

AMP The Alliance for Malaria Prevention

Expanding the ownership and use of mosquito nets

Situation report: AMP TA to Ogun NMEP/CRS Nigeria, April 21 to May 17, 2018

Author of report: Jean Marc Grégoire

Date of report: April 24, 2018

Subject: Process Evaluation of 2018 Ogun Nigeria LLIN Mass Campaign Distribution

Context: Ogun State is organising with funding from the Global Fund through Catholic Relief Services a mass campaign distribution of Long Lasting Insecticidal Nets (LLINs) for an estimated total population of 5,657,526 people. To attain universal coverage by issuing 1 net for every 2 people rounding up in the case of an uneven number of household members, quantification of LLINs need for Ogun was estimated using the projected population for 2018 (from the 2006 census) divided by 1.8 (in line with WHO recommendations). With a 10 % buffer over estimated needs agreed upon because of the last national census was over 10 years in the past, 3,363,654 LLINs were procured for distribution to the estimated population.

AMP consultant in country: Jean Marc Grégoire from April 20 to May 18, 2018

Mission objectives:

The aim of the process evaluation for the LLIN Campaign in Ogun State is to gain insights into the roll out of the campaign against the developed timeline while piloting a new technology which facilitates household mobilization, asset transfer and payments of campaign personnel. The process evaluation also seeks to understand what phases of activity could be improved upon for future campaigns in Nigeria.

The process evaluation will specifically look at the different aspects of campaign planning and implementation including:

- Monitor and evaluate the use of technology in LLIN campaign (during training, household mobilization, LLIN distribution and LLIN stock management at DPs)
- Review the LLIN campaign implementation strategy/model for Ogun State
- Review and recommend improvement on end process evaluation questionnaire
- Share lessons and best practice from other countries
- Make recommendations for improving Campaign processes and outcomes

A mission report will be prepared after the exercise and presented to the NMEP, SMEP, CRS, AMP, campaign partners, and stakeholders.

Situation upon arrival in country:

In preparation for the Ogun household mobilisation process which started April 14th and the LLIN distribution at Distribution Points, training activities have already been realised as follows:

- State TOT for State supervisors, state team, monitors MTs, and LGA team
- LGA cascade training for ward supervisors and M&S
- Training of independent monitors at state level
- Orientation of Town Announcers at LGA level
- Training of household mobilization teams

Ogun State Process Evaluation Agenda
