will allow UNDP to work with AMP.

Cameroun:

Population at risk of malaria in Cameroun :							
Required LLINs :							
LLINs imported into the country three years prior to update :

Update on November 14th AMP conference call:

- Sitrep shared with the minutes of this week's call
- Cameroon is planning to implement its third campaign in 2019. It is planned to distribute 14,697,104 LLINs with standard PBO and LLINs to be distributed
- Procurement through Wambo and PPM.
- 10 931 571nets will be financed by the GF and 3 765 533 LLINs will be financed by the Cameroonian government,
- When the consultants arrived, the campaign team had already drafted the first draft of the monitoring & evaluation, communication and security plans. With the GF, the PNLP team had already ordered certain quantities of LLINs to arrive for the first phase of distribution.
- Micro planning: the missions are composed of 2 groups of 4 people. They will supervise two regions each. The first two regions visited will be the Western and Southern regions for the period from November 19 to 23, and the Littoral and Eastern regions for the period from November 26 to 29
- Preparation are underway for receiving the LLINS: the contracts will be signed by the 16th at the latest for the southern regions. For the western and eastern regions steps are underway to finalize the contracts

Central African Republic (CAR):

Population at risk of malaria in CAR :
Required LLINs :

LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Update on November 14th AMP conference call:

- AMP TA in CAR supporting new PR World Vision
- Sitrep attached to the minutes of this week's call
- Continuation of TA services has been agreed to the end of the year with World Vision.
- World Vision is in charge of planning until December 2018 the mass distribution in the 14 remaining sub-prefectures without microplanning data: Haute-Kotto (03), Basse-Kotto (05) and Mbomou (06)
- This week they have been working on finalizing the quantification of tools and launching the production of tools and materials
- Support for the review and validation of the supervision and operating budgets of the partners (NGOs)
- Development of the TORs of the various training workshops of the main actors of the campaign
- Organization of a workshop for the members of the reinforcement teams and the SLP for the conduct of the training workshops in the field
- Elaboration of a road map for the campaign
- Support to the negotiation for the contractualization of the payments of the actors in the field with CARITAS

Chad:

Population at risk of malaria in Chad :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Ongoing issues:

- Request for support for evaluation of campaign as agreed with Global Fund.
- WHO was going to do it but now not possible so looking for AMP to support process evaluation as long as it's not the same consultants in place that supported the campaign planning
- Looking for AMP to support and putting out a call for consultants
- Please find the link to access to the TOR for the recruitment of the international consultant for mass campaign evaluation. Please share it anyone who might be interested.
- For UNDP staff : <http://procurement-notices.undp.org/> ID 44571
- For non UNDP staff : <http://procurement-notices.undp.org/search.cfm>.

Congo Brazzaville:

Population at risk of malaria in Congo Brazzaville:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Update on November 14th AMP conference call:

- First mission planned mid-November
- The TA requested is to support two aspects of the campaign: (1) the microplanning, which will take place in November – December 2018 and (2) the planning for the logistics training in advance of the ITN arrival.
- Major deliverables of the TA
 - Final agendas for microplanning TOT and workshops
 - Final M&E/logistics and communication microplanning templates
 - Final logistics training agendas and training supports
- Microplanning is ongoing right now as well as training of facilitators.
- First week of December they will have workshop with departments to start microplanning process
- KAP survey results should be in by January
- Recruitment of SRs is ongoing
- Nets are in production

DRC:

Population at risk of malaria in DRC :
Required LLINs :

LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
Mass distribution							
ANC							
EPI							
Totals							

Update on November 14th AMP conference call:

- AMF is planning to support LLIN distribution at the end of the 1st quarter of 2019 in a region in Equator Province with 1.6 million LLINs and during the 2nd quarter Sud Ubangi Province with 1.9 million LLINs for a total of 3.5 million LLINs followed by further regions in 2020
- Negotiations were concluded by AMF this week with MoH signing agreement to receive total 11.8 million nets for 2019. Assuming it goes well in the first two provinces and after mid-term review in February, the next provinces will also be provided with nets in 2019.
- Looking at insecticide resistance data very carefully
- Extra expenses in purchasing PBO nets needs to be looked at carefully
- Resistance data in Sud Ubangi and Tanganika looks serious and is growing, so these areas would be prioritised for PBOs. Not ruling out other areas, but out of 5 provinces to be covered, these two look most vulnerable to IR. Decisions are not finalised.
- Next step is finalisation of the orders.

Ethiopia:

Population at risk of malaria in Ethiopia:							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update

Ongoing issues:

- Cross boarder planning with Senegal
- See update on Senegal
- Looking at synchronised campaign with Senegal, trying to ensure all border populations are reached
- Gambia is currently finalising their plan after AMP comments and review
- Not aligned on procurement of nets for cross boarder distribution - different sizes and colours which may present challenges
- Coordination on use of electronic devices needs to be ironed out.
- Separating out the support to Gambia and Senegal. Marcy will cover cross border aspects. Senegal has a big distribution that requires more support separate from the cross-border campaign
- Plan for documentation of cross boarder campaign to inform future campaigns for border areas. Requested by WHO, as part of a bigger initiative around malaria elimination.

Ghana:

Population at risk of malaria in Ghana :							
Required LLINs :							
LLINs imported into the country three years prior to update :

Ongoing issues:

- PR is World Vision. AMP provided TA in terms of planning
- In summary, despite number of challenges, distribution is going well. The previous campaign was very delayed. Here they are only about a week off. Distribution is almost completed in southern region.
- This week, the national taskforce is meeting in Lilongwe for lessons learned to improve quality of distribution in central and norther regions.
- There are a number of concerns as there is an apparent shortfall of nets. Seems like nets from AMF are fewer than had been expected. Districts had provided for a 10 per cent buffer, and AMF has only provided a 5 per cent buffer. Having to make adjustments as they go due to this shortfall, the extent of which is not known at this stage.
- Reverse logistics and redistribution of nets will need to be sorted out
- To respond to the current shortfall, measures are being put in place: the taskforce has planned not to distribute nets in an IRS district; not to distribute in Lilongwe to some of the higher wealth quintile districts of the capital; and to cap nets per HH to make sure there are enough nets to reach their targets.
- 10.9 million nets total are provided by AMF and GF, and out of these, 2 million of the GF nets are PBOs.
- PMI looked at a realistic monitoring plan to monitor PBO nets without complicating the distribution and its schedule
- Concerns include that some nets now have to be moved around which will disrupt the PBO patterns of distribution because of the shortfall which makes the monitoring more difficult
- Overall the campaign is proceeding and on track to complete before rains start.

Mali:

Update on November 14th AMP conference call:

- AMP has completed the process evaluation for Katsina State distribution which has been shared with CRS and with the country
- The AMP TA provider is back in Abuja this week preparing for the next process evaluation of the Gombe State campaign – currently working out the movement of the consultant due to heightened security issues
- Gombe campaign planned to start on November 23rd. Completed social mobilization activities in the LGAs - just a bit over microplanning targets in terms of population.
- Next steps are training of distribution point teams on logistics and micro logistics to distribution points
- As we approach the end of 2018, CRS Nigeria has started thinking about key areas for AMP support for the 2019 LLIN Campaigns as the contract for TA between AMP and CRS will be renewed in 2019.

- Some of the proposed areas of focus would be around a follow up to the CMA missions that took place in 2018 and how the roll out went with the new tools, whether other tools are required and whether a more detailed operational guideline is required to standardize the new approach to the CMAs
- Look at microplanning and ensuring alignment with the updated guidance around this activity, and particularly looking at strengthening the SBCC aspect of micro planning
- Updating the implementation guidelines (this is quite overdue)
- There has been discussion about doing an ITN scale up and CD training in Nigeria so we will follow up with the malaria technical team at the GF and see where we are with that
- The country is also keen to revise the Routine/Continuous Distribution Manual early next year and are hoping that AMP could support with this.
- We have received the timelines for the 2019 LLIN Campaigns. All the campaigns will be implemented using ICT4D, except Yobe State where there are severe security challenges and inconsistent network/internet connections.
- 2019 LLIN Campaign implementation timeline

Activity	State	Timeline
Campaign	Delta	March 24 – May 22, 2019
	Yobe	March 31 – May 29, 2019
	Taraba	April 28 – July 3, 2019
	Kaduna	June 16 – August 14, 2019
	Kano	August 25 – October 23, 2019
	Niger	October 20 – December 18, 2019

Update on November 14th AMP conference call:

- Upcoming AMP mission to work with the PNLN on their cross-border campaign with The Gambia
- The objective of the TA is to support the PNLN in Senegal with the finalization of the macro planning documents, the campaign timeline and the preparation of the documents for the microplanning exercise that will take place in advance of the campaign. Additionally, the TA will focus on some considerations for communication planning.
- The TA will participate in the cross-border ITN planning meeting between The Gambia and Senegal.
- In-country TA: November 18 – December 11, 2018
- Major deliverables of the TA
 - a. Updated macroplanning documents and campaign timeline
 - b. Draft agendas for microplanning TOT and workshops
 - c. Draft M&E/logistics and communication microplanning templates
 - d. Draft document focused on considerations for communication planning
 - e. Identified next steps and workplan for meeting the cross-border campaign timelines
- Looking at synchronised campaign with Senegal, trying to ensure all border populations are reached
- Plan for documentation of cross border campaign to inform future campaigns for border areas. Requested by WHO, as part of a bigger initiative around malaria elimination.

Ongoing issues:

- Support mission in December is planned with focus on review of what they are doing
- It has taken them 3 years to roll out their campaign
- Need to look at options to accelerate their distribution
- Distribution planned in April and May next year
- Try to organise a COE meeting to look at cross interventions and operationalising the COE policy. To be followed up in the new year.

Ongoing issues:

- School distribution ongoing - 10 regions completed - Mwanza and Mara are the latest.
- Ongoing - Kigoma is about 50% complete and Simiyu is about 70% complete
- To be completed this week (10/13)
- Remaining regions are Tabora and Katavi
- Nets just arrived for these two - 11 containers and 5 more to be received from the port.
- Expect to start distribution on October 22nd for these two regions. Will have completed all of SNP by end of November.
- Some PBO nets are meant for Health facilities and School net programs for one DC of Muleba, On arrival they will be received and stored in the Kegeza Warehouse, then distribution will take place; the implication is the delay of SNP in the given Council and possible stock out at the health facilities that expect to receive them.

- This will be the first routine distribution of PBOs that we are aware of. It would be interesting to evaluate if trickling PBOs into communities is a useful strategy or if it works better to try to attain higher PBO net coverage levels quickly, even if that means fewer areas receive them.

Uganda:

Update on November 14th AMP conference call:

- AMP SBCC support has been rolled out through UNOPS system
- Request for logistics support for microplanning and macroplanning of next campaign -trying to find mechanism through UNOPS to put this additional request in place before the end of the year
- Uganda recently completed a Universal Coverage Campaign that has rolled out since 2016 in waves to cover the entire population.
- The campaign was completed in 2018.
- In total, over 25 million ITNs, including over 5 million PBO nets, were distributed during the campaign.
- One of the areas identified as requiring technical assistance in the preparation for the next UCC was social and behavior change communication (SBCC), in order to ensure that previous successes are reinforced and built upon and previous challenges are addressed and ameliorated in support of achieving the mass campaign objectives of universal coverage and use of ITNs.
- Major deliverables of the TA
 - ✓ Research priorities identified for addressing gaps from the previous campaign.
 - ✓ Communication plan, timeline and draft of budget
 - ✓ Mission report detailing next critical steps for the success of the SBCC planning.
- Exploring how to incorporate comms branding for the campaign with larger activities on malaria in Uganda
- Comms around repurposing of nets needs to be developed in light of new WHO guidance on it-communication around neutral repurposing will be important
- Attrition rates are high in Uganda

Ongoing issues:

- Discussions on funding of next programme aimed at 2020 have started between GF, PMI, AMF and NMCP
- Looking at net needs from last campaign, looking at urban area population figures, and determining net gap and funding gap.
- Significant shortfall of nets in last campaign was noted

WEST AFRICA REGIONAL NETWORK

WARN countries where update provided listed below. NB: This does not include all WARN countries.

Ongoing issues:

- J.C. Flowers Foundation has purchased 26,649 LLINs for distribution in Northern Namibia, in their program areas. They have been hearing for over a year now that most households in the communities they work in lack nets.
- Working closely with the Ministry on this. The nets are currently held up in Walvis Bay but we expect them to arrive at their destination soon and be distributed by field teams by end of August.

ASIA PACIFIC

Asia Pacific/Americas country updates provided on November 14th AMP call: None

Haiti:

Population at risk of malaria in Haiti :							
Required LLINs :							
LLINs imported into the country three years prior to update :							
Distribution channel	Scale of distribution	# LLINs needed per distribution channel	# LLINs available per distribution channel	LLIN gap per distribution channel	Budget gap per distribution channel	Technical assistance requested with date per distribution channel	Date of most recent update
