# **AMP** The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

AMP Conference call minutes: <u>www.allianceformalariaprevention.com</u> 10th October 2018

| Dial-in number: | +1-213-787-0529 |
|-----------------|-----------------|
| USA toll-free:  | 888-808-6929    |
| Access Code:    | 3904916         |

If you wish to be added to or taken off this mailing list please contact: melanie.caruso@ifrc.org

Do you have a topic / issue / country specific update to share with the AMP partnership? Send a summary of the topic you would like to discuss to: <u>jason.peat@ifrc.org</u> or <u>melanie.caruso@ifrc.org</u> and we will schedule your update at the start of an upcoming AMP conference call.

#### Agenda – October 10th AMP conference call

Chair : Jason Peat Rapporteur : Melanie Caruso

- Introductions
- Review of minutes from last week's AMP conference call
- Presentation of minimum data requirements for mass ITN distribution campaigns
- Country Updates
- Working Group Updates
- AOB

Next conference call: Wednesday, 17th October 2018 10:00 EST, 14:00 GMT / UTC, 16:00 CET

#### Participants:

| AMF:<br>AMP participants:                                | Greg Pirio, Jean-Marc Grégoire, Yves Cyaka, Eric Phollet, Giovanni<br>Dusabe |

|               | Pakistan                              | CRSPC/UNOPS | September 2018   |
| Total # of co | untries supported by AMP in 2018 (in- | 9           |                  |
| country):     |                                       |             |                  |

#### Emerging issues working group:

Co-chairs: Joe Lewinski – PSI jlewinski@psi.org) and Jessica Rockwood – IPHA jrockwood@iphadvisors.com)

- Final stages of finalising the container storage document. Coordinating with WHO's pre-qualification team to have a meeting on changes made to the document. Meeting in person around the time of the AMP meeting in January to be organised
- Looking at scheduling a time for the next EIWG conference call meeting we might do this on one of the weekly calls as there is wide interest from the partnership.

#### Monitoring, Operational Research, and Evaluation (MORE) working group:

Co-chairs: (Anna Bowen - CDC/PMI aqb0@cdc.gov and Elizabeth Ivanovich UNF -

eivanovich@unfoundation.org)

- Guinea are having their next campaign in the spring and want to look at comparing methods for HH registration. They have asked for help designing an evaluation of 2 different versions for HH registration for their campaign
- If any partners are interested in supporting this activity, please contact Anna Bowen at CDC using the email provided above.

#### Net mapping project working group:

Chair: John Milliner – Milliner Global Associates jemilliner@gmail.com and Cedric Mingat PSI cmingat@psimali.org

- 3<sup>rd</sup> quarter data collection ongoing, to come out by 15<sup>th</sup> of this month hopefully
- Two AMP core group members are in Addis this week at the RBM regional meeting, and they are showing the mapping part of the project and trying to encourage countries to supply distribution data on the mapping segments.

#### Toolkit and Training working group:

Chair: Marcy Erskine IFRC - marcy.erskine@ifrc.org

- 2 trainings in November (English and French) are being planned Kenya will host both trainings EN Nov 5-8<sup>th</sup> and FR back to back 13-16<sup>th</sup> Nov
- Most participants are now confirmed for the trainings form invited countries
- Almost completed agenda and draft country scenarios
- Communication briefs from the AMP toolkit are all completed except 2 and have gone to layout and translation.
- Training and microplanning briefs and guidelines are still in the works.

#### **Ongoing issues:**

- Request for support for evaluation of campaign as agreed with Global Fund.
- WHO was going to do it but now not possible so looking for AMP to support process evaluation as long as it's not the same consultants in place that supported the campaign planning
- Looking for AMP to support and putting out a call for consultants
- Please find the link to access to the TOR for the recruitment of the international consultant for mass campaign evaluation. Please share it anyone who might be interested.
- For UNDP staff : <u>http://procurement-notices.undp.org/</u> ID 44571
- For non UNDP staff : <u>http://procurement-notices.undp.org/search.cfm</u>.

#### **Congo Brazzaville:**

| Totals                  |                          |  |  |  |  |   |                                     |

#### **Ongoing issues:**

- AMF is planning to support LLIN distribution at the end of the 1<sup>st</sup> quarter of 2019 in a region in Equator Province with 1.6 million LLINs and during the 2<sup>nd</sup> quarter Sud Ubangi Province with 1.9 million LLINs for a total of 3.5 million LLINs followed by further regions in 2020.
- At this time AMF does not have funds to fill the entire LLIN gap but are working to cover those gaps that AMF can support.
- Working closely with GF and in-country partners.
- AMF will work with the same distribution partners as GF.

#### Ethiopia:

| EPI                     | EPI EPI   |  |  |  |  |   |                                     |  |  |  |  |
| Totals                  |   |  |  |  |  |   |                                     |  |  |  |  |

#### Ongoing issues:

- Final LLIN camping report has been circulated. The report is very light in content
- AMP has advised the country to review AMP TA mission reports and pull out challenges / lessons learned and add those to the NMCP final campaign report.

#### Madagascar:

| Population at           | Population at risk of malaria in Madagascar : |  |  |  |  |  |                                     |  |  |  |  |

| Social<br>Marketing  |  |  |         |  |
| Totals               |  |  |         |  |

#### **Ongoing issues:**

- Distribution has been completed in PMI areas.
- GF supported areas have started
- A major challenge with the lack of payment to 39,000 people who supported the first LLIN distribution.

#### Malawi:

| Population at           | t risk of malaria        | in Malawi :                                      |  |  |  |   |                                     |  |  |

| ANC                     |                          |  |  |  |  |   |                                     |  |  |
| EPI                     |                          |  |  |  |  |   |                                     |  |  |
| Totals                  |                          |  |  |  |  |   |                                     |  |  |

#### **Ongoing issues:**

- Mostly on track and distribution underway
- The launch of the campaign is planned for 17 September 2018 in Mangochi one of the Southern zone district
- Total Gap of LLINs 494 908
- Gap by LLIN type
- STD AMF 386 159
- PBO GF 226 000
- STD GF (Surplus) 117,308
- The problem is in verifying the registration numbers. NMCP has ruled out any new nets from GF. AMF may be able to provide but would need registration data verified.

#### <u>Mali:</u>

#### Update on October 10<sup>th</sup> AMP conference call:

- AMP provider has arrived in country to support process evaluation for Katsina State distribution
- General Objectives
- The in-country support for Katsina State is expected from 8<sup>th</sup> October to 2<sup>nd</sup> November 2018 for the to provide overall technical assistance during the LLIN Campaign in Katsina State
- Specific Objectives
- Monitor and evaluate the use of technology in LLIN campaign (LLIN distribution and LLIN stock management at DPs)
- Review the LLIN campaign implementation strategy/model for Katsina State
- Provide strategies that can be used in Katsina campaign drawn from lesson learnt in Ogun and Jigawa campaigns.

- Share lessons and best practice from other countries
- Make recommendations for improving Campaign processes and outcomes
- Review and recommend improvement on end process evaluation questionnaire
- Share a mission report after the exercise

#### Pakistan:

| Population at           | Population at risk of malaria in Pakistan: |  |  |  |  |  |                                     |  |  |  |  |

| Totals                  |  |  |  |  |  |  |                                     |  |  |  |  |

#### Ongoing issues:

- The Directorate of Malaria Control (DMC), Pakistan has been distributing LLINs since 2015 to achieve universal coverage particularly in high endemic districts (API>10). The country has been accessing the Global Fund funding where these resources and previous distribution of LLINs were through periodic mass campaigns, complimented by simultaneous continuous distribution of LLINs through antenatal services (ANC) that aims to promote antenatal visits in targeted districts.
- The country's National Malaria Strategy 2015-2020, seeks to increase access to LLINs to 80% among people living in high-risk malaria areas.
- In September of 2018, The Global Fund NFR (Malaria) Grant, Pakistan, will distribute approximately 3.1 million LLINs in 10 high malaria burden districts and 2 high malaria burden agencies, through a mass LLINs distribution Campaign.
- During April and May of 2018, the AMP, funded by RBM, provided logistics technical support to DMC, the Indus Hospital Network, WFP and the Pakistan Red Crescent Society (PRCS) in logistics macroplanning which heralded the development of various logistics macroplanning templates.
- Mass campaign starts on October 13th
- In process now of registering the areas. Distribution of coupons is underway.
- Local announcements and messages ongoing

#### Senegal:

| Population a | Population at risk of malaria in Senegal :                    |              |           |              |              |            |      |  |  |  |

#### **Ongoing issues:**

- Planning the next mass campaign in 2019
- As part of preparatory activities the NMCP has written to AMP to request Technical Assistance.
- The NMCP Gambia and PNLP Senegal agreed to synchronize their 2019 mass LLIN distribution campaign and as such are asking for guidance in this process. The Gambia advanced it's campaign by a year in order to do this.
- The initial date of early December to kick off the first TA misisons were deemed to be too late by the Global Funds so have been brought forward to October considering the fact that the campaign is planned to start in April.
- CRS is PR in the Gambia and IntraHealth in Senegal : the alignment brings some complexities and specificities for which this TA is welcomed to support the establishment of joint committees, joint planning, identification of villages in the border areas, etc.
- The CT has now initiated French/English communications so both sides can follow.
- Should use the opportunity of the planned West and Central Africa RBM meeting (in October in Dakar) and try to keep the team from The Gambia in Dakar for a few days to have the two NMCPs work together and align their planning.

| Population at           | Population at risk of malaria in South Sudan: |  |  |  |  |   |                                     |  |  |  |  |

#### South Sudan:

#### **Ongoing issues:**

- South Sudan vector control working group discussed changes to their 2015 national distribution plan of action to inform their upcoming distribution
- Highlighted recommendations that were discussed are:
- Removal of fingerprint as means of verification
- Post-distribution handled by community health department

- NMCP is developing new payment criteria for staff
- Distribution of vouchers will be done just before distribution to avoid loss
- Strengthening storage issues

#### <u>Tanzania:</u>

#### Update on October 10<sup>th</sup> AMP conference call:

- School distribution ongoing 10 regions completed Mwanza and Mara are the latest.
- Ongoing Kigoma is about 50% complete and Simiyu is about 70% complete
- To be completed this week (10/13)
- Remaining regions are Tabora and Katavi
- Nets just arrived for these two 11 containers and 5 more to be received from the port.
- Expect to start distribution on October 22nd for these two regions. Will have completed all of SNP by end of November.
- Some PBO nets are meant for Health facilities and School net programs for one DC of Muleba, On arrival they will be received and stored in the Kegera Warehouse, then distribution will take place; the implication is the delay of SNP in the given Council and possible stock out at the health facilities that expect to receive them.
- This will be the first routine distribution of PBOs that we are aware of. It would be interesting to evaluate if trickling PBOs into communities is a useful strategy or if it works better to try to attain higher PBO net coverage levels quickly, even if that means fewer areas receive them.

#### <u>Uganda:</u>

| Population at | Population at risk of malaria in Uganda : |                 |                 |              |              |               |        |  |  |  |

#### **Ongoing issues:**

- Planning meetings are starting for 2020 campaigns
- PBO study update is available and can be scheduled for a more detailed update on a next call
- Done baseline, 6-month and 12-month study. An 18-month study funded by DFID has been added on.
- Results are scheduled to be published in spring next year after 12 month study of nets that were given out in March this year.
- Results will be available in time for decision making on nets for 2020 campaign.

#### Zambia:

#### **Ongoing issues:**

- J.C. Flowers Foundation has purchased 26,649 LLINs for distribution in Northern Namibia, in their
  program areas. They have been hearing for over a year now that most households in the communities
  they work in lack nets.
- Working closely with the Ministry on this. The nets are currently held up in Walvis Bay but we expect them to arrive at their destination soon and be distributed by field teams by end of August.

#### Ongoing issues:

- Global Fund team visiting in August and meetings set up to discuss next round of distribution
- Challenges from last campaign discussed and found that security is a main concern going forward
- Not qualified as a COE country but would be interesting to look at how COE document could be supportive going forward in their planning

#### Indonesia:
