Do you have a topic / issue / update to share with the AMP partnership? Please send a summary to jason.peat@ifrc.org to schedule your update at the start of an upcoming AMP conference call.

Agenda – July 21st AMP conference call

Chair : Jason Peat
Rapporteur : Elisa Riquier

- Country updates
- Working Group updates
- AoB

Number of participants July 21st call

- 38 participants

Next conference call: **Wednesday July 28th, 10:00 EDT, 14:00 GMT / UTC, 16:00 CEST**

I. GENERAL UPDATES

a. Topics of discussion for upcoming AMP conference calls

Date of upcoming AMP conference call	Topic	Focal point & Agency
July 21 th	No focus topic	N/A
July 28 th	No focus topic	N/A
August 4 th	No focus topic	N/A
August 11 th	No focus topic	N/A

II. COUNTRY UPDATES

Country updates provided on July 21st AMP call

Angola	
	<ul style="list-style-type: none"> The next campaign is planned in 2022 Initial coordination meeting held - USAID PMI as implementing partner in-country Initial call with World Vision where planning has been discussed. GF will cover 2 provinces and PMI 6 provinces There is no global strategy document yet to guide the campaign Two types of nets that are supposed to arrive end between Dec 2021 to Feb 2022 Some concerns around Communications

Burkina Faso		
Campaign summary table	Population at risk of malaria	Total population:
	Target population	
	Geographic reach of campaign

Cote d'Ivoire		
Campaign summary table	Target population	27 614 525
	Geographic reach of campaign	National
	Total number of ITNs	19 313 573
	Type of ITNs	PBO nets – funded by Government, GF and PMI
	Date planned for microplanning	Complete
	Date planned for HHR	Complete (March 15 th – 25 th 2021)
	Date planned for ITN distribution	Complete May 2021
Country summary	<ul style="list-style-type: none"> • Campaign complete • Awaiting final report from NMCP 	
Meeting update	<ul style="list-style-type: none"> • No update 	

DRC		
Campaign summary table	Target population	
	Geographic reach of campaign	Three provinces: Tanga, Congo Central, Haut-Lomami`
	Total number of ITNs	39 143 869 <ul style="list-style-type: none"> • Distribution of 4 million ITNs completed in Haut Katanga Province • Distribution of 2.4 million ITNs in Haut-Lomami • Distribution of 2 million ITNs in Tanganyika • Distribution of 3.1 million ITNs in Congo Central • Distribution underway in the North East of the country - 1.2 million ITNs will be distributed in total (600,000 standard ITNs and 600,000 PBO) • Distribution of 3.6 million ITNs planned in Ituri Province
	Type of ITNs	PBO ITN – funded by GF, PMI and AMF
	Date planned for microplanning	Complete
	Date planned for HHR	Complete
	Date planned for ITN distribution	2020-2021
Country summary	<ul style="list-style-type: none"> • COVID-19 adapted strategy door-to-door • Simultaneous registration and distribution • Fully digitized campaign roll-out • ITNs procured • PPE procured 	

Meeting update	<ul style="list-style-type: none"> • Net distribution in some provinces without incident, 2.3 million nets distributed as of this week. • Issues to be reported in the Ituri region in terms of violence. Despite these ongoing issues, 93.4% nets have gone out so far. Distribution remains challenging in some small areas where the security situation is still volatile. • Too many nets were distributed in some areas due to displacements but redeployment in areas where people were displaced. • In a 9-month period, ownership rates will be assessed in the region and anticipation that coverage rate will be lower in Ituri than in other parts of the country due to large displacements of populations. • The situation in Ituri is also big opportunity to improve our processes for net distribution to IDPs. As a large number of people were displaced in this region, need some more reflection around ITN coverage of these people as they may not bring their nets with them while returning to their homes. Hanging nets in displacement camps might also be a challenge. Reflection around increasing the rate of continuous distribution for IDPs in broad terms to ensure better coverage and ITN ownership. • Distribution encompassed mostly standard nets but also PBOs.
----------------	--

Ethiopia		
Campaign summary table	Target population	
	Geographic reach of campaign	11 districts
	Total number of ITNs	10 585 959 - funded by GF and PMI
	Type of ITNs	Standard LLIN – funded by GF and PMI
	Date planned for microplanning	
	Date planned for HHR	
	Date planned for ITN distribution	2021-2022
Country summary	<ul style="list-style-type: none"> • PMI funded ITNs to arrive in February • Remaining ITNs will arrive in April • Central level ToT and micro planning to take place next week • Workshops will cover lessons learned 	
Meeting update	No update	

Ghana		
Campaign summary table	Target population	
	Geographic reach of campaign	10 regions in two phases
	Total number of ITNs	16 225 716
	Type of ITNs	PBO ITN, standard LLIN and IG2
	Date planned for microplanning	Complete
	Date planned for HHR	Phase 1 HHR complete Phase 2 : HHR between June 2-8
	Date planned for ITN distribution	Distribution will take place between May 18th -24 2021 for phase 1 regions and in June 2021 for phase 2 regions

Country summary	<ul style="list-style-type: none"> Two-phase household registration and distribution with NetApp COVID-19 mitigation measures are masks and two foot spacing at the distribution points. there's also no coupons to be exchanged the net app will capture the phone numbers or ID numbers. distribution points will not be significantly increased just for population increases and the number of days of distribution in the urban areas are being increased Planning a multi-product campaign in 2022 PPE procured
Meeting update	<ul style="list-style-type: none"> Delays in terms of new nets delivery. Fifth region will have to hold off for ITN distribution and wait until September as new nets have not arrived. Next week distribution in 4 regions and 3.4 million expected to be distributed. Rumor management: Low covid cases reported but crises meetings in recent days due to increase of cases. Measures to ensure that the cases do not escalate. Lot of attention for 2 main epicenters of COVID19.

Kenya		
Campaign summary table	Total number of ITNs	15 707 752 – funded by PMO and GF
	Type of ITNs	Standard LLIN and PBO ITN
Country summary	<ul style="list-style-type: none"> Two-phase household registration and distribution COVID-19 mitigation measures are masks and two foot spacing at the distribution points PPE procured 	
Meeting update	<ul style="list-style-type: none"> No update 	

Liberia		
Campaign summary table	Target population	4,931,090 (2018 campaign microplan population projected to 2021 at a growth rate of 2.1 %)
	Geographic reach of campaign	National, covering all 15 counties in Liberia
	Total number of ITNs	2,783,264
	Type of ITNs	IG2 - procured by GF
	Date planned for microplanning	Complete
	Date planned for HHR	Complete
	Date planned for ITN distribution	June 2021
Country summary	<ul style="list-style-type: none"> Two-phase household registration and distribution for 14 rural counties fixed point distribution and 1 urban county door-to-door distribution COVID-19 mitigation measures are masks and two foot spacing at the distribution points Limited digital data collection from Kobo AMP TA in place through RBM PPE procured New net type, Interceptor G2 to be distributed in all counties 	
Sitrep update	<ul style="list-style-type: none"> TA update: <ul style="list-style-type: none"> ITN distribution has been completed in 11 counties. The other 4 counties are still doing distributions in the most hard to reach districts due to the accessibility seriously affected by the heavy rains. The Liberia team is currently working on the consolidation of the distribution data. 	

	<ul style="list-style-type: none"> • The KoBo database for the Liberia campaign shows that almost 2.6 Million ITNs have been distributed out of the 2.8 Million available ITNs for the Liberia campaign, which represents 92% of the total amount of ITNs planned for distribution. • In preparation for reverse logistics, Liberia team is working on the reconciliation of ITNs delivered, distributed and leftovers. • Final draft of the protocol for integration of 2021 mass campaign nets into routine services, reverse logistics for the leftover of ITNs as well as waste management for the empty packs of nets including PPEs, is currently under final review before implementation. • There are ongoing discussions between NMCP, Plan Liberia and partners, for the reprogramming of SBC funds supposed to be used at county level for airing campaign messages that are still available. Only one county have used the funds. <p>Challenges:</p> <ul style="list-style-type: none"> • Conflicting data between KoBo system and actual reports provided by the service providers is slowing down and making difficult the harmonization of the entire campaign data. • Delays in collecting the waste at the district level especially in Montserrado has become a serious concern. The district warehouse contracts signed by the SPs, have expired and the owners have expressed that they will remove all the waste from their warehouses, which may result in losing control of the waste. <p>Next steps:</p> <ul style="list-style-type: none"> • Complete the consolidation and harmonization of campaign data • Start reversing ITNs.
Meeting update	<ul style="list-style-type: none"> • 11 counties have completed distribution and now reconciling data. Focus on distribution in high-to-reach districts. 2.6 million already distributed, accounting for 93% distribution rate. The country team is currently working on adding data to Kobo system and come up with harmonized figures. • Team working on protocol for integration of new nets. An initial draft was provided and AMP working on final input to submit to country for implementation, including what to do with leftover ITNs and waste management for plastics and PPE. • SBC: post campaign SBC activities being planned and reprogramming the funds not used for the activities in terms of distributing messages at county level. <p>2 major challenges:</p> <ul style="list-style-type: none"> • Harmonization of data on kobo system. High efforts to go back to tracking document to harmonize the data. • Waste management: identification of incinerators at the district level that have the capacity to incinerate the waste has been challenging. • Protocole for reverse LOG: quantity of leftover nets. This year efforts to improve net access. • Rumors and rejections of the nets: communication cluster call where NMCP presented finding of rapid assessment for scale of rumors. The assessment revealed some gaps in terms of monitoring and reporting of SBC activities. • Lessons-learnt for future TA: draft rumor management plan developed specifically for COVID19. Lot of the delays could have been avoided if that plan had been adopted the campaign. Something to be aware of for future TA or countries planning their

	<p>campaigns right now. This issue also shows the need for a flexible budget for immediate action and identify a mechanism if we have to move quickly. We are not equipped to act in Liberia.</p> <ul style="list-style-type: none"> Liberia needs more than post-distribution SBC to address the low access they are going to have. They need a plan for how they are going to distribute remaining nets in missed communities.
--	---

Madagascar		
Campaign summary table	Target population	22,395,517
	Geographic reach of campaign	101 districts (114 districts in total in country)
	Total number of ITNs	10,719,800 MID Standards (GF) / 3,677, 000 MID Standards (PMI) / 277, 350 MID PBO (GF)
	Type of ITNs	Standard LLIN and PBO ITN
	Date planned for microplanning	May 2021
	Date planned for HHR	August 2021
	Date planned for ITN distribution	August 2021
Country summary	<p>Two-phase household registration and distribution at fixed points Digital data collection happening COVID-19 mitigation measures are masks and two foot spacing at the distribution points PPE procured</p>	
Meeting update	<ul style="list-style-type: none"> Last reported situation in country: the PPE ordered through wambo have been delayed. Nets have been on the ground since the end of last year. NMCP was late for order to C19RM. NMCP tried to mobilise the partners to provide fabric masks and see what was available on the ground. Consultations reveal that there is enough PPE for distribution in 10 of the 21 regions for still a gap for remaining parts of the country. The situation is currently on hold and try to have more information for next week. 	

Malawi		
Campaign summary table	Target population	16,665,561
	Scale of campaign	25 districts out of 29 Malawi districts (4 IRS districts excluded)
	Total number of ITNs	9,258,645
	Breakdown of nets	3,749,406 IG2 516,677 Royal Guard 4,992,562 PBO nets
	Date planned for microplanning	May 2021
	Date planned for HHR	August 2021
	Date planned for ITN distribution	October/ November 2021
Country summary	<ul style="list-style-type: none"> Two-phased fixed site distribution strategy with a door-to-door household registration followed by fixed-site distribution three months later. They will use registration books to identify recipients at the distribution points The 2021 mass ITNs distribution campaign will target 25 districts in Malawi. Excluded from the campaign are Mangochi, Balaka, Nkhotakota and Nkhata Bay districts that will benefit from the indoor residual spraying (IRS) program. COVID-19 mitigation measures are masks and two foot spacing at the distribution points 	

	<ul style="list-style-type: none"> A mop-up distribution is planned for two communities of Chauma and Lupachi in Nkhotakota district. These are hard-to-reach communities in an IRS district that were not reached during the IRS activity The first batch of nets is planned to start being shipped on 20/07/2021
Meeting update	<ul style="list-style-type: none"> No update

Niger		
Campaign summary table	Target population	7 708 784
	Geographic reach of campaign	4 regions (Agadez, Tahoua, Maradi and Zinder)
	Total number of ITNs	4 411 138
	Type of ITNs	Standard LLIN – funded by GF
	Date planned for microplanning	Complete
	Date planned for HHR	Complete
	Date planned for ITN distribution	Complete May-June 2021
Country summary	<ul style="list-style-type: none"> 2021 campaign complete 2022 campaign will be implemented in 7 regions (9 424 727 ITNs planned) and involve the new net types 	
Meeting update	<ul style="list-style-type: none"> The final report still needs to be signed off by the NMCP. Next phase of campaign is 2022 that the NMCP wants to digitalise the campaign. 	

Nigeria		
Campaign summary table	Target population	
	Geographic reach of campaign	10 states (funded by USAID PMI and the GF)
	Total number of ITNs	28 210 129 in 2021 / 26 192 725 in 2022 / 33 622 816 in 2023
	Type of ITNs	Standard LLIN and PBO ITN
	Date planned for microplanning	Complete
	Date planned for HHR	
	Date planned for ITN distribution	July 2021
Country summary	<ul style="list-style-type: none"> 2 distribution strategies <ul style="list-style-type: none"> Global fund is the single-phase simultaneous registration door to door distribution PMI is two phase and distribution through fixed sites Currently GF is digitized (Red rose) and PMI looking to digitized for future campaigns 	
Meeting update	<ul style="list-style-type: none"> Current review to look at comparing what the outcomes of the campaign was for 2020 vs campaign in same states in 2017. Mac looked at data for end process assessment and mapped results on state level maps and show change. Interesting on how we can better target SBC. Review around the methodology for end process monitoring working within the budget they have. Hope to finalise methodology used for the current campaign. Work very useful for NMEP and showed need for more investigation and look more qualitatively on what they will do. 	

Pakistan		
Campaign summary table	Target population	
	Geographic reach of campaign	3 provinces
	Total number of ITNs	3 998 484

	Type of ITNs	Standard LLIN
	Date planned for microplanning	
	Date planned for HHR	
	Date planned for ITN distribution	ITN distribution completed on Dec. 3rd 2020 2021 TBD
Country summary	<ul style="list-style-type: none"> • Campaign Strategy not yet determined • Plans for digital data collection - Pakistan is looking at using Red rose for their hybrid strategy • Delays in campaign due to the quality issue for the Nets which are blocked while that's sorted out 	
Meeting update	<ul style="list-style-type: none"> • Preparation for campaign and planning in last week. Weekly meetings held with stakeholders. Draft timeline shared with Pakistan malaria programs. Holiday in Pakistan this week so progress is slow. • Next week AMP TA providers will share the PoA with the malaria programs including LOG, microplanning and training material. • Delay and push in terms of contracting, discussion within the risk assessment mitigation plans. • Rumour management and COVID19 context: more cases in rural areas have been reported. SBC activities will take into consideration the context of Pakistan. In media alerts about the delta variant increase in urban and rural areas, situation will need to be watched carefully. 	
Sitrep update	<p>Key activities during the reporting period:</p> <ul style="list-style-type: none"> • Participated in weekly meeting with the country's 2021 ITN mass campaign coordination team (GF-CT, DOMC, IHN IFRC/PCRS, AMP) • Worked on campaign timeline and finalized the draft campaign document for consideration by the Pakistan team. Discussions regarding the timeline are still going on between DOMC and the IP (IFRC/PCRS) due to risks of campaign delay as a result of contract negotiations and the signing process coupled with the Islamic holiday week. • Continued to work on campaign plan of action (POA) and a draft POA is almost completed and will be shared with DoMC) on July 22, 2021. This activity involved multiple consultation/discussions with the DOMC team and the draft timeline has been also considered in the adaptation of the POA. • Held meeting call with SBC Sub-committee and discussed on SBC documents for review and planned next steps • Reviewed SBC documents from past campaigns and devised list of issues to be resolved. <p>The week ahead</p> <ul style="list-style-type: none"> ○ Share the draft POA with DOMC and hold discussion for finalization ○ Work on other documents including Logistics and SBC POA, macro budget, risk assessment and mitigation plan (RAMP), microplanning data collection templates, orientation and training materials, and supervision and monitoring tools ○ Arrange meetings with sub-committees to discuss on the reviewed documents. ○ Participate in the weekly meeting with the country's 2021 ITN mass campaign coordination team (GF-CT, DOMC, IHN, IFRC/PCRS, AMP). 	

Uganda		
Campaign summary table	Target population	
	Geographic reach of campaign	
	Total number of ITNs	13 000 000
	Type of ITNs	
	Date planned for ITN distribution	Complete
Country summary	<ul style="list-style-type: none"> Campaign complete 	
Meeting update	<ul style="list-style-type: none"> No update 	

Zambia		
Campaign summary table	Target population	10,5 million
	Geographic reach of campaign	
	Total number of ITNs	5,7 million
	Type of ITNs	
	Date planned for ITN distribution	Complete
Country summary	<ul style="list-style-type: none"> Campaign complete Misuse study planed in 2020 but postponed to COVID-19 (to assess the misuse of nets for fishing). Need to follow up on this. 	
Meeting update	<ul style="list-style-type: none"> Planning for continuous distribution for this year. Presentation on use of GRID3 reveal during one of the AMP weekly call. 	

III. WORKING GROUP UPDATES

Continuous distribution Working Group:

Co-chairs: Janee Miller (PMI VectorLink Project) jmiller@psi.org & Balla Kandeh (NMCP The Gambia): ballakandeh@yahoo.co.uk

- No update

Country support Working Group:

Chair: Marcy Erskine (IFRC) marcy.erskine@ifrc.org

- No update

Innovation and Evaluation Working Group:

Co-chairs: Joe Lewinski (CRS) joseph.lewinski@crs.org & Jessica Rockwood (IPHA) jrockwood@iphadvisors.com

- No update

Net mapping project Working Group:

Chair: John Milliner (Milliner Global Associates) jemilliner@gmail.com

- Q2 report has been published. Results show that cumulatively over 15 years, almost 2.5 billion nets were distributed in the world. Need to think about communication activities when the 2.5 point is reached.
- Last year, PBO nets were 25% of the total in Africa. This year up to 35% PBO nets, number of PBO nets much more important than last year.

Multi-Product Working Group:

Co-chairs: Chris Lourenco (PSI) clourenco@psi.org & Miko Thomas mikojthomas@gmail.com

- Meeting next Thursday focusing on community HH waste management issues.

Resource Mobilization Working Group:

Co-chairs: David Gittelman (DMG Global) david@dmgglobalhealth.com & Jason Peat (IFRC) Jason.peat@ifrc.org & Jessica Rockwood (IPHA) jrockwood@iphadvisors.com & Drake Zimmerman (Rotarians Action Group on Malaria) drakezim@gmail.com

This WG has been focusing on flexible and tailored TA to cover short term requests.

Update in early September on how we propose to move this forward to partners.

Toolkit and Training Working Group:

Chair: Marcy Erskine (IFRC) marcy.erskine@ifrc.org

No update
